New Approaches to Popular Romance Fiction Sarah S.G. Frantz, Eric Murphy Selinger, 2014-01-10 Despite the prejudices of critics popular romance fiction remains a complex dynamic genre It consistently maintains the largest market share in the American publishing industry even as it welcomes new subgenres like queer and BDSM romance Digital

publishing originated in erotic romance and savvy online communities have exploded myths about the genre's readership. Romance scholarship now reflects this diversity transformed by interdisciplinary scrutiny, new critical approaches, and an unprecedented international dialogue between authors, scholars, and fans. These eighteen essays investigate individual romance novels, authors, and websites, rethink the genre's history, and explore its interplay of convention and originality. By offering new twists in enduring debates, this collection inspires further inquiry into the emerging field of popular romance studies.

Women and Men As Friends Michael Monsour, 2001-10-01 This monograph studies women and men as friends from a developmental perspective. *Women and Men as Friends* examines cross-sex friendships from early childhood through old age, then summarizes the findings and offers recommendations on how friendship between males and females can be encouraged throughout the life span. In each chapter, three themes are documented and applied to the corresponding stage of life. Cross-sex friendships enrich an individual's social network in generic and unique ways. Social and structural barriers interfere with the formation of cross-sex friendships in every stage of life. Cross-sex friendships affect and are affected by an individual's ongoing social construction of self throughout the life cycle. The primary audience for the volume is scholars and students in personal relationship study, interpersonal communication, social psychology, sociology, with a secondary audience of scholars in family studies, developmental psychology, and clinical psychologists. The book can also be used as a supplemental text in graduate and undergraduate courses for the relevant disciplines.

Representing Difference in the Medieval and Modern Orientalist Romance Amy Burge, 2017-02-14 This book, the first full-length cross-period comparison of medieval and modern literature, offers cutting-edge research into the textual and cultural legacy of the Middle Ages, a significant and growing area of scholarship. At the juncture of literary, cultural, and gender studies, and capitalizing on a renewed interest in popular western representations of the Islamic east, this book proffers innovative case studies on representations of cross-religious and cross-cultural romantic relationships in a selection of late medieval and twenty-first-century Orientalist popular romances. Comparing the tropes, characterization, and settings of these literary phenomena and focusing on gender, religion, and ethnicity, the study exposes the historical roots of current romance representations of the east, advancing research in Orientalism, neo-medievalism, and medieval cultural studies. Fundamentally, *Representing Difference* invites a closer look at medieval and modern popular attitudes towards the east as represented in romance and the kinds of solutions proposed for its apparent problems.

In The Name of Love Aaron Ben-Ze'ev, Ruhama Goussinsky, 2008-02-21 We yearn to experience the idealized love depicted in so many novels, movies, poems, and popular songs. Ironically, it is the idealization of love that arms it with its destructive power. Popular media consistently remind us that love is all we need, but statistics concerning the rate of depression and suicides after divorce or romantic break-up remind us what might happen if all that we need is taken away. This book is about our ideals of love, our experiences of love, the actual disparity between the two, and the manners of coping with this disparity. A major study case of the book concerns men who

have murdered their wives or partners allegedly out of love It is estimated that over 30% of all female murder victims in the United States die at the hands of a former or present spouse or boyfriend How can murdering a loved one be associated with the assumed moral and altruistic love Not only is love intrinsically ambivalent but it can also give rise to dangerous consequences Some of the worst evils have been committed in the name of love as in the name of God A unique collaboration between a leading philosopher in the field of emotions and a social scientist In the Name of Love presents fascinating insights into romantic love and its future in modern society

The Romantic Economist Richard Bronk, 2009-02-05 Since economies are dynamic processes driven by creativity social norms and emotions as well as rational calculation why do economists largely study them using static equilibrium models and narrow rationalistic assumptions This book argues that economists should look for new techniques in Romantic poetry and philosophy *Inchbald, Hawthorne and the Romantic Moral Romance* Ben P Robertson, 2015-10-06 Explores the connections between British and American Romanticism focusing on the novels of Elizabeth Inchbald 1753-1821 and Nathaniel Hawthorne 1804-1864 This study argues that Inchbald and Hawthorne are representative of a larger British American cultural confluence during the eighteenth and nineteenth centuries

Romanticism Against the Tide of Modernity Michael Löwy, Robert Sayre, 2002-01-01 A translation from the French of Michael Lowy and Robert Sayre's attempt to unify discussion of the diverse manifestations of Romanticism *No Requiem for the Space Age* Matthew D. Tribbe, 2014-06-06 During the summer of 1969 the summer Americans first walked on the moon musician and poet Patti Smith recalled strolling down the Coney Island Boardwalk to a refreshment stand where pictures of Jesus President Kennedy and the astronauts were taped to the wall behind the register Such was the zeitgeist in the year of the moon Yet this holy trinity of 1960s America would quickly fall apart Although Jesus and John F Kennedy remained iconic by the time the Apollo Program came to a premature end just three years later few Americans mourned its passing Why did support for the space program decrease so sharply by the early 1970s Rooted in profound scientific and technological leaps rational technocratic management and an ambitious view of the universe as a realm susceptible to human mastery the Apollo moon landings were the grandest manifestation of postwar American progress and seemed to prove that the United States could accomplish anything to which it committed its energies and resources To the great dismay of its many proponents however NASA found the ground shifting beneath its feet as a fierce wave of anti-rationalism arose throughout American society fostering a cultural environment in which growing numbers of Americans began to contest rather than embrace the rationalist values and vision of progress that Apollo embodied Shifting the conversation of Apollo from its Cold War origins to larger trends in

