Hitchens, 2003 **Imperial Delusions** Carl Boggs, 2005 In this hard hitting critique Carl Boggs argues that the United States is dominated by a new militarism one that has become more potent and menacing since 9 11 He skillfully explores the origins and development of this new militarism and show its devastating effects on American society **Full Committee**

Richard Seymour, 2013-01-16 Among the forgettable ranks of ex Leftists Christopher Hitchens stands out as someone determined to stand out Rejecting the well worn paths of hard right evangelism and capitalist realism he identified with nothing outside his own idiosyncrasies A habitual mugwump who occasionally masqueraded as a Marxist the role he adopted late in his career as a free radical within the US establishment had ample precedents from his earlier incarnation It wasn't the Damascene conversion he described His long standing admiration for America his fascination with the Right as the truly revolutionary force his closet Thatcherism his theophobia and disdain for the actually existing Left had all been present in different ways throughout his political life Post 9 11 they merely found a new articulation For all that the Hitchensian idiolect was a highly unique marketable formula He is a recognizable historical type the apostate leftist and as such presents a rewarding entertaining and an enlightening case study **The Chickenhawk Syndrome** Cheyney Ryan, 2009-05-16 In

recent years the question of war and sacrifice has been a major topic of political debate and controversy If our country goes to war for reasons we endorse what is our responsibility to share in its sacrifices Does supporting a war mean serving in it Does it mean encouraging our children to do so Such questions have been posed by the so called chickenhawk phenomenon pro war leaders and their pro war children who call on Americans to assume the burden of war and its sacrifices but avoid those sacrifices themselves President Bush and other architects of the Iraq conflict were the most prominent chickenhawks Cheyney C Ryan argues that the chickenhawk issue is not just a matter of personalities it will remain with us for a long time even though the Bush administration has left office Ryan poses fundamental questions of war and personal sacrifice pointing to the basic disconnection in American politics generally between the support for war and the willingness to assume its costs

which he calls Alienated War Calling for the reinvigoration of civic involvement this illuminating and insightful book offers both a philosophical and historical exploration of America's citizen soldier tradition and the consequences involved in separating the citizenry from the armed forces

Trade in War Mariya Grinberg, 2025-08-15 Trade in War is an urgent insightful study of a puzzling wartime phenomenon states doing business with their enemies Trade between belligerents during wartime should not occur After all exchanged goods might help enemies secure the upper hand on the battlefield Yet as history shows states rarely choose either war or trade In fact they frequently engage in both at the same time To explain why states trade with their enemies Mariya Grinberg examines the wartime commercial policies of major powers during the Crimean War the two World Wars and several post 1989 wars She shows that in the face of two competing imperatives preventing an enemy from increasing its military capabilities and maintaining its own long term security through economic exchange states at war tailor wartime commercial policies around a product's characteristics and war expectations If a product's conversion time into military capabilities exceeds the war's expected length then trade in the product can occur since the product will not have time to affect battlefield outcomes If a state cannot afford to jeopardize the revenue provided by the traded product trade in it can also occur Grinberg's findings reveal that economic cooperation can thrive even in the most hostile of times and that interstate conflict might not be as easily deterred by high levels of economic interdependence as is commonly believed Trade in War compels us to recognize that economic ties between states may be insufficient to stave off war
