Nora's drawn to the emotional powerful style of worship and knows she's headed for a shunning if she doesn't stop breaking the rules. Will she sacrifice her relationship with Levi and her family for a different kind of faith? Sky Country Christine Kitano, 2017-08-21

Christine Kitano's second poetry collection elicits a sense of hunger, an intense longing for home and an ache for human connection. Channeling both real and imagined immigration experiences of her own family, her grandmothers who fled Korea and Japan and her father, a Japanese American who was incarcerated during WWII, Kitano's ambitious poetry speaks for those who have been historically silenced and displaced. Christine Kitano's first collection of poetry, *Birds of Paradise*, was published by Lynx House Press. She lives in Ithaca, NY, where she is an assistant professor of creative writing, poetry, and Asian American literature at Ithaca College.

Snow Country, 1992-07. In the 87 issues of *Snow Country* published between 1988 and 1999, the reader can find the defining coverage of mountain resorts, ski technique and equipment, racing, cross-country touring, and the growing sport of snowboarding during a period of radical change. The award-winning magazine of mountain sports and living tracks the environmental impact of ski area development and people moving to the mountains to work and live. **The Routledge Handbook of Social Studies of Outer Space** Juan Francisco Salazar, Alice Gorman, 2023-07-10. The Routledge Handbook of Social Studies of Outer Space offers a state-of-the-art overview of contemporary social and cultural research on outer space. International in scope, the thirty-eight contributions by over fifty leading researchers and artists across a variety of disciplines and fields of knowledge present a range of debates and pose key questions about the crafting of futures in relation to outer space. The Handbook is a call to attend more carefully to engagements with outer space empirically, affectively, and theoretically, while characterizing current research practices and outlining future research agendas. This recalibration opens profound questions of intersectional politics, race, equity, and environmental justice around the contested topics of space exploration and life off Earth. Among the many themes included in the volume are the various infrastructures, networks, and systems that enable and sustain space exploration; space heritage; the ethics of outer space; social and environmental justice; fundamental debates about life in outer space as it pertains to both astrobiology and SETI; the study of scientific communities; the human body and consciousness; Indigenous astronomical systems of knowledge; contemporary space art; and ongoing critical interventions to overcome the legacies of colonialism and dismantle hegemonic narratives of outer space.
