From Slave to Statesman Robert Heinrich, Deborah Harding, 2016-05-16 In the 1980s Willis McGlascoe Carter's handwritten memoir turned up unexpectedly in the hands of a midwestern antiques dealer Its twenty two pages told a fascinating story of a man born into slavery in Virginia who at the onset of freedom gained an education became a teacher started a family and edited a newspaper Even his life as a slave seemed exceptional he described how his owners treated him and his family with respect and he learned to read and write Tucked into its back pages the memoir included a handwritten tribute to Carter written by his fellow teachers upon his death Robert Heinrich and Deborah Harding's *From Slave to Statesman* tells the extraordinary story of Willis M Carter's life Using Carter's brief memoir one of the few extant narratives penned by a former slave as a starting point Heinrich and Harding fill in the abundant gaps in his life providing unique insight into many of the most important events and transformations in this period of southern history Carter was born a slave in 1852 Upon gaining freedom after the Civil War Carter like many former slaves traveled in search of employment and education He journeyed as far as Rhode Island and then moved to Washington DC where he attended night school before entering and graduating from Wayland Seminary He continued on to Staunton Virginia where he became a teacher and principal in the city's African American schools the editor of the Staunton Tribune a

leader in community and state civil rights organizations and an activist in the Republican Party Carter served as an alternate delegate to the 1896 Republican National Convention and later he helped lead the battle against Virginia's new state constitution which white supremacists sought to use as a means to disenfranchise blacks. As part of that campaign Carter traveled to Richmond to address delegates at the constitutional convention serving as chairman of a committee that advocated voting rights and equal public education for African Americans. Although Carter did not live to see Virginia adopt its new Jim Crow constitution he died knowing that he had done all in his power to stop it. *From Slave to Statesman* fittingly resurrects Carter's all but forgotten story adding immeasurably to our understanding of the journey that he and men like him took out of slavery into a world of incredible promise and powerful disappointment. [Blacks in the Adirondacks](#) Sally E. Svenson, 2017-11-24 *Blacks in the Adirondacks: A History* tells the story of the many African Americans who settled in or passed through this rural mountainous region of northeastern New York State. In the area for a variety of reasons some were lifetime residents while others were there for a few years or months as summer employees, tuberculosis patients or in connection with full or part time occupations in railroading, the performing arts and baseball. From blacks who settled on land gifted to them by Gerrit Smith, a prosperous landowner and fervent abolitionist, to those who worked as waiters in resort hotels, Svenson chronicles their rich and varied experiences with an emphasis on the 100 years between 1850 and 1950. Many experienced racism and isolation in their separation from larger black populations; some found a sense of community in the scattered black settlements of the region. In this first definitive history, Svenson gives voice to the many blacks who spent time in the Adirondacks and sheds light on their challenges and successes in this remote region. **Cutting Along the Color Line** Quincy T. Mills, 2013-10-09 Today black owned barber shops play a central role in African American public life. The intimacy of commercial grooming encourages both confidentiality and camaraderie which make the barber shop an important gathering place for African American men to talk freely. But for many years preceding and even after the Civil War black barbers endured a measure of social stigma for perpetuating inequality though the profession offered economic mobility to black entrepreneurs. Black barbers were obliged by custom to serve an exclusively white clientele. Quincy T. Mills traces the lineage from these nineteenth century barbers to the bustling enterprises of today demonstrating that the livelihood offered by the service economy was crucial to the development of a black commercial sphere and the barber shop as a democratic social space. *Cutting Along the Color Line* chronicles the cultural history of black barber shops as businesses and civic institutions. Through several generations of barbers, Mills examines the transition from slavery to freedom in the nineteenth century, the early twentieth century expansion of black consumerism and the challenges of professionalization, licensing laws and competition from white barbers. He finds that the profession played a significant though complicated role in twentieth century racial politics while the services of shaving and grooming were instrumental in the creation of socially acceptable black masculinity. Barbering permitted the financial independence to maintain public spaces that fostered civil

rights politics This sweeping engaging history of an iconic cultural establishment shows that black entrepreneurship was intimately linked to the struggle for equality The World of Jim Crow America Steven A. Elder Care in Crisis Emily K. Abel, 2022-10-25 Explains why there is a crisis in caring for elderly people and how the COVID 19 pandemic exacerbated it Because government policies are based on an ethic of family responsibility repeated calls to support family members caring for the burgeoning elderly population have gone unanswered Without publicly funded long term care services many family caregivers cannot find relief from obligations that threaten to overwhelm them The crisis also stems from the plight of direct care workers nursing home assistants and home health aides most of whom are women from racially marginalized groups who receive little respect remuneration or job security Drawing on an online support group for people caring for spouses and partners with dementia Elder Care in Crisis examines the availability and quality of respite care which provides temporary relief from the burdens of care the long tortuous process through which

family members decide whether to move spouses and partners to institutions and the likelihood that caregivers will engage in political action to demand greater public support When the pandemic began caregivers watched in horror as nursing homes turned into deathtraps and then locked their doors to visitors Terrified by the possibility of loved ones in nursing homes contracting the disease or suffering from loneliness some caregivers brought them home Others endured the pain of leaving relatives with severe cognitive impairments at the hospital door and the difficulties of sheltering in place with people with dementia who could not understand safety regulations or describe their symptoms Direct care workers were compelled to accept unsafe conditions or leave the labor force At the same time however the disaster provided an impetus for change and helped activists and scholars develop a vision of a future in which care is central to social life Elder Care in Crisis exposes the harrowing state of growing old in America offering concrete solutions and illustrating why they are necessary

Suburban Erasure Walter Greason, 2013 For generations historians believed that the study of the African American experience centered on the questions about the processes and consequences of enslavement Even after this phase passed the modern Civil Rights Movement took center stage and filled hundreds of pages creating a new framework for understanding both the history of the United States and of the world Suburban Erasure by Walter David Greason contributes to the most recent developments in historical writing by recovering dozens of previously undiscovered works about the African American experience in New Jersey More importantly his interpretation of these documents complicates the traditional understandings about the Great Migration civil rights activism and the transformation of the United States as a global economic superpower Greason details the voices of black men and women whose vision and sacrifices made the dream of Dr Martin Luther King Jr possible Then in the second half of this study the limitations of this dream of integration become clear as New Jersey a state that took the lead in showing American how to overcome the racism of the past fell victim to a recurring pattern of colorblindness that entrenched the legacy of racial inequality in the consumer economy of the late twentieth century Suburbanization simultaneously erased the physical architecture of rural segregation in New Jersey and ideologically obscured the deepening persistent injustices that became the War on Drugs and the prison industrial complex His solution for the twenty first century involves the most fundamental effort to racially integrate state and local government conceived since the Reconstruction Era Suburban Erasure is a must read for people concerned with democracy human rights and the future of civil society
