Sea Routes To The Gold Fields:

Sea Routes to the Gold Fields Oscar Lewis, 2012-12-05 Sea Routes to the Gold Fields tells the story of one of the most exciting mass movements in history the migration by sea of the tens of thousands who joined the headlong race to California's newly discovered gold fields This work fills an important gap in the literature of the Gold Rush for while numerous books have been written about those who traveled overland to California this is the first to give a comprehensive picture of the other half of the migration of those Argonauts who made the journey in the slow tiny and incredibly crowded sailing ships and steamers of a century ago It presents a colorful varied and extremely interesting picture of life on the gold ships during the months long voyages of the emigrants accommodations food and recreations of their intermediate stops en route and of what befell those who made the isthmian crossings at Panama or Nicaragua Based mainly on the diaries and letters of pioneers who made the journey between 1849 and 1852 Sea Routes to the Gold Fields is a fascinating record of one of the most dramatic episodes in the nation's history

Sea Routes To The Gold Fields - The Migration By Water To California In 1849-1852 Oscar Lewis, 2013-05-31 This is of more specialized interest than Lewis's other books Silver Kings The Big Four etc This book draws from contemporary material in what was a most articulate migration for a portrayal of life aboard the coast bound steamers of 100 years ago From the exuberant exodus to the voyage of many days the initial seasickness the latter boredom and diversions to combat it the dangers of storm and shipwreck of scurvy cholera and yellow fever which spread more quickly because of crowded conditions of stops ashore and the Panama crossing of women passengers marriage bound of the costs of the trip of the arrival and first impressions

Sea Routes to the Gold Fields Oscar Lewis, 1987-09-01 **Sea Routes to the Gold Fields** Oscar Lewis, 1949 The California Gold Rush and the Coming of the Civil War Leonard L. Richards, 2008-02-12 Award winning historian Leonard L Richards gives us an authoritative and revealing portrait of an overlooked harbinger of the terrible battle that was to come When gold was discovered at Sutter's Mill in 1848 Americans of all stripes saw the potential for both wealth and power Among the more calculating were Southern slave owners By making California a slave state they could increase the value of their slaves by 50 percent at least and maybe much more They could also gain additional influence in Congress and expand Southern economic clout abetted by a new transcontinental railroad that would run through the South Yet despite their machinations California entered the union as a free state Disillusioned Southerners would agitate for even more slave territory leading to the Kansas Nebraska Act and ultimately to the Civil War itself

Writing the Trail Deborah Lawrence, 2009-11 For a long time the American West was mainly identified with white masculinity but as more women s narratives of westward expansion came to light scholars revised purely patriarchal interpretations Writing the Trail continues in this vein by providing a comparative literary analysis of five frontier narratives Susan Magoffin s Down the Santa Fe Trail and into Mexico Sarah Royce s A Frontier Lady Louise Clappe s The Shirley Letters Eliza Farnham s California In doors and Out and Lydia Spencer Lane s I Married a Soldier to explore the ways in which women s responses to the western environment differed from men s Throughout their very different journeys from an eighteen year old bride and self styled wandering princess on the Santa Fe Trail to the mining camps of northern California to garrison life in the Southwest these women moved out of their traditional positions as objects of masculine culture Initially disoriented they soon began the complex process of assimilating to a new environment changing views of power and authority and making homes in wilderness conditions Because critics tend to consider nineteenth century women s writings as confirmations of home and stability they overlook aspects of women s textualizations of themselves that are dynamic and contingent on movement through space As the narratives in Writing the Trail illustrate women s frontier writings depict geographical spiritual and psychological movement By tracing the journeys of Magoffin Royce Clappe Farnham and Lane readers are exposed to the subversive strength of travel writing and come to a new understanding of gender roles on the nineteenth century frontier
