

THE PORTABLE THOREAU

Revised Edition

Edited by CARL BODE

Portable Thoreau The

Carolyn Merchant

Portable Thoreau The:

The Portable Thoreau Henry David Thoreau, 2012-03-27 An updated edition of Thoreau's most widely read works. Self-described as a mystic, a transcendentalist, and a natural philosopher to boot, Henry David Thoreau dedicated his life to preserving his freedom as a man and as an artist. Nature was the fountainhead of his inspiration and his refuge from what he considered the follies of society. Heedless of his friends' advice to live in a more orthodox manner, he determinedly pursued his own inner bent that of a poet-philosopher in prose and verse. Edited by noted Thoreau scholar Jeffrey S. Cramer, this edition promises to be the new standard for those interested in discovering the great thinker's influential ideas about everything from environmentalism to limited government. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,700 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.

The Portable Thoreau. Edited and With an Introd. By C. Bode Henry David Thoreau, Carl Bode, 1964 **The Portable Thoreau** Henry David Thoreau, 1967 **The Portable Thoreau. Edited, and With an Introd., by Carl Bode** Henry David Thoreau, 1965 The Portable Emerson Ralph Waldo Emerson, 2014-12-30 This volume edited by Carl Bode in collaboration with Malcolm Cowley presents the essential Emerson selected from works that eloquently express the philosophy of a worldly idealist. The Portable Emerson comprises essays including History, Self-Reliance, The Over-soul, Circles, and The Poet; Emerson's first book, *Nature*; in its entirety, twenty-two poems including *Uriel*, *The Humble Bee*, and *Give All to Love*; orations including *The American Scholar*, *The Fugitive Slave Law*, and *John Brown*; English Traits; complete and biographical essays on Plato, Napoleon, Henry David Thoreau, Thomas Carlyle, and others. *Charles Ives's Concord* Kyle Gann, 2017-05-16 In 1921 insurance executive Charles Ives sent out copies of a piano sonata to two hundred strangers. Laden with dissonant chords, complex rhythm, and a seemingly chaotic structure, the so-called Concord Sonata confounded the recipients as did the accompanying book *Essays Before a Sonata*. Kyle Gann merges exhaustive research with his own experience as a composer to reveal the Concord Sonata and the essays in full. Diffraction: the twinned works into their essential aspects. Gann lays out the historical context that produced Ives's masterpiece and illuminates the arguments Ives himself explored in the *Essays*. Gann also provides a movement-by-movement analysis of the work's harmonic structure and compositional technique, connects the sonata to Ives's works that share parts of its material, and compares the 1921 version of the Concord with its 1947 revision to reveal important aspects of Ives's creative process. A tour de force of critical, theoretical, and historical thought, Charles Ives's

Concord provides nothing less than the first comprehensive consideration of a work at the heart of twentieth century American music Our Limits Transgressed Bob Pepperman Taylor,1992 Is democracy hazardous to the health of the environment *An Ecology of Communication* William Homestead,2021-04-20 An Ecology of Communication addresses an ecological and communicative dilemma the universe earth and socio cultural life world are resoundingly dialogic yet we have created modern and postmodern cultures largely governed by monologue This book is indispensable reading for scholars and students of communication ecology and social sciences as it moves readers beyond the anthropocentric bias of communication study toward a listening based model of communication an essential move for discerning fitting responses and the call to responsibility in an age of ecocrisis Thoreau's Importance for Philosophy Rick Anthony Furtak,Jonathan Ellsworth,James D. Reid,2012-08-14 Although Henry David Thoreau s best known book *Walden* is admired as a classic work of American literature it has not yet been widely recognized as an important philosophical text In fact many academic philosophers would be reluctant to classify Thoreau as a philosopher at all The purpose of this volume is to remedy this neglect to explain Thoreau s philosophical significance and to argue that we can still learn from his polemical conception of philosophy Thoreau sought to establish philosophy as a way of life and to root our philosophical conceptual affairs in more practical or existential concerns His work provides us with a sustained meditation on the importance of leading our lives with integrity avoiding what he calls quiet desperation The contributors to this volume approach Thoreau s writings from different angles They explore his aesthetic views his naturalism his theory of self his ethical principles and his political stances Most importantly they show how Thoreau returns philosophy to its roots as the love of wisdom *Reinventing Eden* Carolyn Merchant,2013 Visionary quests to return to the Garden of Eden have shaped Western culture from Columbus voyages to today s tropical island retreats Few narratives are so powerful and as Carolyn Merchant shows so misguided and destructive as the dream of recapturing a lost paradise A sweeping account of these quixotic endeavors by one of America s leading environmentalists *Reinventing Eden* traces the idea of rebuilding the primeval garden from its origins to its latest incarnations in shopping malls theme parks and gated communities With eloquence and insight Merchant shows how the drive to conquer nature and to explore and settle the globe springs from this utopian pastoral impulse throughout Western history Time and again human manipulation of the environment is our downfall Eden is achieved by fencing off pristine beauty in national parks and wildlife preserves while leaving the majority of the earth in ruins Challenging both narratives Merchant argues that the green veneer of city park conservation has become a cover for the corruption of the earth and the neglect of its environment *Reinventing Eden* is a bold new way to think about the earth that includes green political parties sustainable development and a partnership between humans and earth that is nothing short of an ecological revolution
