Movies on TV and Videocassette, 1991-1992 Steven H. Scheuer, 1990 National Library of Medicine Audiovisuals Catalog National Library of Medicine (U.S.), Movies at Home Kerry Segrave, 1999-01-01 The relationship of Hollywood and television initially turbulent has ultimately been profitable from the first sally in what was expected to be a war of attrition up through the soliciting of movies by major networks independent stations basic cable networks premium cable channels pay per view systems and even the corner video store When their initial efforts to acquire ownership interests in television outlets were thwarted Hollywood s major movie studios determined to withhold from the tube not only their films but also their actors no doubt in hopes of making the rival medium appear a weak substitute for cinema With ticket sales shrinking and television set purchases booming the studios erasing their last contemptuously drawn line in the sand grudgingly released their films to television and made a fortune

Censoring Sex John E. Semonche, 2007 In this volume John E Semonche surveys censorship for reasons of sex from the nineteenth century up to the present He covers the various forms of American media books and periodicals pictorial art motion pictures music and dance radio television and the Internet Despite the varieties of censorship running from self censorship to government bans a common story is told Censorship whether undertaken to ward off government regulation to help preserve the social order or to protect the weak and vulnerable proceeds on the assumption that the censor knows best and that limiting the choices of media consumers is justified Covering the history of censorship of sexual ideas and images is one way of telling the story of modern America

Videoland Daniel Herbert, 2014-01-24 Videoland offers a comprehensive view of the tangible phase of consumer video when Americans largely accessed movies as material commodities at video rental stores Video stores served as a vital locus of movie culture from the early 1980s until the early 2000s changing the way Americans socialized around movies and collectively made movies meaningful When films became tangible as magnetic tapes and plastic discs movie culture flowed out from the theater and the living room entered the public retail space and became conflated with shopping and salesmanship In this process video stores served as a crucial embodiment of movie culture s historical move toward increased flexibility adaptability and customization In addition to charting the historical rise and fall of the rental industry Herbert explores the architectural design of video stores the social dynamics of retail encounters the video distribution industry the proliferation of video recommendation guides and the often surprising persistence of the video store as an adaptable social space of consumer culture Drawing on ethnographic fieldwork cultural geography and archival research Videoland provides a wide ranging exploration of the pivotal role video stores played in the history of motion pictures and is a must read for students and scholars of media history
