## **Routemaster Jubilee:**

**Routemaster Jubilee** Geoff Rixon, 2004-10 Geoff Rixon presents a pictorial tribute to the Routemaster and its decades of service both inside and beyond London The reader is provided with a history of the type from its origins in the early 1950s through to the present day Last Years of the London Routemaster Matthew Wharmby, 2025-08-05 The last decade of Routemaster bus operation in London saw over seven hundred surviving RMs and RMLs divided between several new companies following the privatization of London Buses Ltd s subsidiaries in 1994 Now operating their existing twenty routes under contract to LRT renamed TfL in 2000 Centrewest Metroline MTL London Northern Leaside Buses Stagecoach East London South London London Central London General and London United all adopted their own predominantly red liveries but by the turn of the century these firms had clustered in pairs and generally sold out to the emerging big corporate groups Two independents BTS and Kentish Bus had also won a Routemaster route each and were similarly brought under the control of larger parents In this photographic archive each company s last Routemaster operating decade is outlined in detail up to when each route was converted to OPO one by one between 29 August 2003 and 9 December 2005 The two heritage routes are then explored all the way up to their own end in 2019 **RM70 - Seventy Years of a London Icon** Malcolm

Batten, 2024-06-15 Malcolm Batten illustrates the story of the Routemaster instantly recognisable as the typical London bus as it celebrates its seventy year anniversary in 2024 A History of British Royal Jubilees June Woolerton, 2022-09-22 As Queen Elizabeth II became the only British Monarch to rule for seventy years she marked the historic moment with a simple message promising to continue her lifetime of service But while her Jubilee day was quiet it was merely the start of a year long celebration that would see millions around the world join the royal party Jubilees have become regular events in The Queen s long reign but they are a relatively modern idea which only really took hold in the reign of King George III Initially rejected by many as a frivolity the first royal Jubilee became a huge success It was a beguiling mix of pageantry religious devotion and popular celebrations including street parties that has been copied in the Jubilees that followed Queen Victoria enjoyed two successful celebrations including Britain s first Diamond Jubilee which helped re establish her popularity and consolidate the Monarchy King George V turned to the joy of a Jubilee to re invigorate his country as it recovered from war and economic woes In the reign of his granddaughter Elizabeth II Jubilees have been transformed into modern media events celebrated globally In A History of British Royal Jubilees we trace the ever evolving story of these popular celebrations bringing each of them to life and looking at how they changed the image of royalty and the country itself This is the story of how Jubilee celebrations have become vital to the success of Britain s Royal Family and to its place at the heart of a nation

**London Transport's Last Buses** Matthew Wharmby,2016-02-29 The Olympian was Leyland s answer to the competition that was threatening to take custom away from its second generation OMO double deck products Simpler than the London Transportcentric Titan but unlike that integral model able to respond to the market by being offered as a chassis for bodying by the bodybuilder of the customer s choice the Olympian was an immediate success and soon replaced both the Atlantean and Bristol VRT as the standard double decker of the NBC It wasn t until 1984 that London Transport itself dabbled with the model taking three for evaluation alongside trios of contemporary double deckers The resulting L class spawned an order for 260 more in 1986 featuring accessibility advancements developed by LT in concert with the Ogle design consultancy but the rapid changes engulfing the organisation meant that no more were ordered During the 1990s company ownerships shifted repeatedly as the ethos of competition gave way to the cold reality of big business an unstable situation which even saw London s bus operations broken up The L class was split between three new companies but the backlog of older vehicles to replace once corporate interests released funding ensured the buses up to a further decade in service Finally as low floor buses swept into the capital at the turn of the century Olympian operation at last declined and the final examples operated early in 2006 This profusely illustrated book describes the diversity of liveries ownerships and deployments that characterised the London Leyland Olympians two decades of service

**The London DMS** Matthew Wharmby,2016-11-30 Vilified as the great failure of all London Transport bus classes the DMS family of Daimler Fleetline was more like an unlucky victim of straitened times Desperate to match staff

shortages with falling demand for its services during the late 1960s London Transport was just one organization to see nationwide possibilities and savings in legislation that was about to permit double deck one man operation and partially fund purpose built vehicles However prohibited by circumstances from developing its own rear engined Routemaster FRM concept LT instituted comparative trials between contemporary Leyland Atlanteans and Daimler Fleetlines The latter came out on top and massive orders followed The first DMSs entering service on 2 January 1971 In service however problems quickly manifested Sophisticated safety features served only to burn out gearboxes and gulp fuel The passengers meanwhile did not appreciate being funnelled through the DMS s recalcitrant automatic fare collection machinery only to have to stand for lack of seating Boarding speeds thus slowed to a crawl to the extent that the savings made by laying off conductors had to be negated by adding more DMSs to converted routes Second thoughts caused the ongoing order to be amended to include crew operated Fleetlines DMs noise concerns prompted the development of the B20 quiet bus variety and brave attempts were made to fit the buses into the time honored system of overhauling at Aldenham Works but finally the problems proved too much After enormous expenditure the first DMSs began to be withdrawn before the final RTs came out of service and between 1979 and 1983 all but the B20s were sold as is widely known the DMSs proved perfectly adequate with provincial operators once their London features had been removed OPO was to become fashionable again in the 1980s as the politicians turned on London Transport itself breaking it into pieces in order to sell it off Not only did the B20 DMSs survive to something approaching a normal lifespan but the new cheap operators awakening with the onset of tendering made use of the type to undercut LT and it was not until 1993 that the last DMS operated
