**David Stove**

## **Secession The Morality Of Political Divorce From Fort Sumter To Lithuania And Quebec:**

**Secession** Allen Buchanan, 1991-09-25 This is the first book length treatment of an increasingly crucial topic Professor Buchanan develops a coherent theory of the conditions under which secession is morally justifiable and applies it to historical and contemporary examples Buchanan locates his account of the right to secede in the broader context of contemporary political thought introducing readers to influential accounts of political society such as contractarianism and communitarianism and showing how the possibility of secession fits into a more complete account of political community and political obligation This is an important book not just for political and social theorists but for any reader concerned with the future of troubled political federations and other states under conditions of ethnic and cultural pluralism

**Secession, State, and Liberty** David Stove, 2017-09-29 The political impulse to secede to attempt to separate from central government control is a conspicuous feature of the post cold war world It is alive and growing in Canada Russia China Italy Belgium Britain and even the United States Yet secession remains one of the least studied and least understood of all historical and political phenomena The contributors to this volume have filled this gap with wide ranging investigations rooted in history political philosophy ethics and economic theory of secessionist movements in the United States Canada and Europe

*States, Nations and Borders* Allen Buchanan, Margaret Moore, 2003-03-31 This volume examines comparatively the views and principles of seven prominent ethical traditions on one of the most pressing issues of modern politics the making and unmaking of state and national boundaries The traditions represented are Judaism Christianity Islam natural law Confucianism liberalism and international law Each contributor an expert within one of these traditions shows how that tradition can handle the five dominant methods of altering state and national boundaries conquest settlement purchase inheritance and secession Written by a distinguished group of international specialists this volume is unique in providing both in depth normative and comparative perspectives on a troubling question that will offer readers real insight into inter tradition conflict Those readers will range from upper level undergraduates to scholars in such fields as philosophy political science international relations and comparative religion

*Secession as an International Phenomenon* Don Harrison Doyle, 2010 About half of today's nation states originated as some kind of breakaway state The end of the Cold War witnessed a resurgence of separatist activity affecting nearly every part of the globe and stimulated a new generation of scholars to consider separatism and secession With the approach of the 150th anniversary of the American Civil War this collection of essays allows us to view one of the bloodiest conflicts over secession in modern history within a broader international context The contributors to this volume consider a wide range of topics related to secession separatism and the nationalist passions that inflame such conflicts The first section of the book examines ethical and moral dimensions of secession while subsequent sections look at the American Civil War conflicts in the Gulf of Mexico European separatism and conflicts in the Middle East Asia and Africa The contributors to this book have no common position advocating or opposing secession in principle or in

any particular case All understand it however as a common feature of the modern world and as a historic phenomenon of international scope Some contributors propose that political divorce as secession has come to be called ought to be subject to rational arbitration and ethical norms instead of being decided by force Along with these hopes for the future Secession as an International Phenomenon offers a somber reminder of the cost the United States paid when reason failed and war was left to resolve the issue

*Theories of Secession* Percy B. Lehning, 2005-06-23 *Theories of Secession* presents a systematic analysis of the rise of secessionist movements in global politics Bringing together a collection of experts in the field it provides a timely forum for debate in this contentious area of study

**The Ashgate Research Companion to Secession**

Peter Radan, 2016-03-23 Secession is a detachment of a territory from an existing state with the aim of creating a new state on the detached territory Secession is usually an outcome of the political mobilization of a population on the territory to be detached and as a political phenomenon is a subject of study in the social sciences Its impact on inter state relations is a subject of study in international relations But secession is also subject to regulation both in the constitutional law of sovereign states and in international law Following a spate of secessions in the early 1990s legal scholars have proposed a variety of ways to regulate the international responses to attempts at secessions Moreover since the 1980s normative justification of secession has been subject to an intense debate among political theorists and moral philosophers This research companion has the following three complementary aims First to offer an overview of the current theoretical approaches to secession in the social sciences international relations legal theory political theory and applied ethics Second to outline the current practice of international recognition of secession and current domestic and international laws which regulate secession Third to offer an account of major secessionist movements past and present from a comparative perspective In their accounts of past secessions and current secessionist movements the contributors to this volume focus on the following four components the nature and source of secessionist grievances the ideologies and techniques of secessionist mobilization the responses of the host state or majority parties in the host state and the international response to attempts at secession This provides a basis for identification of at least some common patterns in the otherwise highly varied processes of secession

