## **Searching For Normalcy Paperback By Steven Chance:**

**Searching for Normalcy** Steven G. Chance, 1996    **Left to Chance** Steve Kroll-Smith, Vern Baxter, 2015-09-01 This in depth study of two black neighborhoods in the wake of Hurricane Katrina vividly captures the struggle and uncertainty in the process of rebuilding Hurricane Katrina was the worst urban flood in American history a disaster that destroyed nearly the entire physical landscape of a city as well as the mental and emotional maps that people use to navigate their everyday lives Left to Chance takes us into two African American neighborhoods working class Hollygrove and middle class Pontchartrain Park to learn how their residents have experienced Miss Katrina and the long road back to normal life The authors spent several years gathering firsthand accounts of the flooding the rushed evacuations that turned into weeks and months long exile and the often confusing and exhausting process of rebuilding damaged homes in a city whose local government had all but failed As the residents stories make vividly clear government and social science concepts such as disaster management restoring normality and recovery have little meaning for people whose worlds were washed away in the flood For the neighbors in Hollygrove and Pontchartrain Park life in the aftermath of Katrina has been a passage from all that was familiar and routine to an ominous world filled with existential uncertainty Recovery and rebuilding become processes imbued with mysteries accidental encounters and hasty adaptations while victories and defeats are left to chance
