**Air University Library Index to Military Periodicals**, 1998      **Women and War in the 21st Century** Margaret D. Sankey, 2018-08-17 Twenty three countries currently allow women to serve in front line combat positions and others with a high likelihood of direct enemy contact This book examines how these decisions did or did not evolve in 47 countries This timely and fascinating book explores how different countries have determined to allow women in the military to take on combat roles whether out of a need for personnel a desire for the military to reflect the values of the society or the opinion that women improve military effectiveness or in contrast have disallowed such a move on behalf of the state In addition many countries have insurgent or dissident factions in that have led armed resistance to state authority in which women have been present requiring national militaries and peacekeepers to engage them incorporate them or disarm and deradicalize them This country by country analysis of the role of women in conflicts includes insightful essays on such countries as Afghanistan China Germany Iraq Israel Russia and the United States Each essay provides important background information to help readers to understand the cultural and political contexts in which women have been integrated into their countries militaries have engaged in combat during the course of conflict and have come to positions of political power that affect military decisions      *The European Court's Political Power* Karen Alter, 2010-06-17 Karen Alter s work on the European Court of Justice heralded a new level of sophistication in the political analysis of the controversial institution through its combination of legal understanding and active engagement with theoretical questions The European Court s Political Power assembles the most important of Alter s articles written over a fourteen year span adding an original new introduction and a conclusion that takes an overview of the Court s development and current concerns Together the articles provide insight into the historical and political contours of the ECJ s influence on European politics explaining how and why the impact of an institution can vary so greatly over time and access different issues The book starts with the European Coal and Steel Community where the ECJ was largely unable to facilitate greater member state respect for ECSC rules Alter then shows how legal actors orchestrated an activist transformation of the European legal system with the critical aid of jurist advocacy movements and via the co optation of national courts The transformation of the European legal system wrested control from member states over the meaning of European law but the ECJ continues to have varying influence across different issues Alter explains that the differing influence of the ECJ comes from the varied extent to which sub and supra national actors turn to it to achieve political objectives Looking beyond the European experience the book includes four chapters that put the ECJ into a comparative perspective examining the extent to which the ECJ experience is a unique harbinger of the future role international courts may play in international and comparative politics      The World Factbook 2012-13 Central Intelligence Agency, 2013-01-04 In general information available as of May 1 2012 was used in the preparation of this edition Provides brief information on the geography people government economy communications and defense of countries and regions

around the world Contains information on international organizations Designed to meet the specific requirements of United States Government Officials in style format coverage and content Includes 4 unattached maps dated June 2012 and October 2012 The October 2012 map is of the world oceans World Factbook Central Intelligence Agency,2011-11-29 In general information available as of January 1 2011 was used in the preparation of this edition Provides brief information on the geography people government economy communications and defense of countries and regions around the world Contains information on international organizations Designed to meet the specific requirements of United States Government Officials in style format coverage and content Includes 3 unattached maps dated June 2011 *The World Factbook* ,2016 The Tank Debate John Stone,2018-12-07 In The Tank Debate John Stone highlights the equivocal position that armour has traditionally occupied in Anglo American thought and explains why despite frequent predictions to the contrary the tank has remained an important instrument of war This book provides a timely and provocative study of the tank s developmental history against the changing background of Anglo American military thought The Royal Navy and Maritime Power in the Twentieth Century Ian Speller,2004-08-02 This book adopts an innovative new approach to examine the role of maritime power and the utility of navies It uses a number of case studies based upon key Royal Navy operations in the twentieth century to draw out enduring principles about maritime power and to examine the strengths and limitations of maritime forces as instruments of national policy Individual chapters focus on campaigns and operations from both World Wars and a series of post 1945 crises and conflicts from the Palestine Patrol in the 1940s to Royal Navy operations in support of British policy in the 1990s Each case study demonstrates critical features of maritime power including operations during the transition to war fleet operations in narrow seas logistics submarine operations the impact of air power on maritime operations blockade maritime power projection amphibious warfare jurisdictional disputes and the law of the sea and peace support operations The contributors to this book all have considerable experience lecturing on these issues at the United Kingdom Joint Services Command and Staff College where maritime campaign analysis is used to teach the principles of maritime power to officers of the Royal Navy The book combines an authoritative examination of critical Royal Navy operations during the twentieth century with a sophisticated analysis of the nature of maritime power As such it is of both historical interest and contemporary relevance and will prove equally valuable to academic historians military professionals and the general reader **Navies in the 21st Century** Conrad Waters,2016-09-30 A range of naval experts build s a diverse and deeply thought out picture of where maritime warfare is now and where it is likely to go Army Rumour Service What is the purpose of navies in the modern world and what types of warship does this require This book tackles these questions by looking at naval developments both technological and operational in the quarter century since the end of the Cold War It provides the overall political and economic context assesses significant naval operations from the first Gulf War to Russia s annexation of Crimea reviews changes in the objectives and composition of the principal fleets describes major

