*How We Got to Coney Island* Brian J. Cudahy, 2009-08-25 A 150 year history of the planning construction and development of all forms of mass transportation in Brooklyn New York *How We Got to Coney Island* is the definitive history of mass transportation in Brooklyn Covering 150 years of extraordinary growth Cudahy tells the complete story of the trolleys street cars steamboats and railways that helped create New York's largest borough and the remarkable system that grew to connect the world's most famous seaside resort with Brooklyn New York City across the river and ultimately the rest of the world Includes tables charts photographs and maps Praise for *How We Got to Coney Island* This is an example of a familiar and decidedly old fashioned genre of transport history It is primarily an examination of the business politics of railway development and amalgamation in Brooklyn and adjoining districts since the mid nineteenth century *The Journal of Transport History* **Annual Report ...** New York (State). Board of Railroad Commissioners, 1904 *Supreme Court*, *The Last Express* Baynard Kendrick, 2021-03-09 A puzzling murder has a blind detective investigating the New York City subway in this Golden Age mystery series opener Following the loss of his sight in World War I ex intelligence officer Capt Duncan Maclain honed his other senses and became one of the most successful and well known private investigators in the Big Apple Kind and sympathetic he's eager to help anyone who visits his office Evelyn Zarinka's at the end of her rope and at her fiancé's suggestion she goes to see his friend Maclain for help For the past three months Evelyn has noticed a startling change in her brother Paul assistant district attorney for New York City's Homicide Division First it was the strange phone calls then he bought a gun and started drinking heavily And it's only gotten worse After speaking with Evelyn Maclain is certain Paul's in trouble But the detective is too late to help him Paul's car explodes killing the assistant DA The only clues are two caged white mice left in the back of the car and Paul's dying words Sea Beach Subway the last express Now with his seeing eye dog Maclain finds himself in Manhattan's seedy underbelly and its literal underground on the hunt for a killer willing to do anything to throw the investigation off the rails Baynard Kendrick was the first American to enlist in the Canadian Army during World War I While in London he met a blind English soldier whose observational skills inspired the character of Capt Duncan Maclain Kendrick was also a founding member of the Mystery Writers of America and winner of the organization's Grand Master Award **The Routes Not Taken** Joseph B. Raskin, 2013-12-01 Robert A Van Wyck mayor of the greater city of New York broke ground for the first subway line by City Hall on March 24 1900 It took four years six months and twenty three days to build the line from City Hall to West 145th Street in Harlem Things rarely went that quickly ever again *The Routes Not Taken* explores the often dramatic stories behind the unbuilt or unfinished subway lines shedding light on a significant part of New York City's history that has been almost completely ignored until now Home to one of the world's

largest subway systems New York City made constant efforts to expand its underground labyrinth efforts that were often met with unexpected obstacles financial shortfalls clashing agendas of mayors and borough presidents battles with local community groups and much more After discovering a copy of the 1929 subway expansion map author Joseph Raskin began his own investigation into the city's underbelly Using research from libraries historical societies and transit agencies throughout the New York metropolitan area Raskin provides a fascinating history of the Big Apple's unfinished business that until now has been only tantalizing stories retold by public transit experts The Routes Not Taken sheds light on the tunnels and stations that were completed for lines that were never fulfilled the efforts to expand the Hudson tubes into a fullfledged subway the Flushing line and why it never made it past Flushing a platform underneath Brooklyn's Nevins Street station that has remained unused for more than a century and the 2nd Avenue line long the symbol of dashed dreams deferred countless times since the original plans were presented in 1929 Raskin also reveals the figures and personalities involved including why Fiorello LaGuardia could not grasp the importance of subway lines and why Robert Moses found them to be old and boring By focusing on the unbuilt lines Raskin illustrates how the existing subway system is actually a Herculean feat of countless political compromises Filled with illustrations of the extravagant expansion plans The Routes Not Taken provides an enduring contribution to the transportation history of New York City
