Obligation And The Body Politic:

Obligation and the Body Politic Joseph Tussman, 1960 Professor Tussman deals with political theory as it bears on the problems of political decision inherent in our democratic system By approaching the problems of the good society from a contemporary philosopher's point of view rather than applying the usual historical approach he bridges the gap between political theory and practice In an integrated analysis of the basic problems of political philosophy the author covers the whole range from discussion of natural law to an examination of the decision making tribunal and ends by challenging some of the prevailing concepts of democracy today Through an explanation of the way in which the members of a political community and their elected officials should strive to fulfill their obligations he works out basic political problems in language that is clear forceful and to the point In treating democracy as a whole he attacks the marketplace of ideas concept which has resulted in the commercialization of democratic processes This book shows how pertinent a discussion of political values can be when handled by a man who has a firm grasp of underlying philosophical principles Publisher *Obligation and the Body Politic* Jerome Seymour Bruner, 1960 **The Book of the Body Politic** Christine (de Pisan), 1994-09-15 Christine de Pisan was born in Venice and raised in Paris at the court of Charles V of France Widowed at the age of twenty five she turned to writing as a source of comfort and income and went on to produce a remarkable series of books including poetry politics chivalry warfare religion and philosophy She is considered to be France's first female professional writer This was the first translation into modern English of Christine de Pisan's major political work *The Book of the Body Politic* Written during the Hundred Years War it discusses the education and behaviour appropriate for princes nobility and common people so that all classes can understand their responsibilities towards society as a whole A product of a time of civil unrest *The Book of the Body Politic* offers a medieval political theory of interdependence and social responsibility from the perspective of an educated woman *Gender and the Southern Body Politic* Nancy Bercaw, 2000 **Civilization and the Chinese Body Politic** Yongnian Zheng, 2022-11-22 In this important and hugely ambitious book one of the world's leading political scientists working on China demonstrates how Western views of China are flawed because the long tradition of Western scholarship studying China views China from the Western philosophical and intellectual perspective rather than viewing China on its own terms through the lens of China's own long established and reputable philosophical and intellectual tradition Providing a deep analysis of Western scholarship on China including work from Leibniz to Marx to Weber and then to Wittfogel and a thorough account of the evolution of China's own thinking about governance as expressed in the practices of successive Chinese dynasties the book goes on to examine how the current Chinese body politic fits with and is the natural outcome of China's own long well thought through and well practiced intellectual consideration of what the nature of civilized governance should be By focusing on philosophical and intellectual approaches rather than on theoretical or methodological ones the book shows how the huge and increasing disconnect between non Chinese views of China and

Chinese ones has come about **AIDS and the Body Politic** Catherine Waldby, 2003-09-02 First published in 2004
Routledge is an imprint of Taylor Francis an informa company Shakespeare and the Body Politic Bernard J. Dobski, Dustin
A. Gish, 2013-04-25 Metaphors animate Shakespeare's corpus and one of the most prominent is the image of the body
sketched out in the eternal lines of his plays and poetry and often drawn in exquisite detail variations on the body metaphor
abound in the works of Shakespeare Attention to the political dimensions of this metaphor in *Shakespeare and the Body
Politic* permits readers to examine the sentiments of romantic love and family life the enjoyment of peace prosperity and
justice and the spirited pursuit of honor and glory as they inevitably emerge within the social moral and religious limits of
particular political communities The lessons to be learned from such an examination are both timely and timeless For the
tensions between the desires and pursuits of individuals and the health of the community forge the sinews of every body
politic regardless of the form it may take or even where and when one might encounter it In his plays and poetry
Shakespeare illuminates these tensions within the body politic which itself constitutes the framework for a flourishing
community of human beings and citizens from the ancient city states of Greece and Rome to the Christian cities and
kingdoms of early modern Europe The contributors to this volume attend to the political context and role of political actors
within the diverse works of Shakespeare that they explore Their arguments thus exhibit together Shakespeare's political
thought By examining his plays and poetry with the seriousness they deserve Shakespeare's audiences and readers not only
discover an education in human and political virtue but also find themselves written into his lines Shakespeare's body of
work is indeed politic and the whole that it forms incorporates us all **Functionalism and World Politics** James Patrick

Cowan explores how the politics of gender is articulated through the body at these culturally central yet until now
ethnographically neglected celebrations in a class divided northern Greek town Portraying the dance event as both a highly
structured and dynamic social arena she approaches the human body not only as a sign to be deciphered but as a site of
experience and an agent of practice In describing the multiple ideologies of person gender and community that townspeople

embody and explore as they dance Cowan presents three different settings the traditional wedding procession the Europeanized formal evening dance of local civic associations and the private party She examines the practices of eating drinking talking gifting and dancing and the verbal discourse through which celebrants make sense of each other's actions Paying particular attention to points of tension and moments of misunderstanding she analyzes in what ways these social situations pose different problems for men and women

