Encyclopedia of Witchcraft Richard M. Golden, Director, Jewish Studies Program, 2006-01-30 The definitive compilation on witchcraft and witch hunting in the early modern era, exploring significant people, places, beliefs, and events. Encyclopedia of Witchcraft: The Western Tradition is the definitive reference on the age of witch hunting, approximately 1430-1750, its origins, expansion, and ultimate decline. Incorporating a wealth of recent scholarship in four richly illustrated, alphabetically organized volumes, it offers historians and general readers alike the opportunity to explore the realities behind the legends of witchcraft and witchcraft trials. Over 170 contributors from 28 nations provide vivid, documented descriptions and analyses of witchcraft trials and locations, folklore, and beliefs, magical practices, and deities, influential texts, and the full range of players in this extraordinary drama: witchcraft theorists and theologians, historians, and authors, judges, clergy, and rulers, the accused, and their persecutors. Concentrating on Europe and the Americas in the early modern era, the work also covers relevant topics from the ancient Near East, including the Hebrew and Christian Bibles, classical antiquity, and the European Middle Ages.

Renaissance Go-Betweens Andreas Höfele, Werner von Koppenfels, 2011-12-22 The volume analyses some of the travelling and bridge building activities that went on in Renaissance Europe, mainly but not exclusively across the Channel. True to Montaigne's epoch-making program of describing the passage, its emphasis on Anglo-Continental relations ensures a firm basis in English literature, but its particular appeal lies in its European point of view and in the perspectives it opens up into other areas of early modern culture, such as pictorial art, philosophy, and economics. The multiple implications of the go-between concept make for structured diversity. The chapters of this book are arranged in three stages. Part 1, *Mediators*, focuses on influential go-betweens, both as groups like the translators and as individual mediators. The second part of this book, *Mediations*, is concerned with individual acts of mediation and with the mental topographies they presuppose, reflect, and redraw in their
