**Sea power and influence** Jonathan Alford, 1980 Military Power, Conflict, and Trade Michael P. Gerace, 2004 This is a book about how military spending and international trade interact among great powers about their peacetime patterns of conflict and about the peacetime roles played by military power The Evolution of Strategy Beatrice Heuser, 2010-10-14 Is there a Western way of war which pursues battles of annihilation and single minded military victory Is warfare on a path to ever greater destructive force This magisterial account answers these questions by tracing the history of Western thinking about strategy the employment of military force as a political instrument from antiquity to the present day Assessing sources from Vegetius to contemporary America and with a particular focus on strategy since the Napoleonic Wars Beatrice Heuser explores the evolution of strategic thought the social institutions norms and patterns of behaviour within which it operates the policies that guide it and the cultures that influence it Ranging across technology and warfare total warfare and small wars as well as land sea air and nuclear warfare she demonstrates that warfare and strategic thinking have fluctuated wildly in their aims intensity limitations and excesses over the past two millennia To Shining Sea Stephen Howarth, 1999 The most comprehensive and authoritative narrative account of American sea power written in recent times Handbook of Defence Studies David J. Galbreath, John R. Deni, 2018-02-12 The Routledge Handbook of Defence Studies provides a comprehensive collection of essays on contemporary defence studies by leading international scholars Defence studies is a multi disciplinary study of how agents predominantly states prepare for and go to war Whereas security studies has been broadened and stretched to cover at times the near totality of international and domestic affairs and war studies has come to mean not just operations and tactics but also experiences and outcomes defence studies remains a coherent area of study primarily aimed at how defence policy changes over time and in relation to stimulating factors such as alterations in power strategy and technology This new Handbook offers a complete landscape of this area of study and contributes to a review of defence studies in terms of policy security and war but also looks forward to new challenges to existing conceptions of defence and how this is changing as states and their militaries also change The volume is divided into four thematic sections Defence as Policy Defence Practice Operations and Tactics and Contemporary Defence Issues The ability to review the field while also looking forward to further research is an important element of a sustainable text on defence studies In as much as this volume is able to highlight the main themes of defence studies it also offers an in depth look into how defence issues can be examined and compared in a contemporary setting This Handbook will be of great interest to students of defence studies strategic studies war studies security studies and IR Japan's Sea Lane Security Euan Graham, 2005-11-16 This is the first major English language study to explore the broad and longstanding connections between Japan's national security and the safety of its sea lanes Tracing issues from pre and post 1945 eras the book explores how Japan's concerns with sea lane protection have developed across such diverse fields as military strategy diplomacy trade policy energy security

and law enforcement Drawing upon case study material and primary research including interviews with officials and security analysts the book presents a chronological analysis of Japan's sea lane security While Japan's security policies have recently undergone relatively rapid change a historical treatment of sea lane security issues reveals long term continuity in security policymakers perceptions and responses regarding Japan's defence and foreign policy Revealing a neglected but important aspect of Japan's military and economic security the book investigates why officials and analysts continue to portray the defence of Japan's sea lanes as a matter of life and death Seapower and Naval Warfare, 1650-1830 Dr Richard Harding, Richard Harding, 2002-01-04 From the author of Amphibious Warfare in the Eighteenth Century and The Evolution of the Sailing Navy 1509 1815 this book serves as a single volume survey of war at sea and the expansion of naval power in the 18th century The book is intended for undergraduate courses on 18th century European history and for amateur and professional military historians and for navy colleges and navy and ex navy professionals Straits Used for International Navigation José A. Yturriaga, 2021-09-27 After an introductory chapter concerning the definition of Straits used for international navigation the author examines in detail the evolution of the question in the years prior to the convening of UNCLOS III during the preparatory works of the Sea Bed Committee and throughout the Conference The second part of the book studies the legal norms set up by the 1982 UN Convention on the Law of the Sea concerning the regime of transit passage for maritime and air navigation applicable in most of the straits used for international navigation and the regime of innocent passage residually applied in the other straits In the final chapter the author makes a critical appraisal of the new regimes of navigation and overflight in straits exposes the implications of such regimes in Spain analyzes the applicability of the Convention's regulations before their coming into force and examines the practice followed in the last few years by the most important States which favoured or opposed the regime of transit passage From his position as Deputy Head of the Spanish Delegation to the Law of the Sea Conference Ambassador de Yturriaga participated from the very beginning in the work of UNCLOS III and was an active protagonist in the debates of the straits question The book offers a first hand testimony of the straits negotiation which will be extremely useful for scholars and students of the Law of the Sea Straits **Used for International Navigation** José Antonio de Yturriaga, 1991 After an introductory chapter concerning the definition of Straits used for international navigation the author examines in detail the evolution of the question in the years prior to the convening of UNCLOS III during the preparatory works of the Sea Bed Committee and throughout the Conference The second part of the book studies the legal norms set up by the 1982 UN Convention on the Law of the Sea concerning the regime of transit passage for maritime and air navigation applicable in most of the straits used for international navigation and the regime of innocent passage residually applied in the other straits In the final chapter the author makes a critical appraisal of the new regimes of navigation and overflight in straits exposes the implications of such regimes in Spain analyzes the applicability of the Convention's regulations before their coming into force and examines the practice followed