Shevory, 2000-02-28 Negotiating the terrain between techno optimism and eco pessimism this work establishes the political connections between technologies of the body property and the environment Specific technologies of the body such as surrogacy and in vitro fertilization are examined in relation to their political and legal constructions Next Shevory analyzes private property as an evolving historical concept that implicates environmental and biological transformations with particular attention given to biotechnology cases He then considers the body's appearance and its alterations through plastic surgery dieting or piercing as political constructions A theoretical overview specifies technoprogressivist liberal and technophobic traditions especially as they have evolved in the United States during the second half of the 20th century

Drawing upon critical and feminist theories Shevory specifies a body politics that negotiates the terrain between these two traditions Body technologies and markets he argues interact to consolidate and reinforce dominant systems of power while at the same time resisting and sometimes subverting them Technology is often a factor in the fragmentation of evolving political ideological discourses on the left and right however the resulting instabilities create the potential for both the expansion of global capital and its subversion via democratic interventions *Political Obligation* John Horton, 2017-08-24 How should we understand the relationship between citizens and governments and what are the obligations of citizens In this substantially revised new edition of an influential text John Horton challenges dominant theories by offering an associative account

focusing particularly on what it is to be a member of a political community **Guilds, Labour and the Urban Body Politic** Bert De Munck, 2017-12-01 This book presents a new view on the relation between labour and community through a focus on craft guilds In the Southern Netherlands occupational guilds were both powerful and governed by manufacturing masters enabling the latter to imprint their mark upon urban society in an economic socio cultural and political way While the urban community was deeply indebted to a corporative spirit and guild ethic originating in medieval Germanic and Christian traditions guild based artisans succeeded in being accepted as genuine political and hence rational actors their political identity and agency being based upon their skills and trustworthiness In the long run this corporative spirit and power inexorably waned Yet this book shows that an adequate understanding of the development of European modernity i e proletarianisation and the emergence of a modern economy and modern economic and political thinking requires taking seriously the ruins upon which it is build These histories can actually be recounted as purifications of sorts in which the economic was separated from the political the individual from the social and the transcendent from the material While the religiously inspired corporative nature of the urban body politic waned the urban artisans lost their credibility as political and rational actors *The Oxford Handbook of Political Obligation* , 2025-09-28 The Oxford Handbook of Political Obligation offers an authoritative up to date overview of research in this field In recent decades scholars have developed strong criticisms of the traditional reasons given to explain political obligations At present skepticism about the possibility of a convincing account may well be the dominant position in the literature These philosophical developments run alongside changed political and social circumstances In recent years Western political systems have come under suspicion with citizens led to question traditional reasons why they should obey them Additional factors renewing interest in political obligation include the emergence of new democracies in Eastern Europe occasioned by the fall of the Soviet Union and unrest in many American cities especially over issues of racial justice This Handbook has two main foci contemporary philosophical debates about political obligation and responses to political social circumstances that raise questions about requirements to obey the law Traditional theories of obligation are addressed in a series of essays by well known authorities while additional essays canvass new approaches including the possibility of legitimate states without moral requirements to obey them and skeptical conclusions from important theorists Responses to political and social circumstances include civil disobedience and more radical approaches In addition political obligations are addressed as they bear on emerging democracies and unjust and authoritarian regimes **An American Body - Politic** Bernd Herzogenrath, 2010-11-09 A reflection on the metaphor of the body politic throughout American history **Rethinking Political Obligation** D. Body Politic Lene Auestad, 2018-05-01 This volume aims to question the recent revival of neo nationalist policies in the light of what unconscious fantasies are involved in these developments It examines both recent movements of right wing extremism and the way in which rearticulated neo ethnic ideas have been adopted by mainstream politicians and in mainstream public discourse Politicians from other than the right wing populist parties have tended to resist specific ways of talking that are considered too extremist rather than their underlying frame of interpretation Governments across Europe have adopted anti immigrant and anti Roma policies Xenophobia and hostility towards others is on the rise along with appeals to Tradition and Security Cultures of fear are linked with fantasies of fusion or imagined sameness Alongside the image of the nation as a mother and or father Reich 1933 called attention to the fantasy of the nation as a body echoed in Money Kyrle s 1939 characterization of group hypochondria in connection with the burning of witches and heretics
