**Professional and Ethical Consideration for Early Childhood Leaders** Cunningham, Denise D.,2020-06-19 Early childhood educators are keenly aware of the

importance of a child's transition to real school. This transition is occurring earlier in a child's life now that school districts nationwide are moving to pre-kindergarten experiences for 3 and 4 year olds. Annually more than one million children attend public school pre-k programs overseen by elementary school principals who although veteran educational leaders were not trained to oversee these programs. Although pre-k classrooms are rapidly growing and deserve special attention, school leaders must be reminded that early childhood means more than pre-kindergarten; it extends through third grade. School leadership needs to understand the principles of early childhood education to effectively support all children age three to grade three. Professional and Ethical Consideration for Early Childhood Leaders is a collection of innovative research that crafts an overall understanding of the importance of early childhood leadership in today's schools. The book employs strategies to improve support for children in early childhood years, examines the different roles of early childhood leadership, analyzes best practices for implementation in early childhood contexts, and explores improvements for leadership preparation for schools with pre-k through third grade children. While highlighting a wide range of topics including advocacy, cultural responses, and professional development, this publication is ideally designed for educators, administrators, principals, early childhood development teachers, daycare instructors, curriculum developers, advocates, researchers, academicians, and students.
