National Audit Office,2008 The Occupied Royal Palaces Estate is held in trust for the nation and is used to support the official duties of the Sovereign The Department for Culture Media and Sport DCMS is ultimately responsible for the upkeep of the Estate but in 1991 delegated to the Royal Household the responsibility for running and maintaining the Estate The Household does so through the Property Services Department and receives grant in aid 15 million in 2007/08 broadly the same level of funding as in 2000/01 which is a reduction of 19 per cent in real terms This report examines how the Property Section plans and delivers its maintenance work and the impact the Property Section s running costs and income generated from the Estate had on the funding available to spend on maintenance The DCMS does not currently have a clear basis for assessing the extent to which its aim of maintaining the Palaces to a standard consistent with their royal architectural and historic status is being achieved The Property Section has identified a backlog of maintenance work but there is not yet an agreement between the parties about how the backlog should be measured or how

to manage it The Property Section has recently strengthened its approach to planning maintenance work and put in place the key elements of a sound maintenance strategy In 2007 08 the Property Section generated almost 3 million from visitors to Windsor Castle and from renting out accommodation on the estate The Royal Household s approach to generating income could be strengthened by developing a formal Estate strategy

**Englands Most Famous Palaces** Charles River Editors, 2017-09-19 Includes pictures Includes historic accounts Includes a bibliography for further reading I'm glad we've been bombed It makes me feel I can look the East End in the face The Queen Mother in 1940 after Buckingham Palace had been bombed by the Nazis When people think of the British Royal family and more specifically where they live the first image that often pops into mind is that of stately Buckingham Palace with its changing of the guard and the occasional royal coach leaving or entering Others may think of the royal country estate of Windsor Castle a favorite of both Britain's longest reigning and second longest reigning monarchs And there was a time when both royal residences played second fiddle to a much better known home the elegant Kensington Palace In his multi volume work *Old and New London* 1878 Edward Walford wrote It has often been said by foreigners that if they were to judge of the dignity and greatness of a country by the palace which its sovereign inhabits they would not be able to ascribe to Her Majesty Queen Victoria that proud position among the crowned heads of Europe which undoubtedly belongs to her But though Buckingham Palace is far from being so magnificent as Versailles is or the Tuilleries once were yet it has about it an air of solidity and modest grandeur which renders it no unworthy residence for a sovereign who cares more for a comfortable home than for display This is ultimately what palaces are all about power and impressions Buckingham Palace is not different

for though it was originally built as a home of a private citizen once a king bought it its future was sealed Walford continued Indeed it has often been said that with the exception of St James s Buckingham Palace is the ugliest royal residence in Europe and although vast sums of money have been spent at various times upon its improvement and embellishment it is very far from being worthy of the purpose to which it is dedicated lodging the sovereign of the most powerful monarchy in the world It fronts the western end of St James s Park which here converges to a narrow point the Mall upon the north and Birdcage Walk upon the south almost meeting before its gates Like many royal residences Buckingham and Kensington began their lives as large private homes and it was only after a king or in Kensington s case a king and queen took notice of them that they were expanded into the size and grandeur that they display today Even this work was not the product of one major overhaul but of several spread across decades of changes in architecture interior design and even technology King William III purchased Kensington Palace in the early years of his reign less than three short decades after the Stuarts returned to the throne and he and his queen were the first monarchs to move the British court there Later his successors became more attached to the palace and by the time King George I the first king from the House of Hanover came to the throne Kensington was considered the best place for the king and his family to live Ultimately this did not last for long because in spite of all the work King George I and King George II put into the palace King George III preferred to live elsewhere primarily the new Buckingham House As a result Kensington became the home of lesser royals such as the penniless Duchess of Kent who raised her little daughter Victoria there Later one of England s most famous queens this little girl grew up to use Kensington as a place to house relatives that she wanted to keep close by or felt some other moral obligation to In the century that followed Queen Victoria s reign the palace became something of a starter home for newlywed princes and princesses from the star crossed Charles and Diana to the ever popular Will and Kate
