1934 Indian Reorganization Act The thoroughly researched and accessibly written text represents a serious reappraisal of a neglected artist *American Women Photographers* Martha Kreisel,1999-02-28 American women have made significant contributions to the field of photography for well over a century This bibliography compiles more than 1 070 sources for over 600 photographers from the 1880s to the present As women s role in society changed so did their role as photographers In the early years women often served as photographic assistants in their husbands studios The photography equipment initially heavy and difficult to transport was improved in the 1880s by George Eastman s innovations With the lighter camera equipment photography became accessible to everyone Women photographers became journalists and portraitists who documented vanishing cultures and ways of life Many of these important female photographers recorded life in the growing Northwest and the streets of New York City became pioneers of historic photography as they captured the plight of Americans fleeing the Dust Bowl and the horrors of the concentration camps and were members of the Photo Secessionist Movement to promote photography as a true art form This source serves as a checklist for not only the famous but also the less familiar women photographers who deserve attention **North American Women Artists of the Twentieth Century** Jules Heller,Nancy G. Heller,2013-12-19 First Published in 1997 Routledge is an imprint of Taylor Francis an informa company **Picturing Migrants** James R. Swensen,2015-10 As time passes personal memories of the Great Depression die with those who lived through the desperate 1930s In the absence of firsthand knowledge John Steinbeck s *The Grapes of Wrath* and the photographs produced for the New Deal s Farm Security Administration FSA now provide most of the images that come to mind when we think of the 1930s That novel and those photographs as this book shows share a history Fully exploring this complex connection for the first time *Picturing Migrants* offers new insight into Steinbeck s novel and the FSA s photography and into the circumstances that have made them enduring icons of the Depression Looking at the work of Dorothea Lange Horace Bristol Arthur Rothstein and Russell Lee it is easy to imagine that these images came straight out of the pages of *The Grapes of Wrath* This should be no surprise James R Swensen tells us because Steinbeck explicitly turned to photographs of the period to create his visceral narrative of hope and loss among Okie migrants in search of a better life in California When the novel became an instant best seller upon its release in April 1939 some dismissed its imagery as pure fantasy Lee knew better and traveled to Oklahoma for proof The documentary pictures he produced are nothing short of a photographic illustration of the hard lives and desperate reality that Steinbeck so vividly portrayed In *Picturing Migrants* Swensen sets these lesser known images alongside the more familiar work of Lange and others giving us a clearer understanding of the FSA s work to publicize the plight of the migrant in the wake of the novel and John Ford s award winning film adaptation A new perspective on an era whose hardships and lessons resonate to this day *Picturing Migrants* lets us see as never before how a novel and a series of documentary photographs have kept the Great Depression unforgettably real for generation after generation **Hope in Hard Times** Mary Murphy,2003 Arthur Rothstein Russell Lee

John Vachon and Marion Post Wolcott became some of the United States best known photographers through their pictures of Depression era America. Their assignment as one of their associates described it was to have a long look at the whole vast complicated rural U S landscape with all that was built on it and all those who built and wrecked and worked in it and bore kids and dragged them up and played games and paraded and picnicked and suffered and died and were buried in it. In Montana the four photographers traveled to forty of the state's fifty six counties creating a rich record of the many facets of the Depression and recovery rural and urban agricultural and industrial work and play hard times and the promise of a brighter future. The photographers captured the dignity of Montanans as they struggled to scratch out livings from dried up fields nurture families in the shadows of Butte head frames and foster communities on the vast expanses of the northern plains. *Hope in Hard Times* features over 140 Farm Security Administration photographs to illustrate the story of the Great Depression in Montana and the experiences of the photographers who documented it. Today these striking images from cities like Butte to small towns like Terry present an unforgettable portrait of a little studied period in the history of Montana. Selected from the Farm Security Administration Collection at the Library of Congress in Washington D C the photographs in *Hope in Hard Times* offer viewers an unparalleled look at life in Montana in the years preceding the United States entry into World War II. *Silent Witnesses* Jacqueline Ellis, 1998. This book shows how the silence of working class women in American culture is constructed and reinforced in photographs by Dorothea Lange and Marion Post Wolcott and in writing by Meridel Le Sueur. Nevertheless using work by Esther Bubley and Tillie Olsen to suggest how working class female identity might be represented in more complicated ways. *Silent Witnesses* also reveals a cultural and political context where the creative and intellectual power of individual working class women can be fully expressed. *Shot in Alabama* Frances Osborn Robb, 2016. A sumptuously illustrated history of photography as practiced in the state from 1839 to 1941 offering a unique account of the birth and development of a significant documentary and artistic medium.
