Black Firefighters and the FDNY David Goldberg,2017-10-23 For many African Americans getting a public sector job has historically been one of the few paths to the financial stability of the middle class and in New York City few such jobs were as sought after as positions in the fire department FDNY For over a

century generations of Black New Yorkers have fought to gain access to and equal opportunity within the FDNY Tracing this struggle for jobs and justice from 1898 to the present David Goldberg details the ways each generation of firefighters confronted overt and institutionalized racism An important chapter in the histories of both Black social movements and independent workplace organizing this book demonstrates how Black firefighters in New York helped to create affirmative action from the bottom up while simultaneously revealing how white resistance to these efforts shaped white working class conservatism and myths of American meritocracy Full of colorful characters and rousing stories drawn from oral histories discrimination suits and the archives of the Vulcan Society the fraternal society of Black firefighters in New York this book sheds new light on the impact of Black firefighters in the fight for civil rights

Adventures of a Postmodern Historian Robert A. Rosenstone, 2016-09-22 Robert

Rosenstone was among the first postmodern historians and remains one of the most renowned In this honest revealing and often funny memoir he shows us how he got there and why *Adventures of a Postmodern Historian* chronicles Rosenstone s research journeys over half a century Beginning in the 1960s his offbeat trajectory took him on adventures through the police states of Franco Spain and the Soviet Union to the Shinto shrines and Zen temples of Japan and ultimately to Hollywood Alongside his own memoirs Rosenstone reflects upon developments and changes within the realm of professional history which in turn reflect the social cultural and intellectual shifts of the late 20th century A pioneer of experimental and creative history he suggests how the experience of the historian can inflect the written history and provides a defence of innovation in historical writing that is both intellectually rigorous and entertaining In doing so he offers a window into the state of history today and points to exciting new ways of writing the past This is a book about the craft of history about both doing research and writing it It should be required reading for all historians