Deliberative Peace Referendums Ron Levy, Ian O'Flynn, Hoi L. Kong, 2021 Referendums are now increasingly common in what can be called conflict societies as a way of using the sovereign authority of the people to bring about new constitutional settlements Cyprus the Democratic Republic of the Congo Eritrea Guatemala Iraq Kenya Kosovo Montenegro New Caledonia Northern Ireland Papua New Guinea Somalia South Sudan Tanzania and Timor Leste are just some examples of countries where referendums have or will soon be held on these points This book investigates the practice of referendums as a method of peacebuilding in conflict societies their rationales their successes and their failures ultimately arguing that the referendum's utility for conflict management in large part depends on its design including how such design incorporates cautionary lessons from past trials

**Equal Recognition, Minority Rights and Liberal Democracy** Sergi

Morales-Gálvez, Nenad Stojanović, 2019-10-23 Multiculturalism is not la mode nowadays It is attacked by both right wing populists and mainstream politicians and leaders of liberal democracies Indeed conflicts surrounding cultural diversity and recognition are among the most salient issues in contemporary societies Should liberal democracies recognise specific cultural rights of minorities If so should they grant rights only to indigenous national minorities or also to immigrants Is such a recognition compatible with the basic liberal principle of state neutrality Practical questions of this kind are in quest of sound theoretical foundations Alan Patten s approach to multiculturalism developed in *Equal Recognition* 2014 is the most recent and prominent example of such an effort Considered the most important contribution to the philosophy of cultural diversity since Will Kymlicka s *Multicultural Citizenship* Patten s work elaborates new and original conceptions of culture and liberal neutrality It reasserts the case in favour of liberal multiculturalism and applies its theoretical framework to concrete contemporary issues such as language rights federalism secession and immigrant integration This collection presents a critical review of Patten s approach to cultural plurality The critics question the overall normative strategy of *Equal Recognition* its account of neutrality especially with regards to language rights its assumptions about democracy and finally its relevance to public policy debates It will be of interest to political scientists philosophers and legal theorists and will inspire students and politicians alike This book was originally published as a special issue of the *Critical Review of International Social and Political Philosophy*

**The Ethics of Nationalism** Margaret Moore, 2001-06-14 *The Ethics of Nationalism* blends a philosophical discussion of the ethical merits and limits of nationalism with a detailed understanding of nationalist aspirations and a variety of national conflict zones The author discusses the controversial and contemporary issues of rights of secession the policies of the state in privileging a particular national group the kinds of accommodations of minority national and multi cultural identity groups that are justifiable and appropriate These insights are then applied to two central nationalist aspirations nation building and national self determination projects The discussion of nation building projects involves a theory of the appropriate policies and principles that the state should follow in giving preferences to a particular national group The discussion of national self determination projects analyses the kind of prodedual right to secession that should be institutionalized in domestic constitutions or international law and the possibilities for accommodation rival claims to national recognition in the changing international order

**Justice, Legitimacy, and Self-Determination** Allen Buchanan, 2003-08-21 This book articulates a systematic vision of an international legal system grounded in the commitment to justice for all persons It provides a probing exploration of the moral issues involved in disputes about secession ethno national conflict the right of self determination of peoples human rights and the legitimacy of the international legal system itself Buchanan advances vigorous criticisms of the central dogmas of international relations and international law arguing that the international legal system should make justice not simply peace among states a primary goal and rejecting the view that it is permissible for a state to conduct its foreign policies exclusively according to what is in

the the national interest He also shows that the only alternatives are not rigid adherence to existing international law or lawless chaos in which the world s one superpower pursues its own interests without constraints This book not only criticizes the existing international legal order but also offers morally defensible and practicable principles for reforming it Justice Legitimacy and Self Determination will find a broad readership in political science international law and political philosophy Oxford Political Theory presents the best new work in political theory It is intended to be broad in scope including original contributions to political philosophy and also work in applied political theory The series contains works of outstanding quality with no restrictions as to approach or subject matter Series Editors Will Kymlicka David Miller and Alan Ryan

**Diversity and Community** Philip Alperson, 2008-04-15 Diversity and Community An Interdisciplinary Reader is a collection of essays exploring the notion of community in its many theoretical practical and cultural manifestations A collection of specially commissioned essays exploring the notion of community in its many theoretical practical and cultural manifestations Discusses the idea of community in its full cultural context Deals with issues confronting many diverse groups including African American Franco Canadian computer mediated and gay and lesbian communities Includes contributions by both eminent scholars and new voices among them Martha Nussbaum Jean Bethke Elstain D A Masolo Mary Hawkesworth Lewis Gordon Maria Lugones Crispin Sartwell Duane Champagne and Frank Cunningham

