Assembly Bill California. Legislature. Assembly, 1975 *How Emotions Work* Jack Katz, 1999 The portrait that emerges is one in which people are much more sensually intimately and aesthetically bound up in the landscapes of their lives than previous scientific studies would suggest In fact Katz argues that emotions are most directly understood as transformations of the ongoing aesthetic foundations of the self BOOK JACKET Brand-Driven City Building and the Virtualizing of Space Alexander Gutzmer, 2014-04-24 This book is an investigation of the cultural phenomenon of branding and its transformational effects on the contemporary spatial and urban reality It develops a novel understanding of the rationale behind the construction of large scale architectural complexes that relate to corporate brands and of its tremendous cultural effects The author suggests that what we see today is the creation of global mass ornaments of a thorough ornamentalization of the entire globe The origins of this are discussed with regard to examples of corporate brand building from Europe and China Autostadt Wolfsburg BMW Welt Munich and Anting New Town Additional cases are several simulated spaces in Berlin and the space branding activities of companies like Apple or Prada Theoretically the author develops an innovative poststructuralist framework combining ideas from Gilles Deleuze with the space philosophy of Peter Sloterdijk He analyzes how the corporate redefinition of space makes the city enter into a mode of virtual urbanity This idea leads to a notion of a global urban and ultimately the global mass ornament This concept of a global mass ornament is developed here with reference to Sloterdijk's concept of a world of spheres The latter is used to understand the new mode of spatiality of mediatized spaces The book makes the point that our world is involved in a process of mass ornamentalization that has only just begun The concept of the global mass ornament is the first to come to grips with a culture in which branding is effectively changing the physiognomy of the earth The global mass ornament is a banner for a cultural transformation that employs architecture sign theory and mechanisms borrowed from traditional advertising and from social media as well as social processes and that we have yet to properly understand This book is a significant step forward in this respect

,1919 **The Greatest Works of Upton Sinclair** Upton Sinclair,2022-12-10 Upton Sinclair's *The Greatest Works of Upton Sinclair* is a compelling anthology that showcases the author's pivotal role in early 20th century American literature and social commentary. Spanning a variety of genres including social realism, journalism, and fiction, this collection encompasses notable works such as *The Jungle*, which exposes the brutal conditions of the meatpacking industry, and *Oil!*, a sharp critique of American capitalism and greed. Sinclair's writing style is characterized by vivid imagery and a straightforward narrative reflecting both the industrial pace of the era and a deep moral urgency that calls for social activism. Each piece is a lens into the darker sides of American society, urging readers to confront uncomfortable truths about labor exploitation and reform movements of the time. Upton Sinclair (1878-1968) was a tireless advocate for social justice, influenced by his upbringing in a working class family. His experiences witnessing poverty and exploitation in urban America fueled his commitment to exposing societal injustices. With a journalistic background, Sinclair combined fiction and factual observation effectively, prompting public discourse on labor rights and economic reform. His staunch advocacy for socialism and criticism of capitalist practices positioned him as a controversial yet essential figure in American letters. This anthology is not merely an academic collection but an essential reading for anyone interested in the historical and ethical underpinnings of modern America. Sinclair's potent prose not only entertains but also educates, making it pivotal for understanding contemporary issues of inequality and corporate power. Readers seeking both literary and moral depth will find in Sinclair's works a call to action that resonates with today's socio-political climate.
