into the corporate workplace Writers such as Andrea Brady Craig Dworkin Kenneth Goldsmith Danny Snelson and Rachel Zolf specifically target for criticism the institutions skill sets and values that make possible the smooth functioning of a postindustrial globalized economy Authorship comes in for particular scrutiny how does writing a poem differ in any meaningful way from other forms of content providing While often adept at using new technologies these writers nonetheless choose to explore anachronism ineptitude and error as aesthetic and political strategies The results can appear derivative tedious or vulgar they can also be stirring compelling and even sublime As Reed sees it this new generation of writers is carrying on the Duchampian practice of generating antiart that both challenges prevalent definitions of art and calls into question the legitimacy of the institutions that define it