design developments amongst the main warship types and examines wider technological and operational developments including naval aviation shipbuilding and manning A high quality publication with a great many superb photographs For those wishing to keep fully informed on world naval affairs it is excellent value and strongly recommended Scuttlebutt This new book follows the successful approach and format of the very popular naval annual Seaforth's World Naval Review Under the same editor a new team of specialists have been assembled to write authoritative articles in their particular fields of expertise The absorbing text is fully supported by many outstanding images Most Recommended Firetrench Provides a most useful contextual analysis of the post Cold War period explaining how technological developments and a range of world events have variously shaped the fleets of today Warship

**The Maritime Dimension of European Security** B. Germond, 2015-05-19 In an age of uncertainties influenced by information technologies and the networking of societies the maritime domain remains the main global lane of communication vital for trade and security The European Union has become a maritime actor carrying out counter piracy and maritime capacity building operations and actively dealing with maritime safety fisheries protection port security maritime surveillance and counter immigration at sea The Union's policies mechanisms and activities related to the maritime domain are now backed by a Maritime Security Strategy adopted by the Council in June 2014 This cutting edge book accounts for the trends in maritime strategy and seapower politics as well as the recent developments in the field both at the conceptual and practical level It discusses the significance of the maritime domain for European security in general and for the EU in particular Readers are provided with the necessary tools to critically assess the EU's potential as a global maritime actor and evaluate why Europe's prosperity and security rests on its capacity to shape events at sea

*Our Friends Beneath the Sands* Martin Windrow, 2010-04-29 The gripping true story of the French Foreign Legion in the Sahara Ever since the 1920s the popular legend of the French Foreign Legion has been formed by P C Wren's novel BEAU GESTE a world of remote forts warrior tribes and desperate men of all nationalities enlisting under pseudonyms to fight and die under the desert sun As with all clichés the reality is far richer and more surprising than this In this book Martin Windrow describes desert battles and famous last stands in gripping detail but he also shows exactly what the Foreign Legion were doing in North Africa in the first place He explains how French colonial methods there actually had their roots in the jungles of Vietnam and how the political pressures that kept the empire expanding can be traced to battles on the streets of Paris itself His description of the Berber tribesmen of Morocco also reveals some disturbing modern parallels the formidable guerrillas of the 1920s were inspired by an Islamic fundamentalist who was adept at using the world's media to further his cause Martin Windrow's previous book THE LAST VALLEY received fabulous reviews across the

English speaking world This unique book which is the first to examine the golden age of the Foreign Legion has followed suit

Japan's Civil-Military Diplomacy Dennis T. Yasutomo, 2014-05-09 Since the early 1990s there has been a clear evolution in the military dimension of Japanese diplomacy From Gulf War I in 1991 to the present day an incremental but unmistakable acceptance of and resort to military dispatches has taken place and yet crucially Japan has not morphed into a traditional military power Exploring Japan's involvement in both Afghanistan and Iraq this book examines the evolution and nature of the new civil military dimension in Japanese foreign policy It shows how foreign aid Japan's traditional non military diplomatic tool was merged with the operations of the Japanese Self Defense Force in Iraq and the activities of NATO ISAF forces in Afghanistan and emphasises the centrality of civilian power to Japanese foreign policy and diplomacy However Dennis Yasutomo argues that while a new civil military security culture is replacing the old merchant state culture of pacifism and anti militarism Japan does not yet qualify as a military normal nation Further the book's exploration of the increased utilization of military power within the context of civilian objectives and non military diplomatic instruments sheds light on the current build up of Japanese military power in East and Southeast Asia amid territorial disputes and nuclear threats and highlights the impact that Japan's new civil military diplomacy may have on wider international affairs in the 21st Century Drawing on interviews with key actors in Tokyo as well as with practitioners who have served on the ground in Iraq and Afghanistan this book will have broad appeal to students and scholars working on Japanese politics and diplomacy military and security studies and international relations

*Commandos* John Parker, 2013-02-28 The Commandos were Britain's first ever special forces formed in 1940 using volunteers from all three services After the war Commando units of the Royal Marines engaged in virtually every military scenario involving British troops from 1945 to the present day They became the elite of the British ready to go forces capable of deploying at a moment's notice to any trouble spot in the world In this latest book in John Parker's acclaimed series on British military activity dramatically recalled in their own words by men who were there he recounts the major events in the 60 year history of British Commando forces
