

The background of the image shows a scene of ancient Roman ruins. On the left, there is a long, low wall made of large stone blocks. To the right, several tall, fluted columns stand, some of which are part of a larger structure that has been partially destroyed. In the distance, a small, square building with a flat roof and a few columns is visible. The sky is filled with soft, white clouds, and the overall lighting suggests a bright, sunny day. The text is overlaid on this scene, with the title in large, bold, white letters and the author's name in smaller, white letters below it.

Rome the Cosmopolis Catharine Edwards, Greg Woolf, 2006-11-02 Rome stands today for an empire and for a city The essays gathered in this volume explore some of the many ways in which the two were interwoven Rome was fed beautified and enriched by empire just as it was swollen polluted infected and occupied by it Empire was paraded in the streets of Rome and exhibited in the city's buildings Empire also made the city ineradicably foreign polyglot an alien capital and a focus for un Roman activities The city was where the Roman cosmos was most concentrated and so was most contested Deploying a range of methodologies on materials ranging from Egyptian obelisks to human skeletal remains via Christian art and Latin poetry the contributors to this volume weave a series of pathways through the world city exploring the different kinds of centrality Rome had in the empire The result is a startlingly original picture of both empire and city

Why We're All Romans Carl J. Richard, 2010-04-16 This engaging yet deeply informed work not only examines Roman history and the multitude of Roman achievements in rich and colorful detail but also delineates their crucial and lasting impact on Western civilization. Noted historian Carl J. Richard argues that although we Westerners are all Greeks in politics, science, philosophy, and literature, and all Hebrews in morality and spirituality, it was the Romans who made us Greeks and Hebrews. As the author convincingly shows, from the Middle Ages on, most Westerners received Greek ideas from Roman sources. Similarly, when the Western world adopted the ethical monotheism of the Hebrews, it did so at the instigation of a Roman citizen named Paul, who took advantage of the peace, unity, stability, and roads of the empire to proselytize the previously pagan Gentiles, who quickly became a majority of the religion's adherents. Although the Roman government of the first century crucified Christ and persecuted Christians, Rome's fourth and fifth century leaders encouraged the spread of Christianity throughout the Western world. In addition to making original contributions to administration, law, engineering, and architecture, the Romans modified and often improved the ideas they assimilated. Without the Roman sense of social responsibility to temper the individualism of Hellenistic Greece, classical culture might have perished, and without the Roman masses to proselytize and the social and material conditions necessary to this evangelism, Christianity itself might not have survived.

The World's Progress: a Dictionary of Dates George Palmer Putnam, 1851

Romans and the Mission of God Mark J. Keown, 2021-12-23 *Romans* is a missional document. Yet strangely, while many recognize the missional aspects of *Romans*, few monographs are totally devoted to unpacking *Romans* from a missional perspective. *Romans and the Mission of God* does this very thing. Part one explores the background of the letter with an eye to positioning *Romans* in the story of the mission of God, the apostle, the Roman world, and the early church. Part two considers how *Romans* is a contextually shaped presentation of the gospel. A range of other aspects of the way in which Paul shapes his message for the Romans are explored, including salvation history, metaphors, and rhetorical techniques, and aspects of the letter including elements opposed to God, salvation ideas, human response, ethics, and Christian living, and the eschaton. Part three delves into issues that arise in *Romans* that are important for contemporary mission. These include such things as the cosmic scope of the mission, the gospel as the power of salvation, who does evangelism, the miraculous, social justice, ecology, social transformation, generosity, and hospitality, God's sovereignty, and human volition, prayer, the State, culture, Israel, apologetics, and theological thinking. This is a must-read for those serious about Paul, *Romans*, and God's mission.
