## **Secession State Liberty:**

*Secession, State, and Liberty* David Stove, 2017-09-29 The political impulse to secede to attempt to separate from central government control is a conspicuous feature of the post cold war world It is alive and growing in Canada Russia China Italy Belgium Britain and even the United States Yet secession remains one of the least studied and least understood of all historical and political phenomena The contributors to this volume have filled this gap with wide ranging investigations rooted in history political philosophy ethics and economic theory of secessionist movements in the United States Canada and Europe

**Secession, State, and Liberty** David Gordon, The political impulse to secede to attempt to separate from central government control is a conspicuous feature of the post cold war world It is alive and growing in Canada Russia China Italy Belgium Britain and even the United States Yet secession remains one of the least studied and least understood of all historical and political phenomena The contributors to this volume have filled this gap with wide ranging investigations rooted in history political philosophy ethics and economic theory of secessionist movements in the United States Canada and Europe Is secessionism extremist a dangerous rebellion that threatens the democratic process Gordon and his contributors think otherwise They believe that the secessionist impulse is a vital part of the classical liberal tradition one that emerges when national governments become too big and too ambitious Unlike revolution secession seeks only separation from rule preferably through non violent means It is based on the moral idea articulated by Ludwig von Mises in 1919 that no people and no part of a people shall be held against its will in a political association that it does not want The authors cite the famed 1861 attempt to create a confederacy of Southern states as legal right and a justifiable response to Northern political imperialism They note that this was not the first American secession attempt the New England states tried to form their own confederacy during the War of 1812 This evidence they argue begs a reinterpretation of the U S Constitution along secessionist lines Further they believe that the threat of secession should be revived as a bulwark against government encroachment on individual liberty and private property rights a guarantor of international free trade and a protection against attempts to curb the freedom of association These straightforward pellucid arguments include essays by Donald Livingston Murray N Rothbard Clyde Wilson Thomas DiLorenzo and Bruce Benson among others If overgrown nations continue to decompose as they have for the last decade these authors believe it is essential that secession be taken seriously and fully understood *Secession State and Liberty* makes a vital contribution toward that end This stimulating thought provoking collection is necessary reading for intellectual historians and political scientists

**The Secessionist States of America** Douglas MacKinnon, 2014-10-07 Millions of American families from every race creed and economic background are losing hope as the United States continues slide deeper into fiscal insanity and moral decay Where will America stand when we lose our traditional values border security and limited government Having gained insight from industry experts in farming energy infrastructure and finance author Douglas MacKinnon has outlined one alternative to our existing government in an

entirely constitutional and legal approach secession from the United States of America President Abraham Lincoln once said This country with its institutions belongs to the people who inhabit it Whenever they shall grow weary of the existing government they can exercise their constitutional right of amending it or their revolutionary right to dismember or overthrow it With this patriotic wisdom of Abraham Lincoln and Thomas Jefferson in mind MacKinnon also works in conjunction with a team of highly experienced individuals from Special Ops intelligence the military and constitutional law to provide you with the answers to why how when and where as he outlines what secessionism would bring Using maps charts and excerpts of previously published materials to supplement his own interviews and research MacKinnon has written a powerful one of a kind book that will initiate conversation and movement throughout the country *The Ashgate Research Companion to Secession* Professor Peter Radan, Dr Aleksandar Pavkovic, 2013-04-28 This research companion has three complementary aims First to offer an overview of the current theoretical approaches to secession in the social sciences international relations legal theory political theory and applied ethics Second to outline the current practice of international recognition of secession and current domestic and international laws which regulate secession Third to offer an account of major secessionist movements past and present from a comparative perspective *The Annotated Secessionist Papers* Barry Lee Clark, Brian McCandliss, Michael Peirce, Walter E. Block, Thomas E. Woods Jr., Kevin L. Clauston, Kirkpatrick Sale, Forrest McDonald, Gene H. Kizer Jr., Thomas J. DiLorenzo, Donald W. Livingston, 2018-06-21 A collection of essays articles and papers in the tradition of the Federalist and Anti Federalist Papers that discuss secession from a legal constitutional and historical perspective Since the original release of the first edition of The Annotated Secessionist Papers the world has not ceased to view secession and devolution as a legitimate recourse for people across the globe that seek more responsive democratic representation In Europe there are currently twenty one active and real secession or devolution movements