**Constitutional Law and Politics of Secession** Antoni Abat i Ninet, 2023-07-31 This collection presents an analysis of the concept of secession and its constitutional accommodation alongside an assessment of the effects of secession in constitutional and international law The work proposes a new approach and insights into the existing literature that fill a gap from multidisciplinary and transdisciplinary perspectives The book approaches the topics of secession constitutionalism and their relationship from both theoretical and empirical perspectives including the analysis of particular secessionist examples such as Catalonia the Basque Country Tigray the Palestinian minority in Israel Bosnia and Herzegovina and the Mapuche Nation from a comparative constitutional perspective Elucidating these issues from different methodological and conceptual perspectives produces novelties in the scientific and constitutional debate The interplay between constitutions constitutional law and secession is indeed explored from philosophical socio legal but also from strict constitutional law outlooks Written by constitutional and public international law experts the book will be of interest to students academics and researchers working in the areas of constitutional law legal theory theory of the state philosophy of law and political science

**National Self-determination and Secession** Margaret Moore (Ph. D.), 1998 In recent years numerous multi national states have disintegrated along national lines and today many more in both the first and the third worlds continue to witness bitter secessionist struggles The proliferation of national conflicts and secessionist movements has given rise to many important questions which urgently need to be addressed When is secession justified What is a people and what gives them a right to secede Is national determination consistent with liberal and democratic principles Or is it a dangerous doctrine In

the years following 1991 when Allen Buchanan published *Secession* a number of competing theories of the ethics of secession have been put forward This pathbreaking study by a host of leading figures in the field brings together for the first time a series of original essays on these theories Offering fresh insight into debates about contested territory the problem of minorities and the place of secession in resolving national conflicts this volume provides a much needed philosophical discussion of the normative implications of nationalism

**The Ashgate Research Companion to Ethics and International Relations** Patrick Hayden, 2016-04-01 While skepticism about the role of moral considerations in international politics has been influential within the discipline of international relations IR those writing on topics such as war peace rights and trade up until the twentieth century took seriously the importance of ethical values and moral debates The 1990s and 2000s have seen a substantial growth of attention to the ways in which IR conceives and analyzes themes of an ethical nature and how issues problems and policies involving ethics are addressed by a variety of actors within the international system This indispensable research companion widens the perspective from ethics and international relations to ethics in international relations redressing the mis perception that ethical concepts principles norms and rules are not in part constitutive of the international system and the agents acting within that system Necessarily cross disciplinary expertise is drawn from IR and also philosophy political theory religious studies history and law making this an ideal volume for any library reference collection

Contextualizing Secession Bruno Coppieters, Richard Sakwa, 2003-07-17 In a world where the traditional territorial organisation of the state is coming under increasing challenge from pressures from above globalisation and from below struggles for federalisation and secession the theoretical and practical questions concerning secessionist struggles become ever more acute It is these questions that this volume addresses Why do some struggles for autonomy take acute forms above all violent struggles for secession for example Chechnya while others remain within the framework of constitutional politics for example Tatarstan and Quebec Under what conditions does a distinct political community have the right to secede from another and how should this process be managed Our ten case studies seek to answer these questions on the basis of the application of just war theory to the normative and practical issues concerning the secession struggles in these regions The Introduction sets out the theoretical issues and then each case study provides a rich mix of theoretical and empirical material and some of the broader issues are then drawn together in the concluding chapter The book focuses on four key themes that are central to the ethics of secession The first examines normative issues in particular the tension between choice theories and those based on remedial just cause arguments The second discusses the problem of violence in secessionist struggles and the ensuing relationship between just war theory and the ethics of secession The third problem is the relationship between nationhood and citizenship and in particular the problem of applying what has now become a conventional distinction between ethnic and civic representations of the political community Finally the contentious issue of sovereignty and the way that it frames debates about self determination With each of these themes the application of general

moral principles to particular historical contexts opens up new avenues of research This book is essential reading for those who wish to understand both the theoretical and practical issues concerning secession struggles in the world today The Political Thought of the Civil War Alan Levine, Thomas W. Merrill, James R. Stoner, Jr., 2019-08-08 Why does the Civil War still speak to us so powerfully If we listen to the most thoughtful, forceful and passionate voices of that day we find that many of the questions at the heart of that conflict are also central to the very idea of America and that many of them remain unresolved in our own time The Political Thought of the Civil War offers us the opportunity to pursue these questions from a new critical perspective as leading scholars of American political science history and literature engage in some of the crucial debates of the Civil War era and in the process illuminate more clearly the foundation and fault lines of the American regime The essays in this volume use practical dilemmas of the Civil War to reveal and probe fundamental questions about the status of slavery and race in the American founding the tension between moralism and constitutionalism and the problem of creating and sustaining a multiracial society on the basis of the original principles of the American regime Adopting a deliberative approach the authors revisit the words and deeds of the most important political actors of the era from William Lloyd Garrison John C Calhoun and Abraham Lincoln to Alexander Stephens and Frederick Douglass with reference to the American Founders and the architects of Reconstruction The essays in this volume consider the difficult choices each of these figures made the specific problems they were responding to and the consequences of those choices As this book exposes and explores the theoretical principles at play within their historical context it also offers vivid reminders of how the great controversies surrounding the Civil War continue to shape American political life to this day Free in the World Mark E. Brandon, 1998 Brandon also develops a general typology of constitutional failure He identifies several ways in which failure can occur shows that failure in one area may signify success in another and argues that the possibility of failure is built into the foundations of all constitutional regimes

