School And Society And The Child And The Curriculum:

The Child and the Curriculum John Dewey, 1902 **The School and Society & The Child and the Curriculum**

John Dewey, 2001-07-18 These two short influential books which grew out of Dewey's hands-on experience in administering the laboratory school at the University of Chicago represent the earliest authoritative statement of his revolutionary emphasis on education as an experimental child-centered process. In *The School and Society* he declares that we must make each one of our schools an embryonic community life active with types of occupations that reflect the life of the larger society and permeated with the spirit of art, history, and science. In *The Child and the Curriculum* he stresses the importance of the curriculum as a means of determining the environment of the child and allowing the teacher to guide children in asserting themselves, exercising their capacities, and fulfilling their own nature. 4 halftones and 4 charts. *The School and Society and The Child and the Curriculum* John Dewey, 2024-05-31 This edition brings Dewey's educational theory into sharp focus, framing his two classic works by frank assessments past and present of the practical applications of Dewey's ideas. In addition to a substantial introduction in which Philip W. Jackson explains why more of Dewey's ideas haven't been put into practice, this edition restores a lost chapter dropped from the book by Dewey in 1915. **The School and Society** John Dewey, 1899

The Child and the Curriculum John Dewey, 1906 *The Child and the Curriculum* John Dewey, 2010-01-01 In this single volume, readers will find two of John Dewey's insightful essays on education in America. He considered proper education to be fundamental to a functioning democracy. The problem, according to Dewey, in *The School and Society* with the old education model was that elementary schools did not encourage exploration and curiosity in their students. In *The Child and the Curriculum*, Dewey expands upon his definition of the ideal teaching method. A child's life, he says, is an integrated whole. A child will flow from one topic to another, taking a natural interest in subjects and dealing with a world of direct experience. School, on the other hand, addresses a world disconnected from a child's life. A more reasonable approach would be to strive to integrate their experience with the vast body of knowledge that society wishes them to know. By honoring the individual, both the student and the subject matter will come together in a process that produces a mature adult. American educator and philosopher JOHN DEWEY (1859-1952) helped found the American Association of University Professors. He served as professor of philosophy at Columbia University from 1904 to 1930 and authored numerous books, including *How We Think* (1910), *Experience and Nature* (1925), *Experience and Education* (1938), and *Freedom and Culture* (1939).

The School and Society & the Child and the Curriculum John Dewey, 2009-12 This timeless book contains two John Dewey classics: *The School and Society* and *The Child and the Curriculum*. Both books reflect Dewey's style: concise and to the point. This text focuses on the effects and the power that teachers should have in affecting student lives. There is much discussion on Dewey's classic educative experiences and how education should be hands-on learning. In *The Child and the Curriculum*, Dewey asserts that curriculum should emulate real-life challenges and occupations of everyday life. Learning occurs in doing.

and not in repeating facts and figures on multiple choice tests It also continues to show why coursework should not be limited to multiple choice fill in the blank and other methods of factoid memorization but rather coursework should include the exploration of skill sets and also how the curriculum should provide a catalyst for knowledge and skill exploration Like most Dewey books *The School and Society* and *The Child and the Curriculum* should be required reading for all education programs and for all educators Considered by many to be the only true American philosopher Dewey once again provides a clear look at why education in America is sub par in quality and effectiveness **The School and Society** John

Dewey, 2017-07-05 The three lectures presented in the following pages were delivered before an audience of parents and others interested in the University Elementary School in the month of April of the year 1899 Mr Dewey revised them in part from a stenographic report and unimportant changes and the slight adaptations necessary for the press have been made in his absence The lectures retain therefore the unstudied character as well as the power of the spoken word As they imply more or less familiarity with the work of the Elementary School Mr Dewey's supplementary statement of this has been added This edition affords a grateful opportunity for recalling that this little book is a sign of the co perating thoughts and sympathies of many persons Its indebtedness to Mrs Emmons Blaine is partly indicated in the dedication From my friends Mr and Mrs George Herbert Mead came that interest unflagging attention to detail and artistic taste which in my absence remade colloquial remarks until they were fit to print and then saw the results through the press with the present attractive result a mode of authorship made easy which I recommend to others fortunate enough to possess such friends It would be an extended paragraph which should list all the friends whose timely and persisting generosity has made possible the school which inspired and defined the ideas of these pages These friends I am sure would be the first to recognize the peculiar appropriateness of especial mention of the names of Mrs Charles R Crane and Mrs William R Linn And the school itself in its educational work is a joint undertaking Many have engaged in shaping it The clear and experienced intelligence of my wife is wrought everywhere into its texture The wisdom tact and devotion of its instructors have brought about a transformation of its original amorphous plans into articulate form and substance with life and movement of their own The Child and the