Constitutional Law and Politics of Secession Antoni Abat i Ninet, 2023-07-31 This collection presents an analysis of the concept of secession and its constitutional accommodation alongside an assessment of the effects of secession in constitutional and international law The work proposes a new approach and insights into the existing literature that fill a gap from multidisciplinary and transdisciplinary perspectives The book approaches the topics of secession constitutionalism and their relationship from both theoretical and empirical perspectives including the analysis of particular secessionist examples such as Catalonia the Basque Country Tigray the Palestinian minority in Israel Bosnia and Herzegovina and the Mapuche Nation from a comparative constitutional perspective Elucidating these issues from different methodological and conceptual perspectives produces novelties in the scientific and constitutional debate The interplay between constitutions constitutional law and secession is indeed explored from philosophical socio legal but also from strict constitutional law outlooks Written by constitutional and public international law experts the book will be of interest to students academics and researchers working in the areas of constitutional law legal theory theory of the state philosophy of law and political science Creating

New States Aleksandar Pavkovic, Peter Radan, 2016-05-13 Secession is the creation of a new independent state out of an existing state This key volume examines the political social and legal processes of the practice of secession Following an analysis of secessionist movements and their role in attempts at secession eight case studies are explored to illustrate peaceful violent sequential and recursive secessions This is followed by a look at the theoretical approaches and a discussion that focuses on the economic causes Normative theories of secession are discussed as well as the status of secession in legal theory and practice The book systematizes our present knowledge of secessions in an accessible way to readers not familiar with the phenomenon and its consequences It is ideal as a supplementary text to courses on contemporary political and social movements applied ethics and political philosophy international relations and international law state sovereignty and state formation

**The Thin Justice of International Law** Steven R. Ratner, 2015-01-15 In a world full of armed conflict and human misery global justice remains one of the most compelling missions of our time Understanding the promises and limitations of global justice demands a careful appreciation of international law the web of binding norms and institutions that help govern the behaviour of states and other global actors This book provides a new interdisciplinary approach to global justice one that integrates the work and insights of international law and contemporary ethics It asks whether the core norms of international law are just appraising them according to a standard of global justice derived from the fundamental values of peace and the protection of human rights Through a combination of a careful explanation of the legal norms and philosophical argument Ratner concludes that many international law norms meet such a standard of justice even as distinct areas of injustice remain within the law and the verdict is still out on others Among the subjects covered in the book are the rules on the use of force self determination sovereign equality the decision making procedures of key international organizations the territorial scope of human rights obligations including humanitarian intervention and key areas of international economic law Ultimately the book shows how an understanding of international law s moral foundations will enrich the global justice debate while exposing the ethical consequences of different rules

The War of the Rebellion United States. War Department, 1900 Official records produced by the armies of the United States and the Confederacy and the executive branches of their respective governments concerning the military operations of the Civil War and prisoners of war or prisoners of state Also annual reports of military departments calls for troops correspondence between national and state governments correspondence between Union and Confederate officials The final volume includes a synopsis general index special index for various military divisions and background information on how these documents were collected and published Accompanied by an atlas

*The War of the rebellion: a compilation of the official records of the Union and Confederate armies, prepared by R.N. Scott [and others]. 4 ser. 69 vols. [in 127 pt. 'Additions and corrections', dated 1902, have been inserted in the vols. With] Ser.1. Index to battles, campaigns, etc* United States dept. of war, 1902

