Reconsidering Social Constructionism Gale Miller, 2017-09-29 With the impact of social interactionist and ethnographic methodology twenty five years ago the research agenda in social problems began to shift its focus giving rise to the Social Constructionism movement The present volume and the related shorter text Constructionist Controversies review the substantial contributions made by social constructionist theorists over that period as well as recent debates about the future of the perspective These contributions redefine the purpose and central questions of social problems theory and articulate a research program for analyzing social problems as social constructions A generation of theorists has been trained in the constructionist perspective and has extended it through numerous analyses of diverse aspects of contemporary social life The debates in this volume pose fundamental questions about the major assumptions of the perspective the ways in which it is practiced and the purposes of social problems theory Their point of departure is Ibarra and Kitsuse's essay cutting new theoretical ground in calling for investigating vernacular resources especially rhetorical forms in the social problems process Contributors are forceful proponents both within and outside of the social constructionist community who take a broad array of positions on the current state of social problems theory and on the rhetorical forms that need exploring They also lay down the general lines for diverse and often competing

Handbook of Community Sentiment Monica K. Miller, Jeremy A. Blumenthal, Jared Chamberlain, 2014-11-18 This volume is the most comprehensive reference book on community sentiment available The classic book about community sentiment is Norm Finkel s Commonsense Justice Jurors Notions of the Law 1995 A similarly

influential book called *Justice Liability and Blame* was published at the same time examining lay sentiment about a variety of criminal issues and suggesting ways in which the substantive criminal law could be reformed in light of such lay responses Robinson Darley 1995 Although these books were influential and important for their time and since this Handbook expands significantly on them both by updating research since that time and broadens the scope of topic areas to ones that are not limited to trial and criminal justice issues Each chapter is original unpublished and focuses on an area related to children families many of which are hot topic areas in the news and courts today For instance the U S Supreme Court decided a case in June 2012 about the constitutionality of life without parole for juvenile offenders a topic discussed in the Fass and Miora chapter Thus it is of interest to those interested in family law topics as well *Higher Education - Reflections From the Field - Volume 4* ,2023-11-02 COVID wrought havoc on the world s economic systems Higher education did not escape the ravages brought on by the pandemic as institutions of higher education around the world faced major upheavals in their educational delivery systems Some institutions were prepared for the required transition to online learning Most were not Whether prepared or not educators rose to the challenge The innovativeness of educators met the challenges as digital learning replaced the face to face environment In fact some of the distance models proved so engaging that many students no longer desire a return to the face to face model As with all transitions some things were lost while others were gained This book examines practice in the field as institutions struggled to face the worst global pandemic in the last century The book is organized into four sections on Embracing Quality Assurance Educational Standards and Quality Assurance Evaluating Educational Access and Why Assessment It presents various perspectives from educators around the world to illustrate the struggles and triumphs of those facing new challenges and implementing new ideas to empower the educational process These discussions shed light on the impact of the pandemic and the future of higher education post COVID Higher education has been forever changed and higher education as it once was may never return While many questions arise the achievements in meeting and overcoming the pandemic illustrate the creativity and innovativeness of educators around the world who inspired future generations of learners to reach new heights of accomplishment even in the face of the pandemic

The Politics of Alcoholism Carolyn Wiener,2023-04-14 The Politics of Alcoholism can be read on one level as a fascinating history of the evolving politics of what this country is doing about the problem of alcoholism Not so long ago that problem was scarcely larger than a human hand against the horizon but now it makes good regular newspaper copy This text follows through on the much raised question of how a social problem becomes defined as a large scale problem when the same phenomenon x Preface now labeled as a problem was not so named before What is offered here is a direct attack on the rise into public visibility of something previously the concern of a relatively small number of people and groups and which gets defined along the way as a problem for the whole nation The second issue addressed is closer to the political scientist s traditional interest namely the politics of handling public issues research and theorizing here usually focus on interest groups

lobbying public debate legislative rights constituencies and so on