**BOOK JACKET      Comparative Federalism** Félix Mathieu, Dave Guénette, Alain-G. Gagnon, 2024-06-28 This edited volume provides a solid yet accessible set of contributions for students, specialists and practitioners of federalism It also reflects a commitment to normalising the connection between federal studies and scholarship on pluralism and diversity management To shed light on a specific theme through a rigorous and comprehensive approach most chapters compare at least two federal systems in connection with a given institutional matter or area of public policy Acknowledgements The editors of the volume would like to extend their warmest thanks to the Programme d'appui la recherche of the Secr tariat du Qu bec aux relations canadiennes the Groupe de recherche sur les soci t s plurinationales the Centre d'analyse politique Constitution et f d ralisme and the Canada Research Chair in Quebec and Canadian Studies This project would not have been possible without their most generous support The editors would also like to thank the entire editorial team at Palgrave Macmillan In particular they are grateful to Soeren Keil and Eva Maria Belser who enthusiastically welcomed the present project into their Federalism and Internal Conflicts series and to Ambra Finotello

Hemapriya Eswanth and Zeenathul Raeesa Ismail for their editorial support They would also like to thank the anonymous reviewers who helped to improve the overall quality of this collective work F lix Dave and Alain

**Comparative Federalism** Thomas O. Hueglin, Alan Fenna, 2006-01-01 This is a thoughtful well organized review of a subject of ever increasing importance the resurgence of the federal idea The Honourable Bob Rae 21st Premier of Ontario

**Ethnic Identity and Minority Protection** Thomas W. Simon, 2012-03-28 In Ethnic Identity and Minority Protection Designation Discrimination and Brutalization Thomas W Simon examines a new framework for considering ethnic conflicts In contrast to the more traditional theories of justice Simon s theory of injustice shifts focus away from group identity toward group harms effectively making many problems such as how to define minorities in international law dramatically more manageable Simon argues that instead of promoting legislative devices like proportional representation for minorities it is more fruitful to seek adjudicative solutions to racial and ethnic related conflicts For example resources could be shifted to quasi judicial human rights treaty bodies that have adopted an injustice approach This injustice approach provides the foundation for Kosovo s case for remedial secession and helps to sort out the competing entitlement claims of Malays in different countries Indeed the priority of Thomas W Simon s Ethnic Identity and Minority Protection is to ensure the tales of designation and discrimination told at the beginning of the work do not become the stories of brutalization told at the end In short the challenge tackled in this text is to assure that reason reigns over hate

### **Secession The Morality Of Political Divorce From Fort Sumter To Lithuania And Quebec Introduction**

In the digital age, access to information has become easier than ever before. The ability to download Secession The Morality Of Political Divorce From Fort Sumter To Lithuania And Quebec has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Secession The Morality Of Political Divorce From Fort Sumter To Lithuania And Quebec has opened up a world of possibilities. Downloading Secession The Morality Of Political Divorce From Fort Sumter To Lithuania And Quebec provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Secession The Morality Of Political Divorce From Fort Sumter To Lithuania And Quebec has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This

inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download *Secession The Morality Of Political Divorce From Fort Sumter To Lithuania And Quebec*. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading *Secession The Morality Of Political Divorce From Fort Sumter To Lithuania And Quebec*. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading *Secession The Morality Of Political Divorce From Fort Sumter To Lithuania And Quebec*, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download *Secession The Morality Of Political Divorce From Fort Sumter To Lithuania And Quebec* has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

### **FAQs About *Secession The Morality Of Political Divorce From Fort Sumter To Lithuania And Quebec* Books**

1. Where can I buy *Secession The Morality Of Political Divorce From Fort Sumter To Lithuania And Quebec* books?  
Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
2. What are the different book formats available? Hardcover: Sturdy and durable, usually more expensive. Paperback: Cheaper, lighter, and more portable than hardcovers. E-books: Digital books available for e-readers like Kindle or software like Apple Books, Kindle, and Google Play Books.
