THE WHISTLE-BLOWER ON CORRUPT SCIENCE P.S.J. (Peet) Schutte, 2012-12-14 The Whistle Blower on Corrupt Science Science went corrupt the day Edmund Halley in 1705 told the world he used the physics formula of his friend Isaac Newton to calculate the route that Halley's comet took and the time it would arrive This was where science went crooked a position that went on ever since because that same dishonesty is still present in Newtonian science Halley calculated the time periods since 1066 at the battle of Hastings and found a comet was mentioned every seventy six years This was very ordinary for a man of his class so he had to get far cleverer than backdate history to get a time frame So he really got clever and conspired with the biggest fraud in science ever since the man that stole all the physics Doctor Hooks invented the man who even got Kepler figures wrong the man called Isaac Newton Halley said he used the formula of Newton to calculate the route the comet took This says he used mass to calculate how the comet came to the sun According to Newton's science the sun's mass pulled the comet and the comet's mass pulled right back and in this way the comet came to the sun I don't go into the comet as such in this book but I do in other books In this book I show how Newtonian science started to go corrupt in 1705 with one conspiracy to cheat and became the corrupt myth it now developed into How do I know Halley did not use the mass pull mass idea It is because if he did so then how did he calculate that the comet was cyclic or that it returns every seventy six years If mass pulled the comet to the sun what then pushed to comet back into outer space His big ambition was to prove the comet comes and goes but if mass makes the comet come what pushes the comet back You know what is the biggest fraud that came to be called Newtonian science The most brilliant minds on earth this past three hundred years failed to ask this simple question if mass pulls the comet closer what pushes the comet away If mass forms the force of pulling and pulled the comet closer then what pushed the comet back into the darkness of the beyond How did he know the mass of Halley's comet Nobody then asked questions No one asks uneasy question except me I show the fake science we have Newton and Halley got away with corrupt

science If you wish to prove wrong I challenge you to prove that Newton is correct Today just like it was and keeping the trend go on modern Newtonians gets away with even more corrupt science than anyone can imagine **Origin of the**

Shyamadas Mallick,2018-04-09 Kali the Whistle in the story never liked the idea of using his whistle as a means to call his
colleagues literally or symbolically He always acted on his own trying hard to resist the existing subculture in the service he
joined This produced many difficulties for him In his subconscious mind he presumed that the whistle had a more significant
role to play than merely calling for help But could Kali really resist the subculture in the end or fall victim to it The whistle in

Walks Judith McAllister,2005-12-05 Clay Whistle held to sanity by strength of will She had three days only to live in this
Middleworld to taste the sweetness of chocolate to hear the music of the morning bird to smell the heady perfume of flowers
touch the female fertility of earth three days to find meaning in life She thought often of Zactun Na The City Of The White
Stone House of her friend Half Coat She thought of her sister Thirteen Moon and there was comfort in the knowledge that
the blood of their lineage would be passed on through her child But most often Clay Whistle thought of the island In her mind
she fled the enclosing walls of her stone chambers at Tikal to soar free on the wings of a Red tailed Hawk With her heart she
rose high above mist that clung like white gauze to the verdant green hills of the highlands then wheeled to ride a swift
carpet of warm wind over white beaches and across the blue green tidal inlet that led home She lived in two worlds now in
the present clinging to the vibrant texture of life And in the past in that time when as a child she ran barefoot toward the
promise of tomorrow and touched so easily the elusive tail feathers of happiness in that time and place in the sacred round of
days when she had known Red Canoe