*Self-Determination and Collective Responsibility in the Secessionist Struggle* Costas Laoutides, 2016-03-03 The often

violent emergence of new independent states following the end of the Cold War generated discussion about the normative grounds of territorial separatism. A number of opposing approaches surfaced debating whether and under which circumstances there is a right for a community to secede from its host country. Overwhelmingly these studies placed emphasis on the right to secession and neglected the moral stance of secessionist movements as agents in international relations. In this book Costas Laoutides explores the collective moral agency involved in secessionist struggles offering a theoretical model for the collective responsibility of secessionist groups. Case studies on the Kurds and the people of Moldova Transnistria illustrate the author's theoretical arguments as he seeks to establish how although the principle of self-determination was envisaged as a means of gradually bestowing political power upon the people it never managed to realize its full potential because it was interpreted strictly within a framework of exclusionary politics of identity.

**Constitutionalizing Secession in Federalized States** Miodrag A. Jovanović, 2007. This book is a thorough and professional study about secession. Starting from the perspective of contemporary political philosophy the book explores the relevance of this issue for the theory and practice of federalism as well as its status under current public international law and concludes with a comparative constitutional analysis of the subject matter. In the final chapter it provides a constitutionalized procedure of secession based on fundamental liberal democratic values. The book argues that a liberal democratic response to the secession controversy might consist of the constitutionalization of a right to secession. While a number of recent works in political theory point to the fact that under certain circumstances the moral right of a group to secession should be recognized only if a few of them are ready to defend the institutionalization of that right through the instruments of constitutional law. This topical and thought provoking book is a welcome contribution to the ongoing debate on secession and will be of interest to academics in a variety of disciplines such as law, history, politics, international relations, philosophy and applied ethics and to politicians and constitution drafters.

**The Global Justice Reader** Thom Brooks, 2023-03-06. A unique compendium of foundational and contemporary writings in global justice, newly revised and expanded. The Global Justice Reader is the first resource of its kind to focus exclusively on this important topic in moral and political philosophy, providing an expertly curated selection of both classic and contemporary work in one comprehensive volume. Purpose-built for course work, this collection brings together the best in the field to help students appreciate the philosophical dimensions of critical global issues and chart the development of diverse concepts of justice and morality. Newly revised and expanded, the Reader presents key writings of the most influential writers on global justice, including Thomas Hobbes, Immanuel Kant, John Stuart Mill, Martha C. Nussbaum, and Peter Singer. Thirty-nine chapters across eleven thematically organized sections explore sovereignty, rights to self-determination, human rights, nationalism and patriotism, cosmopolitanism, global poverty, women and global justice, climate change, and more. Features seminal works from the moral and political philosophers of the past as well as important writings from leading contemporary thinkers. Explores critical

topics in current discourses surrounding immigration and citizenship global poverty just war terrorism and international environmental justice Highlights the need for shared philosophical resources to help address global problems Includes a brief introduction in each section setting out the issues of concern to global justice theorists Contains complete references in each chapter and a fully up to date extended bibliography to supplement further readings The revised edition of The Global Justice Reader remains an ideal textbook for undergraduate and graduate courses in global justice and human rights cosmopolitanism and nationalism environmental justice and social justice and citizenship and an excellent supplement for general courses in political philosophy political science social science and law      **A Glance at State Rights** William Monroe McCarty,1860      **History of the United States from the Compromise of 1850: 1860-1862** James Ford Rhodes,1906

**History of the United States from the Compromise of 1850 to the Final Restoration of Home Rule at the South in 1877: 1860-1862** James Ford Rhodes,1895      **Supplement to Encyclopædia Britannica (ninth Edition)** ,1891      **A History of the People of the United States** John Bach McMaster,1906      **A History of the People of the United States: 1830-1841** John Bach McMaster,1906      **A History of the People of the United States, from the Revolution to the Civil War** John Bach McMaster,1906
