Scythian Gold Treasures From Ancient Ukraine:

Scythian Gold Ellen Reeder, 2001-09-01 **Scythian Gold**, 1999 Scythian Gold, 2000 **Scythian Gold** Ellen Reeder, Esther Jacobson, San Antonio Museum of Art, 1999-11 Scythian Gold and the exhibition it accompanies Gold of the Nomads Scythian Treasures from Ancient Ukraine present the most important Scythian gold objects in Ukraine many of which were discovered only in the last two decades This exhibition and catalogue combine an analysis of these pieces with an overview of recent advances in our understanding of Scythian culture BOOK JACKET *The Scythians* Barry Cunliffe, 2019-09-26 Brilliant horsemen and great fighters the Scythians were nomadic horsemen who ranged wide across the grasslands of the Asian steppe from the Altai mountains in the east to the Great Hungarian Plain in the first millennium BC Their steppe homeland bordered on a number of sedentary states to the south the Chinese the Persians and the Greeks and there were inevitably numerous interactions between the nomads and their neighbours The Scythians fought the Persians on a number of occasions in one battle killing their king and on another occasion driving the invading army of Darius the Great from the steppe Relations with the Greeks around the shores of the Black Sea were rather different both communities benefiting from trading with each other This led to the development of a brilliant art style often depicting scenes from Scythian mythology and everyday life It is from the writings of Greeks like the historian Herodotus that we learn of Scythian life their beliefs their burial practices their love of fighting and their ambivalent attitudes to gender It is a world that is also brilliantly illuminated by the rich material culture recovered from Scythian burials from the graves of kings on the Pontic steppe with their elaborate gold work and vividly coloured fabrics to the frozen tombs of the Altai mountains where all the organic material wooden carvings carpets saddles and even tattooed human bodies is amazingly well preserved Barry Cunliffe here marshals this vast array of evidence both archaeological and textual in a masterful reconstruction of the lost world of the Scythians allowing them to emerge in all their considerable vigour and splendour for the first time in over two millennia *Legacy in Gold, Scythian Treasures from Ancient Ukraine [STUDENT REPORTS]* Sarah Gard, 2022 Artifacts from the Ancient Silk Road William E. Mierse, 2022-12-01 Artifacts from the Ancient Silk Road explores the interconnectivity of the Eurasian continent from 4000 BCE to 1000 CE It focuses on the role played by Central Asia through which passed the major trade routes the Silk Roads Artifacts from the Ancient Silk Road covers life along the Silk Road over 5000 years as it can be understood by considering objects In this first object based study to consider all of the peoples involved on the Silk Roads objects provide the vehicles for explorations of different aspects of life for the various peoples of the Silk Roads including the sedentary peoples who established urban life on the Silk Roads the steppe nomads who regularly interacted with the settled peoples and the peoples at either end of the Silk Roads who drove certain kinds of economic exchanges The book looks at Central Asia as an international zone during ancient times when multiple religious political and technological ideas found acceptance in the region and allows for a better understanding of how some ideas and forms developed in

Central Asia while others passed through or were modified *Feeding the Democracy* Alfonso Moreno, 2007-10-25 Alfonso Moreno presents a sweeping re interpretation of the economy and society of ancient Athens showing how the city depended for its survival on a supply of grain from overseas sources The need for grain determined Athenian foreign policy prompting military conquest and revealing a Greek world as globalized as our own *A History of Beekeeping and the Honeybee in Contested Eastern European Landscapes* Catherine B. Clay, 2024-12-21 A History of Beekeeping and the Honeybee in Contested Eastern European Landscapes Empires of the Bee traces the material cultural dynamics of the honeybee and beekeeping from prehistory to the present through Kievan Rus the Novgorod Republic Muscovy Imperial Russia the Soviet Union and the Russian Federation Interweaving environmental social economic and cultural history this book explores the meaning and experience of beekeeping in the longue duree to its public history in Russian museums today Although eclipsed by momentous events and developments in Russia s history the humble honeybee is fundamental to the history and culture of this region **How Ancient Europeans Saw the World** Peter S. Wells, 2023-09-22 The Oxford Handbook of the European Iron Age presents a broad overview of current understanding of the archaeology of Europe from 1000 BC through to the early historic periods exploiting the large quantities of new evidence yielded by the upsurge in archaeological research and excavation on this period over the last thirty years Three introductory

chapters situate the reader in the times and the environments of Iron Age Europe Fourteen regional chapters provide accessible syntheses of developments in different parts of the continent from Ireland and Spain in the west to the borders with Asia in the east from Scandinavia in the north to the Mediterranean shores in the south Twenty six thematic chapters examine different aspects of Iron Age archaeology in greater depth from lifeways economy and complexity to identity ritual and expression Among the many topics explored are agricultural systems settlements landscape monuments iron smelting and forging production of textiles politics demography gender migration funerary practices social and religious rituals coinage and literacy and art and design

