Romanticism And The Anglican Newman:

Romanticism and the Anglican Newman David Goslee, 1996 Goslee's study maintains that Newman's Anglican writing although widely considered irrelevant to the main currents of the post Enlightenment in fact reinterprets Romantic transcendence within a uniquely dialogic paradigm It is this paradigm he argues that critics need to explore as a link between sacred and secular domains within Victorian culture Goslee's own exploration is accomplished in three parts First he describes Newman's early renunciation of modern thought then analyzes the dialogic Romanticism that informs Newman's Anglican works particularly its power to expand his conception of personal identity spiritual election militant purpose self criticism and cultural critique Finally he follows the collapse of this Romantic synthesis under the burden of its own success natural and preternatural presences break into Newman's dialogue with his God and then his God becomes transformed into a threat that must be constrained within an institutional church Throughout this study Goslee follows a hermeneutic strategy suggested by Newman's own descriptions of his compositional practice examining thematically related passages from different times and contexts to see just how far Newman's ideas might take him Goslee concludes that this leading nineteenth century religious writer who rejected Romanticism for its decadent modern subjectivity nevertheless clearly participated in the secular Romanticism of his day

John Henry Newman David Nicholls, Fergus Kerr, 1991 John Henry Newman 1801-1890 was very much a man of his time an eminent Victorian philosopher and theologian who formed part of an influential Romantic movement in literature art and architecture A central figure in the Tractarian movement of the 1830s and 1840s he reasserted the Catholic doctrines and practices of the Church of England against the strongly Erastian tendencies of the time and the culmination of these ideas led to what was perhaps his most notorious work Tract 90 in which he claimed that the Thirty nine Articles of the Church of England could be interpreted from a Catholic viewpoint In 1845 he was received into the Roman Catholic church and since his rediscovery by fellow Catholics after the First World War there has been a well organized campaign for his canonization as a saint Newman's writings have commanded interest from across the disciplines of literature philosophy and theology but many critical assessments of his life and works have been accused of bowing to the mythology that has built up around Newman and his fellow Tractarians This book offers a more challenging appraisal of Newman's life and thought

Encyclopedia of the Romantic Era, 1760-1850 Christopher John Murray, 2013-05-13 In 850 analytical articles this two volume set explores the developments that influenced the profound changes in thought and sensibility during the second half of the eighteenth century and the first half of the nineteenth century The Encyclopedia provides readers with a clear detailed and accurate reference source on the literature thought music and art of the period demonstrating the rich interplay of international influences and cross currents at work and to explore the many issues raised by the very concepts of Romantic and Romanticism

John Henry Newman and the English Sensibility Jacob Phillips, 2023-04-06 Asides about John Henry Newman being either particularly English or

particularly un English are common John Henry Newman and the English Sensibility scrutinises Newman's theological writings to establish how his theology can be considered distinctively English or un English at the different stages of its development In his Tractarian period Newman's theology is shown to be profoundly characterised by common 19th century tropes of a perceived English sensibility namely an instinct for compromise an affection for reserve and a markedly empirical orientation to life In the period following Newman's conversion to Catholicism in 1845 however his theology turns against the Englishness of his earlier years as he critiques of the many theological dangers of a self confident cultural sensibility In his mature writings nonetheless Newman re incorporates certain elements of his earlier Englishness with a Catholic grounding yet also maintains an antipathy to certain targets of his post conversion polemics Phillips finds that the English instinct for compromise is not incorporated into Newman's mature theology which remains unabashedly one sided in its understanding of God and the Catholic Church taking precedence over elements of a cultural sensibility pertaining ultimately to the sphere of the natural The affection for reserve however is shown to be capable of gracious elevation when reconfigured on a Catholic grounding Most importantly the profoundly empirical orientation to life which was considered typical of Englishness in Newman's day emerges as something exhibiting what Newman might consider a antecedent affinity to Catholic theology This book thus concludes by offering a view of the English Catholic sensibility as characterised by a mindset of careful reserve toward knowledge and words about God arising from a marked concern for the living embodied present as the site of God's transformative action in the twists and turns of human life

Geertjan Zuijdwegt,2022-09-09 An Evangelical Adrift is a theological biography of John Henry Newman 1801 1890 that reconstructs the most formative period in his development the years between his teenage conversion to evangelicalism in 1816 and the beginning of the Tractarian Movement in 1833 By the early 1830s Newman had explicitly rejected much of the theology he espoused in the late 1810s and early 1820s and developed a highly original deeply personal and quite radical alternative whose fundamental notions continued to shape his thought in later life To date there is neither a historically accurate nor a theologically sophisticated account of this change the period in which it occurred is neglected its significance is overlooked its nature and content are misrepresented and its scope is narrowed The present study offers a compelling alternative to both mainline and revisionist interpretations Based on detailed historical and theological analysis of the whole range of primary sources including much neglected published and unpublished material it meticulously reconstructs Newman s youthful adoption of gradual departure from and theological alternative to evangelicalism Against most mainline studies it argues that this was a fundamental transformation affecting nearly every aspect of Newman s theology Against Turner and other revisionists it argues that this change was the product of careful and consistent theological reasoning and reflection and that anti liberalism was just as integral to it as anti evangelicalism Nineteenth Century Prose ,1997

Apostle to the Wilderness Barry L. Craig,2005 This book describes the life and work of John Medley the first member of the Oxford Movement to be consecrated bishop As an experiment W E Gladstone future Prime Minister of England and keen churchman arranged in 1844 to have a member of this controversial group appointed to the Episcopal bench Because those associated with this movement were suspected of Roman Catholic theological leanings and perhaps even disloyalty to the English Establishment such a move was politically and ecclesiastically dangerous in England So Medley was sent to the colonies Intended to establish High Churchmanship and the British Empire in the soil of the new world Medley became convinced over this forty seven year episcopate that the American model of the church was more practical than the British He eventually forged an identity for his diocese that was in many ways to be the pattern for the modern worldwide Anglican
