 Suzanne E. Lang,2017-08-01 She ll do anything to find her brother even torture a man for answers but can she handle it  
 when he decides to return the favor Steph s brother has gone missing and she s found a guy who might have answers but he  
 s not coughing up the goods A little torture will loosen Gavin s tongue But when pain doesn t work she relies on seduction to  
 get him to talk Except her plan to tease him into giving her answers backfires and when Gavin gets loose he s out for revenge  
 and pleasure      *Adagio Fine* Nathan Neuharth,      **Archetypes in Japanese Film** Gregory Barrett,1989 This study  
 examines the significance of the archetypal heroes and heroines of Japanese cinema and traces both their prior development  
 in literature drama and folklore and their subsequent variations in popular culture      **A Dictionary of Japanese**  
**Loanwords** Toshie M. Evans,1997-05-28 Recent studies report that Japanese is the second most productive source of new  
 loanwords to English Such studies indicate that English speaking countries are paying more attention to Japan than ever  
 before This dictionary lists and defines hundreds of terms borrowed from Japanese that are now used in English language  
 publications Entries provide variant spellings pronunciation etymological information definitions and illustrative quotations  
 These quotations were collected from books newspapers magazines novels texts advertisements and databases published or  
 distributed in the United States between 1964 and 1995 When countries engage in a significant amount of commercial or  
 cultural contact they frequently borrow words from each other s language These loanwords are assimilated to varying  
 degrees and show how one country gains exposure to another country s culture Recent studies report that Japanese is the  
 second most productive source of new loanwords to English showing that English speaking countries are paying more  
 attention to Japan than ever before This dictionary includes entries for hundreds of Japanese terms now used in English  
 language publications Included are terms from art and architecture medicine and the sciences business and education  
 philosophy and religion and numerous other fields Entries provide definitions pronunciations variant spellings etymological  
 histories and illustrative quotations These quotations were collected from books newspapers magazines novels texts  
 advertisements and databases all of which were published or distributed in the United States between 1964 and 1995 While  
 the volume is a valuable guide to the meaning and assimilation of particular loanwords it is also a fascinating chronicle of  
 how certain elements of Japanese culture have strongly influenced American civilization      **From Concept to Monument:**  
**Time and Costs of Construction in the Ancient World** Simon J. Barker,Christopher Courault,Javier Á. Domingo,Dominik  
 Maschek,2023-07-13 21 papers focus on modelling the costs of construction over the course of 2 500 years from Bronze Age  
 Greece to the early Middle Ages They discuss both broader issues of methodology and particular case studies with particular  
 attention to the exploitation of raw materials e g quarries transport and construction processes on building sites      **The**  
**Power of Urban Water** Nicola Chiarenza,Annette Haug,Ulrich Müller,2020-05-05 Water is a global resource for modern  
 societies and water was a global resource for pre modern societies The many different water systems serving processes of

urbanisation and urban life in ancient times and the Middle Ages have hardly been researched until now The numerous contributions to this volume pose questions such as what the basic cultural significance of water was the power of water in the town and for the town from different points of view Symbolic aesthetic and cult aspects are taken up as is the role of water in politics society and economy in daily life but also in processes of urban planning or in urban neighbourhoods Not least the dangers of polluted water or of flooding presented a challenge to urban society The contributions in this volume draw attention to the complex manifold relations between water and human beings This collection presents the results of an international conference in Kiel in 2018 It is directed towards both scholars in ancient and mediaeval studies and all those interested in the diversity of water systems in urban space in ancient and mediaeval times

**Handbook of Ancient Afro-Eurasian Economies** Sitta von Reden, 2021-12-20 The second volume of the Handbook describes different extractive economies in the world regions that have been outlined in the first volume A wide range of economic actors from kings and armies to cities and producers are discussed within different imperial settings as well as the tools which enabled and constrained economic outcomes A central focus are nodes of consumption that are visible in the archaeological and textual records of royal capitals cities religious centers and armies that were stationed in some cases permanently in imperial frontier zones Complementary to the multipolar concentrations of consumption are the fiscal tributary structures of the empires vis vis other institutions that had the capacity to extract mobilize and concentrate resources and wealth Larger volumes of state issued coinage in various metals show the new role of coinage in taxation local economic activities and social practices even where textual evidence is absent Given the overwhelming importance of agriculture the volume also analyses forms of agrarian development especially around cities and in imperial frontier zones Special consideration is given to road and water management systems for which there is now sufficient archaeological and documentary evidence to enable cross disciplinary comparative research