in the last few years by the most important States which favoured or opposed the regime of transit passage From his position as Deputy Head of the Spanish Delegation to the Law of the Sea Conference Ambassador de Yturriaga participated from the very beginning in the work of UNCLOS III and was an active protagonist in the debates of the straits guestion The book offers a first hand testimony of the straits negotiation which will be extremely useful for scholars and students of the Law of The Indian Ocean Rim Gwyn Campbell, 2013-11-19 The Indian Ocean Rim Association for Regional Cooperation was formally established in 1997 under the leadership of South Africa India and Australia The demise of Apartheid the fall of the Soviet empire and the rapid advance of globalization altered the geopolitics of the Indian Ocean region in the early 1990s and served as a catalyst in the creation of the IOR This book contextualizes the founding of the IOR by outlining the historical aspects of economic ties across the Indian Ocean and previous attempts to promote regional cooperation The contributors to this volume analyse the post colonial ideological legacy the political and economic constraints caused by Apartheid and communism the end of protectionism and the problem of globalization These major themes in the history of the IOR are applied to what the future holds for Southern Africa within this economic grouping and whether or not regional cooperation will manage to compete with globalization This volume will be of interest to scholars of development studies international relations Third World studies and regional development US Naval Strategy and National Security Sebastian Bruns, 2017-09-22 This book examines US naval strategy and the role of American seapower over three decades from the late 20th century to the early 21st century This study uses the concept of seapower as a framework to explain the military and political application of sea power and naval force for the United States of America It addresses the context in which strategy and in particular US naval strategy and naval power evolves and how US naval strategy was developed and framed in the international and national security contexts It explains what drove and what constrained US naval strategy and examines selected instances where American sea power was directed in support of US defense and security policy ends and whether that could be tied to what a given strategy proposed The work utilizes naval capstone documents in the framework of broader maritime conceptual and geopolitical thinking and discusses whether these documents had lasting influences in the strategic mind set the force structure and other areas of American sea power Overall this work provides a deeper understanding of the crafting of US naval strategy since the final decade of the Cold War its contextual and structural framework setting and its application To that end the work bridges the gap between the thinking of American naval officers and planners on the one hand and academic analyses of Navy strategy on the other hand It also presents the trends in the use of naval force for foreign policy objectives and into strategy making in the American policy context This book will be of much interest to students of naval power maritime strategy US national security and international relations in general The Armed Forces of Pakistan Pervaiz Igbal Cheema, 2002 This book describes the nature of Pakistan's defense capabilities and the forces that shape them in the twenty first century **Geographical Impact on Coastal Defense Navies** Michael S.