Art in the Eurasian Iron Age Courtney Nimura, Helen Chittock, Peter Hommel, Chris Gosden, 2020-02-28 Since early discoveries of so called Celtic Art during the 19th century archaeologists have mused on the origins of this major art tradition which emerged in Europe around 500 BC Classical influence has often been cited as the main impetus for this new and distinctive way of decorating but although Classical and Celtic Art share certain motifs many of the design principles behind the two styles differ fundamentally Instead the idea that Celtic Art shares its essential forms and themes of transformation and animism with Iron Age art from across northern Eurasia has recently gained currency partly thanks to a move away from the study of motifs in prehistoric art and towards considerations of the contexts in which they appear This volume explores Iron Age art at different scales and specifically considers the long distance connections mutual influences and shared ways of seeing that link Celtic Art to other art traditions across northern Eurasia It brings together 13 papers on varied subjects such as animal and human imagery technologies of production and the design theory behind Iron Age art balancing pan Eurasian scale commentary with regional and site scale studies and detailed analyses of individual objects as well as introductory and summary papers This multi scalar approach allows connections to be made across wide geographical areas whilst maintaining the detail required to carry out sensitive studies of objects

The Ukrainians Andrew Wilson,2022-11-08 As in many postcommunist states politics in Ukraine revolves around the issue of national identity Ukrainian nationalists see themselves as one of the world s oldest and most civilized peoples as older brothers to the younger Russian culture Yet Ukraine became independent only in 1991 and Ukrainians often feel like a minority in their own country where Russian is still the main language heard on the streets of the capital Kiev This book is a comprehensive guide to modern Ukraine and to the versions of its past propagated by both Russians and Ukrainians Andrew Wilson provides the most acute informed and up to date account available of the Ukrainians and their country Concentrating on the complex relation between Ukraine and Russia the book begins with the myth of common origin in the early medieval era then looks closely at the Ukrainian experience under the tsars and Soviets the experience of minorities in the country and the path to independence in 1991 Wilson also considers the history of Ukraine since 1991 and the continuing disputes over identity culture and religion He examines the economic collapse under the first president Leonid Kravchuk and the attempts at recovery under his successor Leonid Kuchma Wilson explores the conflicts in Ukrainian society between the country s Eurasian roots and its Western aspirations as well as the significance of the presidential election of November 1999 *The Hunter, the Stag, and the Mother of Animals* Esther Jacobson-Tepfer,2015-04-08 The ancient landscape of North Asia gave rise to a mythic narrative of birth death and transformation that reflected the hardship of life for ancient nomadic hunters and herders Of the central protagonists we tend to privilege the hero hunter of the Bronze Age and his re incarnation as a warrior in the Iron Age But before him and in a sense behind him was a female power half animal half human From her came permission to hunt the animals of the taiga and by her they were replenished She was in other words the source of the hunter

s success The stag was a latecomer to this tale a complex symbol of death and transformation embedded in what ultimately became a struggle for priority between animal mother and hero hunter From this region there are no written texts to illuminate prehistory and the hundreds of burials across the steppe reveal little relating to myth and belief before the late Bronze Age What they do tell us is that peoples and cultures came and went leaving behind huge stone mounds altars and standing stones as well as thousands of petroglyphic images With *The Hunter the Stag and the Mother of Animals* Esther Jacobson Tepfer uses that material to reconstruct the prehistory of myth and belief in ancient North Asia Her narrative places monuments and imagery within the context of the physical landscape and by considering all three elements as reflections of the archaeology of belief Within that process paleoenvironmental forces economic innovations and changing social order served as pivots of mythic transformation With this vividly illustrated study Jacobson Tepfer brings together for this first time in any language Russian and Mongolian archaeology with prehistoric representational traditions of South Siberia and Mongolia in order to explore the non material aspects of these fascinating prehistoric cultures
