ancient civilizations such as the Maya and the Olmec as well as modern day microcosms of alternative living like circus societies Quinn guides us on a quest for a new model for society one that is forward thinking and encourages diversity instead of suppressing it Beyond Civilization is not about a New World Order but a New Personal World Order that would allow people to assert control over their own destiny and grant them the freedom to create their own way of life right now not in some distant utopian future      God and Globalization: Volume 1 Max L. Stackhouse, Peter J. Paris, 2009-03-15 The promise and the threat of globalization are examined using the tools of theological ethics to understand and evaluate the social contexts of life at the deepest moral and spiritual levels      Esalen Jeffrey J. Kripal, 2008-11 Esalen has always been on the edge Famous for its natural hot springs and stunning locale on the face of the Pacific coastline the institute has long been a world leader in alternative and experiential education Such luminaries as Henry Miller Joseph Campbell Aldous Huxley Jack Kerouac Allen Ginsberg Hunter S Thompson and others have gathered there to develop their revolutionary ideas transformative spiritual practices and innovative art forms      **Last Days Handbook** Robert P. Kirk Boyd, 2010-04-12 Creating an enforceable international guarantee of basic human rights Outlines the basics of a universally acceptable agreement Shows what everyone can do to make this agreement a reality In 1948 the United Nations General Assembly adopted the Universal Declaration of Human Rights a deeply inspiring document that has been translated into over 300 languages and dialects But because its provisions are not enforceable its promise has not been fulfilled Human rights violations continue in every corner of the globe the cause of countless individual tragedies as well as large scale disasters like war poverty and environmental ruin It s time to take the next step 2048 sets out a visionary audacious but Kirk Boyd insists achievable goal drafting an enforceable international agreement that will allow the people of the world to create a social order based upon human rights and the rule of law Boyd and the 2048 Project aim to have this agreement the International Convention on Human Rights in place by the 100th anniversary of the Universal Declaration Written documents have always played a key role in advancing human rights the

Code of Hammurabi the Magna Carta the Declaration of Independence The express purpose of the International Convention is to safeguard what Boyd calls the Five Freedoms adding freedom for the environment to Franklin Roosevelt's famous Four Freedoms freedom of speech freedom of religion freedom from want and freedom from fear Boyd skillfully anticipates objections to the notion of a universal and enforceable written agreement that it would be culturally insensitive too expensive unacceptably limit national sovereignty and convincingly answers them In fact some promising first steps have already been taken He describes existing transnational agreements with effective compliance mechanisms that can serve as models But Boyd wants to inspire more than argue In 2048 he urges everyone to participate in the drafting of the agreement via the 2048 website and describes specific actions people can take to help make it a reality What you do with what you read Boyd writes is as important as what this book says Little by little working together creatively with the tools now available we can take the next step forward in the evolution of human rights

**God and Globalization** Max L. Stackhouse, Peter J. Paris, 2000-06-01 In the late 20th century the world has grown increasingly smaller because of advances in technology and the erosion of the nation state as a political paradigm The process of globalization with its promises of a common culture a common currency and a common government offers a new political model for the world that fosters unity and community At the same time however this process threatens to destroy the values norms and ideals that particular cultures have wrought and established and to thereby diminish the power of each culture's unique identity As globalization occurs society must decide which values will be normative and what roles that social institutions like religion and education will play in selecting and fostering these values The contributors to this volume examine both the promise and the threat of globalization using the tools of theological ethics to understand and evaluate the social contexts of life at the deepest moral and spiritual levels This inaugural volume of a projected four volume series Theology for the 21st Century God and Globalization examines five spheres of life economics Mammon political science Mars psychology and sexuality Eros the mass media and the arts Muses and religion that foster normative values for society As the writers argue their efforts attempt to determine whether God is behind globalization in any substantive way Contributors to the volume include Roland Robertson University of Pittsburgh Yersu Kim UNESCO Donald W Shriver Jr New York William Schweiker University of Chicago Mary Stewart Van Leeuwen Eastern College David Tracy University of Chicago Max L Stackhouse teaches at Princeton Theological Seminary and is the author of *Covenant and Commitments Faith Family and Economic* Peter Paris teaches at Princeton Theological Seminary

*While the U.S. Sleeps* Winston Langley, 2021-01-29 The United States because of the values which accompanied its birth and those it has espoused coupled with the evolving socio economic and political standing of its place in the world since World War I has achieved much at home and abroad It has also been faced with inadequately addressed problems problems that have progressively festered and have now become threats to the very life of societies national and global Efforts to deal with some of them have erringly focused on personalities specific presidents Trump for example particular political parties or

identified events or movements 1960s radicals or far Right extremists rather than on rooted patterns that have shaped and reinforced institutions The book looks at some of those patterns in the areas of disarmament economic development race and class formations popular culture the environment and the will to power It then proposes some steps toward a possible course correction