Lindberg, 2016-07-27 Coastal defence navies constitute a distinct type of naval force in the world today They possess a unique set of force structure and support infrastructure characteristics. And more than any other type of navy they are directly influenced by the geographical conditions of their operational environments This book examines and classifies both coastal defence navies and their operational environments Special attention is paid to the influence that geography has upon the force structure as well as the strategy and tactics of these navies Modern Naval History Richard Harding, 2015-12-17 Specifically structured around research questions and avenues for further study and providing the historical context to enable this further research Modern Naval History is a key historiographical guide for students wishing to gain a deeper understanding of naval history and its contemporary relevance Navies play an important role in the modern world and the globalisation of economies cultures and societies has placed a premium on maritime communications Modern Naval History demonstrates the importance of naval history today showing its relevance to a number of disciplines and its role in understanding how navies relate to their host societies Richard Harding explains why naval history is still important despite slipping from the attention of policy makers and the public since 1945 and how it can illuminate answers to questions relating to economic diplomatic political social and cultural history. The book explores how naval history has informed these fields and how it can produce a richer and more informed historical understanding of navies and sea power Strategy in Northeast Asia Duk-ki Kim, 2000 Over the past decade Northeast Asia has been dominated by quite significant strategic change which is ongoing and brings with it many uncertainties naval capabilities in Northwest Asia are instrumental in promoting maritime security interests helping to build a stable security environment through active participation in regional naval co operation This landmark book explores the region s maritime peace and stability and examines in depth the strategic military and apolitical issues that underpin any effort to develop maritime co operation

The Media and the Falklands Campaign Valerie Adams,1986-09-08 In the controversy over the reporting of the Falklands conflict criticism focused on the media s use of armchair strategists to interpret and speculate about operations in the South Atlantic Valerie Adams sets that media commentary in an historical perspective and examines its actual content to see whether the criticism was justified and whether the material actually helped to inform the public about the actions undertaken on their behalf The issues raised in wartime by the relationship between the media the government and the public in a democracy are explored the Falklands problems appear insignificant set against potential future difficulties

**Post-war Japan as a Sea Power** Alessio Patalano,2015-04-23 In Post war Japan as a Sea Power Alessio Patalano incorporates new exclusive source material to develop an innovative approach to the study of post war Japan as a military power This archival based history of Asia s most advanced navy the Japanese Maritime Self Defence Force JMSDF looks beyond the traditional perspective of viewing the modern Japanese military in light of the country s alliance with the US The book places the institution in a historical context analysing its imperial legacy and the role of Japan s shattering defeat in

WWII in the post war emergence of Japan as East Asia's sea power **Power and the Maritime Domain Greq** Kennedy, William de Sousa Moreira, 2022-10-28 This book offers a multi disciplinary and multi national approach to defining key elements required to define power within the maritime domain The volume engages with the concept that the maritime domain is a multi dimensional space embracing oceans seas waterways including all elements of maritime power related activities infrastructure resources and assets It illustrates the complexity and interconnectivity of the factors that contribute to the appreciation creation and application of maritime power In practical terms the book highlights that the maritime domain is a continuum that interconnects countries cultures politics economics trade environment knowledge and technological power globally Perhaps most importantly the maritime domain generates power of its own volition as well as acting as a critical enabler for the creation of other types of nations power economic political military technological intelligence and fiscal power in particular The book not only brings those various factors to the reader s attention but in the synthesis also clarifies the connections between the various elements in creating a greater maritime whole This book will be of great interest to students of maritime security strategic studies and International Relations Maritime Power in the Black Sea Deborah Sanders, 2016-05-13 Maritime Power in the Black Sea provides the first comprehensive assessment and evaluation of the comparative maritime power of the six littoral states in the Black Sea Turkey Russia Ukraine Georgia Romania and Bulgaria This book examines the maritime capabilities and assets of each of the six littoral Black Sea states and also considers the implications of the distribution of maritime power on both regional and international security As such it makes an important contribution to the debate about what constitutes maritime power in the twenty first century and provides a thematic comparative study of the ability of each of the littoral states of the Black Sea to project maritime power

The New Age of Naval Power in the Indo-Pacific Catherine L. Grant, Alessio Patalano, James A. Russell, 2023 Competition at sea is back as a central issue of international security Today the US led maritime order and the freedom to use the ocean as a vast maneuver space to access different markets and theaters stands contested Nowhere is the urgency to address state on state competition at sea more strongly felt than in the Indo Pacific region where freedom of navigation stands challenged by regional states continuous investments in naval power and the renewed political will to use it The international groups of distinguished contributors to this volume survey and analyze the implications of the return of naval power as a critical consideration of international relations in the Indo Pacific region Catherine L Grant Alessio Patalano and James A Russell develop an original framework in which five factors of influence help explain how and why naval power matters in this pivotal part of the world for cooperation coercion and competition The chapters also provide historical background outline key issues and conduct a close examination of key subregions This book will be read by both academics and policy makers alike seeking to navigate the complexity of maritime security and regional affairs
