Rubian Icons 14th 16th Centuries:

Mary of Mercy in Medieval and Renaissance Italian Art Katherine T. Brown, 2017-07-05 *Mater Misericordiae* Mother of Mercy emerged as one of the most prolific subjects in central Italian art from the late thirteenth through the sixteenth centuries. With iconographic origins in Marian cult relics brought from Palestine to Constantinople in the fifth century, the amalgam of attributes coalesced in Armenian Cilicia, then morphed as it spread to Cyprus. An early concept of Mary of Mercy, the Virgin standing with outstretched arms and a wide mantle under which kneel or stand devotees, entered the Italian peninsula at the ports of Bari and Venice during the Crusades, eventually converging in central Italy. The mendicant orders adopted the image as an easily recognizable symbol for mercy and aided in its diffusion. In this study, the author's primary goals are to explore the iconographic origins of the Madonna della Misericordia as a devotional image by identifying and analyzing key attributes to consider circumstances for its eventual overlapping function as a secular symbol used by lay confraternities and to discuss its diaspora throughout the Italian peninsula, Western Europe, and eastward into Russia and Ukraine. With over 100 illustrations, the book presents an array of works of art as examples, including altarpieces, frescoes, oil paintings, manuscript illuminations, metallurgy, glazed terracotta, stained glass, architectural relief, sculpture, and processional banners.

Painting the Soul Robin Cormack, 2013-06-01 *Painting the Soul* is a beautifully illustrated study of the creation and development of the icon. This book is a firework display. It sets off scores of explosions which light up the sky over arching our field terrain that is normally traversed nose down and too mindful of the footsteps of our predecessors. *Burlington Magazine*.

The Art of Anatomy in Medieval Europe Taylor McCall, 2023-07-31 A new history of the medieval illustrations that birthed modern anatomy. This book is the first history of medieval European anatomical images. Richly illustrated. *The Art of Anatomy in Medieval Europe* explores the many ways in which medieval surgeons, doctors, monks, and artists understood and depicted human anatomy. Taylor McCall refutes the common misconception that Renaissance artists and anatomists such as Leonardo da Vinci and Andreas Vesalius were the fathers of anatomy who performed the first human dissections. On the contrary, she argues that these Renaissance figures drew upon centuries of visual and written tradition in their works.

Garland of Visions Jinah Kim, 2021-02-16 *Garland of Visions* explores the generative relationships between artistic intelligence and tantric vision practices in the construction and circulation of visual knowledge in medieval South Asia. Shifting away from the traditional connoisseur approach, Jinah Kim instead focuses on the materiality of painting, its mediums, its visions, and especially its colors. She argues that the adoption of a special type of manuscript called pothi enabled the material translation of a private and internal experience of seeing into a portable device. These mobile and intimate objects then became important conveyors of many forms of knowledge: ritual, artistic, social, scientific, and religious, and spurred the spread of visual knowledge of Indic Buddhism to distant lands. By taking color as the material link between a vision and its artistic output, *Garland of Visions* presents a fresh approach to the history of Indian painting. *Byzantium*

Princeton Alumni Weekly , 1992 *Power, Legitimacy and the Public Sphere* Amin Sharifi Isaloo, 2017-04-28 A groundbreaking study of political transformations in non Western societies this book applies anthropological sociological and political concepts to the recent history of Iran to explore the role played by a ritual theatrical performance Ta ziyeh and its symbols on the construction of public mobilisations With particular attention to three formative phases the 1978 79 Islamic Revolution the 1980 88 Iran Iraq War and the 2009 Green Movement the author concentrates on the relations between symbols of the ritual performance and the public sphere to shed light on the ways in which the symbols of Ta ziyeh were used

to claim political legitimacy Thus the book elucidates how symbols and images of a ritual performance can be utilised by tricksters such as political actors and fanatical religious leaders to take advantage of the prolongation of a state of transition within a society and so manipulate the public in order to mobilise crowds and movements to fulfil their own interests and concerns An insightful analysis of political mobilisation explained in terms of a set of interrelated master concepts such as liminality trickster and schismogenesis Power Legitimacy and the Public Sphere integrates theoretical empirical and diagnostic perspectives in order to investigate and illustrate links between the public sphere and religious and cultural rituals As such it will appeal to scholars of sociology politics and anthropology with interests in social theory public mobilisations and political transformation *Cross Veneration in the Medieval Islamic World* Charles Tieszen, 2016-02-28

One of the most common religious practices among medieval Eastern Christian communities was their devotion to venerating crosses and crucifixes Yet many of these communities existed in predominantly Islamic contexts where the practice was subject to much criticism and often resulted in accusations of idolatry How did Christians respond to these allegations Why did they advocate the preservation of a practice that was often met with confusion or even contempt To shed light onto these questions Charles Tieszen looks at every known apologetic or polemical text written between the eighth and fourteenth centuries to include a relevant discussion With sources taken from across the Mediterranean basin Egypt Syria and Palestine the result is the first in depth look at a key theological debate which lay at the heart of these communities religious identities By considering the perspectives of both Muslim and Christian authors *Cross Veneration in the Medieval Islamic World* also raises important questions concerning cross cultural debate and exchange and the development of Christianity and Islam in the medieval period This is an important book that will shine much needed light onto Christian Muslim relations the nature of inter faith debates and the wider issues facing the communities living across the Middle East during the medieval period