False Dawn Lee Penn, 2004 The interfaith movement which began with the 1893 World's Parliament of Religions in Chicago has grown worldwide Although this movement has been largely unknown to the public it now provides a spiritual face for globalization the economic and political forces leading us all from nationalism to One World The most ambitious organization in today's interfaith movement is the United Religions Initiative URI founded by William Swing the Episcopal Bishop of California Investigative reporter Lee Penn a Catholic ex Marxist exhaustively documents the history and beliefs of the URI and its New Age and globalist allies the vested interests that support these movements and the direction they appear to be taking The interfaith movement is no longer merely the province of a coterie of little heeded religious idealists with grandiose visions The URI's proponents have ranged from billionaire George Soros to President George W Bush from the far right Rev Sun Myung Moon to the liberal Catholic theologian Hans K ng and from the Dalai Lama to the leaders of government approved Protestant churches in the People's Republic of China The interfaith movement including the URI is being promoted by globalist and New Age reformers who favor erosion of national sovereignty marginalization of traditional religions establishment of global governance and creation of a new Earth based global spirituality in effect a one world religion Therefore the URI and the interfaith movement are poised to become the spiritual foundation of the New World Order the new civilization now proposed by Mikhail Gorbachev the last leader of the Soviet Union

In *The Reign of Quantity and the Signs of the Times* French metaphysician Ren Gu non spoke of the anti tradition the forces of materialism and secular humanism finally giving way to the counter tradition the satanic inversion of true spirituality leading to the regime of Antichrist The anti tradition weakens and dissolves traditional spiritualities after which the counter tradition sets up a counterfeit in their place Since Gu non's time as is well known anti traditional forces have greatly advanced worldwide It is less well known that counter traditional movements have also made great strides and now stand closer to the centers of global political and religious power than ever before The counter tradition is making inroads on the political and cultural Right as much as it is doing on the Left *False Dawn* painstakingly documents these trends and speculates on their future development In so doing the author takes investigative reporting to the threshold of prophecy and gives us a stunningly plausible picture of the global religious landscape of the 21st century This extraordinary project is the literary equivalent of turning over a flat rock There is much to be seen and learned here all of it unsettling disquieting occasionally downright scary William Murchison Radford Distinguished Professor Baylor University When a bishop of a Christian church happily worships alongside a Wiccan invoking other gods something has gone horribly wrong In *False Dawn* Lee Penn has produced a comprehensive and critical history of the United Religions Initiative This book sounds a clear warning Anyone who makes

theological truth subservient to utopianism denigrates all religions Douglas LeBlanc Editor GetReligion.org     Gorbachev  
Mikhail Sergeevich Gorbachev, 2000 Drawing on his own experience rich archival material and a keen sense of history and politics Mikhail Gorbachev offers his rare perspective on a range of subjects concerning Russia's past present and future place in the world including the October Revolution the Cold War and key figures such as Lenin Stalin and Yeltsin

*Working Together* Mikhail Sergeevich Gorbachev, 2001-04-16 Gathering some of the best writing on working with diversity this anthology honors a multiplicity of viewpoints as part of a larger evolutionary shift in expanding the planet's consciousness Mikhail Gorbachev describes diversity as a key factor in creating a new civilization anthropologist Riane Eisler proposes a partnership approach between men and women and Suzie Williams offers diversity based recipes for synergy

*The God of Sex* Peter Jones, 2006 A placard carried in the San Diego Gay Parade said it all He's your God They're your rules You go to Hell Clearly there is no longer any commonly held ultimate authority So merely quoting Bible verses at gays and other sexual sinners to prove they are immoral is equally unsuccessful if not destructive For the sake of our young people for the sake of our churches for the sake of society and our world Christians must understand the connection of spirituality and sexuality if we are to communicate relevantly to our postmodern culture Jones gives an objective honest appraisal of contemporary sexual trends and puts them up against God's clear and beautiful design for sex as a spiritual expression Features and Benefits Helps Christians break out of typical parameters to help them understand and relevantly engage the culture Nonbelievers will find this book objective and non-offensive fairly representing postmodern worldviews Thorough index and bibliography makes this book a powerful resource tool     **Russian Government and Politics** Eric

Gorbacov, 1995 Thirty years ago who would have envisioned a former president of the Soviet Union eloquently invoking the speeches of JFK and William

Faulkner's prose as well as Native American words of wisdom. Moreover, who could have imagined that this same statesman would advocate a new global civilization built on diversity, democracy, environmental awareness, mutual responsibility, peace, and trust. In *The Search for a New Beginning*, Mikhail Gorbachev, the man instrumental in the end of the Cold War, turns his gaze to the future of politics, nations, and individuals. **The Search for a New Beginning** Mikhail S.
