**string to string correction problem wikipedia** - Jul 13 2023

in computer science the string to string correction problem refers to determining the minimum cost sequence of edit operations necessary to change one string into another i e computing the shortest edit distance each type of edit operation has its own cost value a single edit operation may be changing a single symbol of the string into another cost  $w_c$  deleting a symbol cost  $w_d$  or inserting a new symbol cost  $w_i$
