Search For Community:

In Search For Community: Encounter Groups And Social Change Kurt W. Back, 2019-03-08 This book consists of papers presented at two symposia at AAAS Annual meetings It enables us to evaluate the new groups and techniques in comparison with other phenomena in the society and with rituals in other societies and times clearly placing them in the history of ideas

Community Search over Big Graphs Xin Huang, Laks V.S. Lakshmanan, Jianliang Xu, 2022-05-31 Communities serve as basic structural building blocks for understanding the organization of many real world networks including social biological collaboration and communication networks Recently community search over graphs has attracted significantly increasing attention from small simple and static graphs to big evolving attributed and location based graphs In this book we first review the basic concepts of networks communities and various kinds of dense subgraph models We then survey the state of the art in community search techniques on various kinds of networks across different application areas Specifically we discuss cohesive community search attributed community search social circle discovery and geo social group search We highlight the challenges posed by different community search problems We present their motivations principles methodologies algorithms and applications and provide a comprehensive comparison of the existing techniques This book finally concludes by listing publicly available real world datasets and useful tools for facilitating further research and by offering further readings and future directions of research in this important and growing area

Urban Recycling and the Search for Sustainable Community Development Adam S. Weinberg, David N. Pellow, Allan Schnaiberg, 2000-07-24 More Americans recycle than vote And most do so to improve their communities and the environment But do recycling programs advance social economic and environmental goals To answer this three sociologists with expertise in urban and environmental planning have conducted the first major study of urban recycling They compare four types of programs in the Chicago metropolitan area a community based drop off center a municipal curbside program a recycling industrial park and a linkage program Their conclusion admirably elaborated is that recycling can realize sustainable community development but that current programs achieve few benefits for the communities in which they are located The authors discover that the history of recycling mirrors many other urban reforms What began in the 1960s as a sustainable community enterprise has become a commodity based profit driven industry Large private firms using public dollars have chased out smaller nonprofit and family owned efforts Perhaps most troubling is that this process was not born of economic necessity Rather as the authors show socially oriented programs are actually more viable than profit focused systems This finding raises unsettling questions about the prospects for any sort of sustainable local development in the globalizing economy Based on a decade of research this is the first book to fully explore the range of impacts that recycling generates in our communities It presents recycling as a tantalizing case study of the promises and pitfalls of community development It also serves as a rich account of how the state and private interests linked to the global economy alter the terrain of local neighborhoods

Community Development and Public Administration Theory

Ashley E. Nickels,Jason D. Rivera,2018-04-17 The concept of community development is often misunderstood holding different meanings across different academic disciplines Moreover the concept of community development has been historically abstracted not only in the way the concept has been conceptualized in academic studies but also by the way in which practitioners use the term in the vernacular Departing from traditional definitions of community development this volume applies the New Public Service NPS perspective of Public Administration to community development to illustrate how public administrators and public managers can engage in community development planning and implementation that results in more equitable and sustainable long term outcomes This book will be of interest to practitioners and researchers in public administration management public administration theory community development economic development urban sociology urban politics and urban planning

The Dance with Community Robert Booth Fowler, 1991-07-25

Contemporary intellectuals have rushed to embrace the concept of community What does this tell us about American political thought Why are intellectuals uneasy with modern liberal individualism and its institutional policy results Why is political intellectual discourse dominated today by complaint In *The Dance with Community* Robert Booth Fowler reflects upon these and related questions My goal he writes is to present contemporary political thought about community for what it is a conversation interactive spirited and sometimes tough There have been many interpretations of the much discussed decline in community spirit Rather than offer another Fowler steps back to look at the debate itself He examines from the perspective of an intellectual historian the attention to community in current American political thought and explores the setting of that attention He also identifies five alternative models of community integral to the current debates and sketches a clear image of each its relationship to others the logic of its appeal and its emphases and problems In each instance he places the model into the larger conversation over alternative communities and the value of community itself