American culture and society and probing an eclectic mix of voices from the era including intellectuals religious leaders rock musicians politicians and a variety of everyday Americans Matthew Tribbe paints an electrifying portrait of a nation in the midst of questioning the very values that had guided it through the postwar years as it began to develop new conceptions of progress that had little to do with blasting ever more men to the moon No Requiem for the Space Age offers a narrative of the 1960s and 1970s unlike any told before with the story of Apollo as the story of America itself in a time of dramatic cultural change Varieties of Female Gothic Vol 1 Gary Kelly,2020-04-27 This text offers scholarly and critical editions of significant novels of Gothic fiction from the Romantic period It illustrates the various forms of female Gothic literature as a vehicle for representing the modern forms of subjectivity or complex and authentic inward experience and identity

Rebirth of Rhetoric Richard Andrews,2012 Rebirth of Rhetoric brings together contributions from several fields to provide a forum in which a unifying theory for language and literature studies can be debated The book does not aim to resurrect classical Renaissance rhetoric but to remake it within a contemporary context The context of texts both spoken and written is one of the main emphases of this collection whether it is the ideology informing the text or the way in which a text is transformed by its audience The book also aims to present a range of practical approaches to the study of texts of all kinds literary televisual film and photography It also argues the case for developments in the Arts and Humanities which will bring together people working in Education Linguistics Composition Literature and Cultural Studies **Love, Power, and Gender in Seventeenth-Century French Fairy Tales** Bronwyn Reddan,2020-12 Love is a key ingredient in the stereotypical fairy tale ending in which everyone lives happily ever after This romantic formula continues to influence contemporary ideas about love and marriage but it ignores the history of love as an emotion that shapes and is shaped by hierarchies of power including gender class education and social status This interdisciplinary study questions the idealization of love as the ultimate happy ending by showing how the conteuses the women writers who dominated the first French fairy tale vogue in the 1690s used the fairy tale genre to critique the power dynamics of courtship and marriage Their tales do not sit comfortably in the fairy tale canon as they explore the good the bad and the ugly effects of love and marriage on the lives of their heroines Bronwyn Reddan argues that the conteuses scripts for love emphasize the importance of gender in determining the right way to love in seventeenth century France Their version of fairy tale love is historical and contingent rather than universal and timeless This conversation about love compels revision of the happily ever after narrative and offers incisive commentary on the gendered scripts for the performance of love in courtship and marriage in seventeenth century France **An Outline of Romanticism in the West** John Claiborne Isbell,2022-09-05 Navigating the landscape of Romantic literature and art across Europe and the Americas An Outline of Romanticism in the West invites readers to embark upon a literary journey Showcasing a breadth of theoretical and contextual approaches to the study of Romanticism John Isbell provides an insightful contemporary overview of the field paired with wide ranging comparative reflections on the

art and literature that helped shape it. Discussing seminal Romantic texts such as Mary Shelley's *Frankenstein* or Germaine de Staël's *Corinne ou l'Italie*, Isbell provides a foundation through which to investigate core concepts such as the continuum of Romance, the Romantic hero, and Romantic literature's characteristic repudiation of its own Romanticism. Unusually for a single author monograph, the book includes both published and unpublished material covering Romantic creation across Europe and the two Americas. Identifying Romanticism as an international movement, Isbell seeks to emphasise a theme frequently ignored by many academics: the roots of Romanticism and its variations as a national art. His arguments are supported by extensive interrogations of the political and historical contexts that moulded the outlooks of the writers and artists central to the period. *An Outline of Romanticism in the West* underlines the interplay between nationalism, history, and artistic inspiration and will therefore be of value to students and scholars of literature and history as well as to general readers with an interest in Romanticism in the West.

The Hedonism of Eudoxus of Cnidus Richard Davies, 2023-12-06 Mathematician and astronomer Eudoxus of Cnidus was a younger contemporary of Plato and an older contemporary of Aristotle, on both of whom he exerted some influence during his stays in Athens. This is perhaps most apparent with regard to his ethical doctrine that identifies the good as pleasure, hedonism. While Plato seems rather unsure how seriously to take this proposal, Aristotle provides the materials for reconstructing the battery of ingenious arguments that Eudoxus brought forward in its defence. Taken together in this *Element*, these arguments foreshadow almost everything that has been said in the Western tradition in favour of the positive value of pleasure and if taken aright point in the direction of a hedonism that sets store by the cultivation of activities akin to those for which Eudoxus has been most renowned: mathematics and astronomy.

Honor, Romanticism, and the Hidden Value of Modernity Jamison Kantor, 2023-01-19 Despite our preconceptions, Romantic writers, artists, and philosophers did not think of honor as an archaic or regressive concept but as a contemporary, even progressive value that operated as a counterpoint to freedom, a well-known preoccupation of the period's literature. Focusing

on texts by William Godwin William Wordsworth Jane Austen Walter Scott Mary Prince and Mary Seacole this book argues that the revitalization of honor in the first half of the nineteenth century signalled a crisis in the emerging liberal order one with which we still wrestle today how can political subjects demand real materialist forms of dignity in a system dedicated to an abstract and often impoverished idea of liberty Honor Romanticism and the Hidden Value of Modernity presents both a theory and a history of this question in the media of the Black Atlantic the Jacobin novel the landscape poem and the financial romance
