Long The Imperial Way:

Hawaii Under the Rising Sun John J. Stephan, 2001-10-31 This lively provocative study challenges the widely held belief that the Japanese did not intend to invade the Hawaiian Islands Choice A disquieting book which shatters several historical illusions that have almost come to be accepted as facts It will remind historians how complex and ambiguous history really is American Historical Review

Long the Imperial Way Hanama Tasaki, 2024-06-12 Handbook of Confucianism in Modern Japan Shaun O'Dwyer, 2025-10-01 In mainstream assessments of Confucianism's modern genealogy there is a Sinocentric bias which is in part the result of a general neglect of modern Japanese Confucianism by political and moral philosophers and intellectual historians during the post war era This collection of essays joins a small group of other studies bringing modern Japanese Confucianism to international scholarly notice largely covering the time period between the Bakumatsu era of the mid 19th century and the 21st century The essays in this volume can be read for the insight they provide into the intellectual and ideological proclivities of reformers educators and philosophers explicitly reconstructing Confucian thought or more tacitly influenced by it during critical phases in Japan's modernization imperialist expansionism and post 1945 reconstitution as a liberal democratic polity They can be read as introductions to the ideas of modern Japanese Confucian thinkers and reformers whose work is little known outside Japan and sometimes barely remembered inside Japan They can also be read as a needful corrective to the above mentioned Sinocentric bias in the 20th century intellectual history of Confucianism For those Confucian scholars currently exploring how Confucianism is or can be made compatible with democracy at least some of the studies in this volume serve as a warning They enjoin readers to consider how Confucianism was also rendered compatible with the authoritarian ultranationalism and militarism that captured Japan's political system in the 1930s and brought war to the Asia Pacific region

Kamikaze Yasuo Kuwahara, Gordon T. Allred, 2007 Kamikaze squadrons recruited teenage boys and converted them into human bombs These boys became suicide pilots whose sole purpose was to die for the Emperor During World War II the Kamikaze caused the greatest losses in the history of the United States Navy

The Massacre in History Mark Levene, Penny Roberts, 1999 The role of massacre in history has been given little focused attention either by historians or academics in related fields This is surprising as its prevalence and persistence surely demands that it should be a subject of serious and systematic exploration What exactly is a massacre When and why does it happen Is there a cultural as well as political framework within which it occurs How do human societies respond to it What are its social and economic repercussions Are massacres catalysts for change or are they part of the continuity of the human saga These are just some of the questions the authors address in this important volume Chronologically and geographically broad in scope The Massacre in History provides in depth analysis of particular massacres and themes associated with them from the 11th century to the present Specific attention is paid to 15th century Christian Jewish relations in Spain the St Bartholemew's Day massacre England and Ireland in the civil war era the 19th century Caucasus the

rape of Nanking in 1937 and the Second World War origins of the Serb Croat conflict The book explores the subject of massacre from a variety of perspectives its relationship to politics culture religion and society its connection to ethnic cleansing and genocide and its role in gender terms and in relation to the extermination of animals The historians provide evidence to suggest that the massacre is often central to the course of human development and societal change **Catalog of Copyright Entries. (Buffone) Zarate,2014-08-15 This thesis examines the story of American POWs held by the Japanese in WWII to see if there were significant differences in treatment based on rank It examines how the Japanese treated the prisoners according to international law and also distinctions made by the officers themselves simply because of higher rank The thesis begins by discussing the historical framework for POW rank distinctions by looking at past wars and the development of rank

distinctions in international rules It then covers the American WWII POW experience in the Far East from Bataan and Corregidor to the war's end Special emphasis is placed on distinctions made in food housing pay medical care camp administration work requirements escape opportunities transportation leadership problems and overall death rates The study concludes that there were significant differences in treatment based on rank These differences caused extremely high enlisted death rates during the first year of captivity The officers fared worse as a group however because the Japanese held them in the Philippines until late 1944 because international rules prevented the Japanese from using officers in Japan's labor camps During shipment to Japan many officers died when the unmarked transport ships were sunk by advancing American forces