*Surviving Rome* Kim Bowes, 2025-11-04 A radical revision and worker s eye view of everything we thought we knew about the ancient Roman economy The story of ancient Rome is predominantly one of great men with great fortunes *Surviving Rome* unearths another history one of ordinary Romans who worked with their hands and survived through a combination of grit and grinding labor Focusing on the working majority Kim Bowes tells the stories of people like the tenant farmer Epimachus Faustilla the moneylender and the pimp Philokles She reveals how the economic changes of the period created a set of bitter challenges and opportunistic hustles for everyone from farmers and craftspeople to day laborers and slaves She finds working people producing a consumer revolution making and buying all manner of goods from fine pottery to children s toys Many of the poorest working people probably pieced together a living from multiple sources of income including wages And she suggests that Romans most daunting challenge was the struggle to save Like many modern people saving enough to buy land or start a business was a slow precarious slog Bowes shows how these economies of survival were shared by a wide swath of the populace blurring the lines between genders ages and legal

status Drawing on new archaeological and textual evidence *Surviving Rome* presents a radical new perspective on the economy of ancient Rome while speaking to the challenges of today's laborers and gig workers surviving in an unforgiving global world *Capital, Investment, and Innovation in the Roman World* Paul Erdkamp, Koenraad Verboven, Arjan Zuiderhoek, 2020-02-18 Investment in capital both physical and financial and innovation in its uses are often considered the linchpin of modern economic growth while credit and credit markets now seem to determine the wealth as well as the fate of nations Yet was it always thus The Roman economy was large complex and sophisticated but in terms of its structural properties did it look anything like the economies we know and are familiar with today Through consideration of the allocation and uses of capital and credit and the role of innovation in the Roman world the individual essays comprising this volume go straight to the heart of the matter exploring such questions as how capital in its various forms was generated allocated and employed in the Roman economy whether the Romans had markets for capital goods and credit and whether investment in capital led to innovation and productivity growth Their authors consider multiple aspects of capital use in agriculture water management trade and urban production and of credit provision finance and human capital covering different periods of Roman history and ranging geographically across Italy and elsewhere in the Roman world Utilizing many different types of written and archaeological evidence and employing a range of modern theoretical perspectives and methodologies the contributors an expert international team of historians and archaeologists have produced the first book length contribution to focus exclusively on physical and financial capital in the Roman world a volume that is aimed not only at specialists in the field but also at economic historians and archaeologists specializing in other periods and places

**Danger's Hour** Maxwell Taylor Kennedy, 2009-11-03 Drawing on years of research and firsthand interviews with both American and Japanese survivors Maxwell Taylor Kennedy draws a gripping portrait of men bravely serving their countries in war and the advent of a terrifying new weapon suicide bombing that nearly halted the most powerful nation in the world In the closing months of World War II Americans found themselves facing a new weapon kamikazes the first men to use airplanes as suicide weapons By the beginning of 1945 facing imminent invasion Japan turned to its most idealistic young men and demanded of them the greatest sacrifice On May 11 1945 days after Germany's surrender the USS Bunker Hill with thousands of crewmen and the most sophisticated naval technology available was 70 miles off the coast of Okinawa when pilot Kiyoshi Ogawa flew his plane into the ship killing 393 Americans in the worst suicide attack against America until September 11 From publisher description *History of Rome, and of the Roman People* Victor Duruy, 1886 **Native Provenance** Gerald Vizenor, 2019-09-01 Gerald Vizenor's *Native Provenance* challenges readers to consider the subtle ironies at the heart of Native American culture and oral traditions such as creation and trickster stories and dream songs A respected authority in the study of Native American literature and intellectual history Vizenor believes that the protean nature of many creation stories with their tease and weave of ironic gestures was lost or obfuscated in inferior translations

by scholars and cultural connoisseurs and as a result the underlying theories and presuppositions of these renditions persist in popular literature and culture Native Provenance explores more than two centuries of such betrayal of native creativity With erudite and sweeping virtuosity Vizenor examines how ethnographers and others converted the inherent confidence of native stories into uneasy sentiments of victimry He explores the connection between Native Americans and Jews through gossip theory and strategies of cultural survivance and between natural motion and ordinary practices of survivance Other topics include the unique element of native liberty inherent in artistic milieus the genre of visionary narratives of resistance and the notions of historical absence cultural nihilism and victimry Native Provenance is a tour de force of Native American cultural criticism ranging widely across the terrains of the artistic literary philosophical linguistic historical ethnographic and sociological aspects of interpreting native stories Native Provenance is rife with poignant and original observations and is essential reading for anyone interested in Native American cultures and literature
