Lost Treasures Great Discoveries In World Archaeology:

Lost Treasures Paul G. Bahn, 2000 This volume explores a selection of the world's great archaeological discoveries. The treasures described and analyzed come from a wide range of contexts in terms of geography, culture, and time period. The treasures range from Ice Age figurines of central and Eastern Europe to African gold from the Dead Sea Scrolls to the sensational discoveries of Egyptologists in the tomb of Tutankhamen. The editor provides large-scale color photographs and his assessment of each of the man-made movable treasures while providing his commentary on the creators' materials, tools, technology, craftsmanship, and trade on religion, ritual, status, and hierarchy and on social life and appearance. *Lost Treasures* Paul G. Bahn, 1998-10

Ten Discoveries That Rewrote History Patrick Hunt, 2007-09-25 The world's greatest archaeological finds and what they tell us about lost civilizations. Renowned archaeologist Patrick Hunt brings his top ten list of ancient archaeological discoveries to life in this concise and captivating book. The Rosetta Stone, Troy, Nineveh's Assyrian Library, King Tut's Tomb, Machu Picchu, Pompeii, the Dead Sea Scrolls, Thera, Olduvai Gorge, and the Tomb of 10,000 Warriors. Hunt reveals the fascinating stories of these amazing discoveries and explains the ways in which they added to our knowledge of human history and permanently altered our worldview. Part travel guide to the wonders of the world and part primer on ancient world history, *Ten Discoveries That Rewrote History* captures the awe and excitement of finding a lost window into ancient civilization.

Digging Deeper Eric H. Cline, 2020-11-03 From the bestselling author of *1177 B.C.*, an accessible primer to the archaeologist's craft. An archaeologist with more than thirty seasons of excavation experience, Eric H. Cline has conducted fieldwork around the world from Greece and Crete to Egypt, Israel, and Jordan. In *Digging Deeper*, Cline answers the questions archaeologists are most frequently asked, such as: How do you know where to dig? How are excavations actually done? How do you know how old something is? Who gets to keep what is found? How do you know what people from the past ate, wore, and looked like? Adapted from Cline's acclaimed book *Three Stones Make a Wall*, this lively little volume is brimming with insights and practical advice about how archaeology really works. Whether you are an armchair archaeologist or embarking on your first excavation, *Digging Deeper* is an essential primer on the art of the dig.

Three Stones Make a Wall Eric H. Cline, 2018-11-06 From the bestselling author of *1177 B.C.*, a comprehensive history of archaeology from its amateur beginnings to the cutting-edge science it is today. In 1922, Howard Carter peered into Tutankhamun's tomb for the first time; the only light coming from the candle in his outstretched hand. Urged to tell what he was seeing through the small opening he had cut in the door to the tomb, the Egyptologist famously replied, "I see wonderful things." Carter's fabulous discovery is just one of the many spellbinding stories told in *Three Stones Make a Wall*. Written by Eric Cline, an archaeologist with more than thirty seasons of excavation experience, this book traces the history of archaeology from an amateur pursuit to the cutting-edge science it is today by taking the reader on a tour of major archaeological sites and discoveries. Along the way, it addresses the questions archaeologists are asked most often: How do you know where to dig? How are excavations

actually done How do you know how old something is Who gets to keep what is found Taking readers from the pioneering digs of the eighteenth century to today's exciting new discoveries Three Stones Make a Wall is a lively and essential introduction to the story of archaeology

The World's Great Archaeological Treasures Paul G. Bahn, 1999 The treasures described and analyzed here come from a wide range of different contexts in terms of geography and culture as well as historic or prehistoric period The treasures range from Ice Age figurines of central and eastern Europe to African gold from the Dead Sea Scrolls to the sensational discoveries of Egyptologist in the tomb of Tutankhamen Many of the most well known treasure troves were originally put together as burial furnishings and for this reason they tell us much of what our forebears believed about death and the afterlife and how provision was made for the wellbeing of the dead in their journey onwards

Egypt Julian Heath, 2015-02-19 The Archaeology Hotspots series offers reader-friendly and engaging narratives of the archaeology in particular countries. Written by archaeological experts with a general reader in mind, each book in the series focuses on what has been found and by whom, what the controversies and scandals have been, ongoing projects and how it all fits into a broader view of the history of the country. In *Archaeology Hotspot Egypt*, scholar Julian Heath provides a chronological overview beginning with handaxes left by *Homo erectus* during the Lower Paleolithic and moving onwards through pharaonic Egypt to finish in the Greco-Roman period. He covers the most interesting finds including Tutankhamen's tomb and the Rosetta Stone and profiles major personalities past and present. Current digs and recent insights on the past are also covered, such as the massive tomb of KV5 and how contemporary scientific techniques are unearthing new information about ancient Egyptian people and animals. The result is an illuminating look at the history, culture, national heritage and current archaeological news of Egypt, a hotspot of archaeology.

Relic Crusade: Past, Present, and Future Pasquale De Marco, 2025-03-15 In a world shaped by the echoes of the past, heritage stands as a powerful force capable of both uniting and dividing communities. This captivating book delves into the multifaceted nature of heritage, exploring its origins, evolution, and profound impact on our lives. Through a journey across diverse landscapes and cultures, we encounter individuals and communities who are actively engaged in preserving, reclaiming, and reimagining their heritage. We witness the ways in which heritage is constructed, contested, and consumed, and examine its complex relationship with power, identity, and conflict. We explore the concept of heritage itself, delving into its origins and evolution. We examine the role of heritage in shaping individual and collective identities and the ways in which it is used to construct narratives of belonging and difference. We also investigate the complex relationship between heritage and power and the ways in which dominant groups often seek to impose their own narratives on marginalized communities. From there, we turn our attention to the ways in which heritage is contested and negotiated. We explore the phenomenon of heritage wars, in which different groups vie for control over the interpretation and ownership of cultural heritage. We also examine the role of heritage in conflicts over land, resources, and political power. Next, we explore the ways in which heritage is consumed and commodified. We examine the rise of heritage tourism and the challenges it poses to the preservation and authenticity of cultural heritage. We also investigate the role of media and popular culture in shaping public perceptions of heritage and the ways in which heritage is used to sell products and promote political agendas. Finally, we look to the future of heritage. We consider the challenges and opportunities posed by globalization, climate change, and new technologies. We also explore the potential of heritage to promote peace, reconciliation, and sustainable development. This book is an essential read for anyone interested in the complex and fascinating world of heritage. It offers a comprehensive overview of the field, drawing on a wide range of disciplines including history, anthropology, sociology, and cultural studies. With its engaging writing style and insightful

analysis this book will appeal to both scholars and general readers alike If you like this book write a review
