**The War in North Africa, 1940-1943** Colin F. Baxter,1996-03-30 Few of the major campaigns of World War II aroused as much controversy as the War in North Africa 1940 1943 Figures such as Rommel Montgomery and Eisenhower would become world famous because of the fighting in North Africa This book opens with seven historiographical essays that

evaluate and critically assess the major contributions to the literature on the War in North Africa. It then includes an alphabetically arranged bibliography of the 504 entries cited in the essays. The material is easily accessible with cross references between the text and the bibliography and a full index. The volume includes chapters on the Desert War 1940-42, the Axis Powers in North Africa, Montgomery, Alam Halfa and El Alamein, TORCH, the Landings in French North Africa and the Tunisian Campaign. Full attention is given to questions and issues historians have raised on such controversies as the Auchinleck-Montgomery dispute, the debate over Operation TORCH and the Darlan affair. Emphasis is on English language works but the most significant Italian, German and French works are cited and assessed. The book has been written for use in public college, university and institutional libraries and to serve general readers and military historians.

*Rommel: Desert Fox* Desmond Young, 1987-02-18. Early in 1941 the famed British Eighth Army was on the route to victory in North Africa. Just a few months later this same army was on the verge of total defeat as the Germans had won victory after victory and were threatening to overrun Egypt and the Middle East. Here is the classic biography of the man who masterminded this great turnaround: Field Marshal Erwin Rommel, commander of the German Afrika Korps. The man who burned Hitler's order to execute British raiders and who gave Allied prisoners the same food and medical treatment as his German troops. The tough general who personally conducted reconnaissance under fire in an open car while his tank commanders hid in armored turrets. The author of this book, Brigadier General Desmond Young, fought against Rommel in North Africa, was captured by him, and after his release at the end of the war visited Rommel's family and talked with many of his fellow officers. Thus he is able to tell us about intrigues that went on in the German High Command during the war; he is able to give a blow-by-blow description of such decisive battles as Tobruk and El Alamein, and he is able to give personal anecdotes about Rommel and to sort out the facts from the legends that have sprung up around this extraordinary general.

Great Military Leaders William T. Worthington, 2002. Great Military Leaders: A Bibliography with Vignettes Rommel's Lieutenants Samuel W. Mitcham Jr., 2006-11-30. Perhaps the most famous soldier to fight in World War II was Field Marshal Erwin Rommel, who achieved immortality as the Desert Fox. He is also one of the most admired. Rommel's first field command during the war was the 7th Panzer Division, also known as the Ghost Division, which he led in France in 1940. Rommel had a great deal of help in France, much more than his published papers suggest. His staff officers and company, battalion and regimental commanders were an extremely capable collection of military leaders that included 12 future generals, two of them SS and two colonels who briefly commanded panzer divisions but never reached general rank. They also included Karl Hanke, a Nazi Gauleiter who later succeeded Heinrich Himmler as the last Reichsfuehrer SS. No historian has ever recognized the talented cast of characters who supported the Desert Fox in 1940. No one has ever attempted to tell their stories. This book will surely remedy that oversight. During the Desert Fox campaign, the 7th Panzer suffered more casualties than any other division in the German Army at the same time, inflicting a disproportionate number of casualties upon the enemy. It took 97,486 prisoners captured

458 tanks and armored vehicles 277 field guns 64 anti tank guns and 4 000 to 5 000 trucks and destroyed dozens of others in each category It captured or destroyed hundreds of tons of other military equipment shot down 52 aircraft destroyed 15 more on the ground and captured 12 more It destroyed the French 1st Armored Division and the 4th North African Division punched through the Maginot Line extension near Sivry and checked the largest Allied counteroffensive of the campaign at Arras When France surrendered the Ghost Division was within 200 miles of the Spanish border No doubt about it Rommel had proven himself a great military leader who was capable of greater things His next command in fact would be the Afrika Korps where the legend of the Desert Fox was born

**Hitler's Soldiers** Ben H. Shepherd, 2016-01-01 A penetrating study of the German army's military campaigns relations with the Nazi regime and complicity in Nazi crimes across occupied Europe For decades after 1945 it was generally believed that the German army professional and morally decent had largely stood apart from the SS Gestapo and other corps of the Nazi machine Ben Shepherd draws on a wealth of primary sources and recent scholarship to convey a much darker more complex picture For the first time the German army is examined throughout the Second World War across all combat theaters and occupied regions and from multiple perspectives its battle performance social composition relationship with the Nazi state and involvement in war crimes and military occupation This was a true people's army drawn from across German society and reflecting that society as it existed under the Nazis Without the army and its conquests abroad Shepherd explains the Nazi regime could not have perpetrated its crimes against Jews prisoners of war and civilians in occupied countries The author examines how the army was complicit in these crimes and why some soldiers units and higher commands were more complicit than others Shepherd also reveals the reasons for the army's early battlefield successes and its mounting defeats up to 1945 the latter due not only to Allied superiority and Hitler's mismanagement as commander in chief but also to the failings moral political economic strategic and operational of the army's own leadership
