**Seattle, Past to Present** Roger Sale, 2019-10-31 Roger Sale's *Seattle Past to Present* has become a beloved reflection of Seattle's history and its possible futures as imagined in 1976 when the book was first published Drawing on demographic analysis residential surveys portraiture and personal observation and reflection Sale provides his take on what was most important in each of Seattle's main periods from the city's founding when settlers built a city great enough that the railroads eventually had to come down to the post Boeing Seattle of the 1970s when the city was coming to terms with itself based on lessons from its past Along the way Sale touches on the economic diversity of late nineteenth century Seattle that allowed it to grow describes the major achievements of the first boom years in parks boulevards and neighborhoods of quiet elegance and draws portraits of people like Vernon Parrington Nellie Cornish and Mark Tobey who came to Seattle and flourished The result is a powerful assessment of Seattle's vitality the result of old timers and newcomers mixing both in harmony and in antagonism With a new introduction by Seattle journalist Knute Berger this edition invites today's readers to revisit Sale's time capsule of Seattle and perhaps learn something unexpected about this ever changing city

**Stirring Up Seattle** R. M. Campbell, 2014-11-01. In the 1950s, the city of Seattle began a transformation from an insular provincial outpost to a vibrant and cosmopolitan cultural center. As veteran Seattle journalist R. M. Campbell illustrates in *Stirring Up Seattle*, Allied Arts in the Civic Landscape, this transformation was catalyzed in part by the efforts of a group of civic arts boosters originally known as The Beer and Culture Society. This merry band of lawyers, architects, writers, designers, and university professors eventually known as Allied Arts of Seattle lobbied for public funding for the arts, helped avert the demolition of Pike Place Market, and were involved in a wide range of crusades and campaigns in support of historic preservation, cultural institutions, and urban livability.

**Magic Lands** John M. Findlay, 1993-09-22. The American West conjures up images of pastoral tranquility and wide open spaces, but by 1970, the Far West was the most urbanized section of the country. Exploring four intriguing cityscapes: Disneyland, Stanford Industrial Park, Sun City, and the 1962 Seattle World's Fair, John Findlay shows how each created a sense of cohesion and sustained people's belief in their superior urban environment. This first book-length study of the urban West after 1940 argues that Westerners deliberately tried to build cities that differed radically from their eastern counterparts. In 1954, Walt Disney began building the world's first theme park using Hollywood's movie-making techniques. The creators of Stanford Industrial Park were more hesitant in their approach to a conceptually organized environment, but by the mid-1960s, the Park was the nation's prototypical research park and the intellectual downtown for the high technology region that became Silicon Valley. In 1960, on the outskirts of Phoenix, Del E. Webb built Sun City, the largest, most influential retirement community in the United States. Another innovative cityscape arose from the 1962 Seattle World's Fair and provided a futuristic, somewhat fanciful vision of modern life. These four became magic lands that provided an antidote to the apparent chaos of their respective urban milieus. Exemplars of a new lifestyle, they are landmarks on the changing cultural landscape of postwar America.

*Seeing Seattle* Roger Sale, 1994. From the time that Roger Sale's interpretive history *Seattle: Past to Present* was published in 1976, he has often served as an unofficial

guide for friends and visitors to Seattle and has also been asked by those who run professional tours for advice on how to view Seattle with fresh eyes In Seeking Seattle he invites the reader to join him in walking tours of the city in a collaborative process of looking asking and forming opinions and judgments The book starts near where Seattle itself started and works out to the city limits in layers In the first walk the Pioneer Square area reveals through its buildings many of them handsomely rehabilitated how the city reestablished itself after the great fire of 1889 we are asked to observe and evaluate how new buildings and new uses have been combined with old ones and how architects builders and planners have served this historical area The same points are considered for the downtown business district Pike Place Market and other areas near the historic core of the city We face the breathtaking downtown skyline from view points on Seattle's many hills from points across the bay at Duwamish Head and from Seward Park which is Seattle's largest stand of old growth forest What makes Seattle distinctively Seattle Sale muses over this question as he walks through the older residential sections of Queen Anne Hill and Capitol Hill with their mansions and near mansions he traces the routes along Lake Washington Boulevard and the influence of the Olmsted brothers in shaping the social as well as the visual landscape of the city He tours upscale neighborhoods with lake and sound views as well as working class neighborhoods that owe their history and early growth to nearby mills and streetcar transportation He visits the Chinatown International District and the University of Washington and learns to identify trees in Washington Park Arboretum and to recognize those trees elsewhere He finds the enchanted house where Mary McCarthy lived as a girl and the garden in which Theodore Roethke sought solitude among trees that came closer with a denser shade Sale and photographer Mary Randlett have worked together to integrate photographs closely with text and promote a view of Seattle in a context of new and old landscapes and skyscrapers neighborhood streets and remarkable vistas Estimated times for each walk or drive in outlying areas and bus route information are provided
