British Book News British Council, 1993 Includes no 53a British wartime books for young people **Modern World Revision** Philip Stanton, 2000 Intended as a resource providing coverage of the Modern World GCSE History syllabus for AQA NEB students this fourth pack concerns the USA 1919 1941 It comprises units of work overviews key issues analysis key issues question and answer model answers and an answer constructor [A History of the World from the 20th to the 21st Century](#) John Ashley Soames Grenville, 2005 Provides a comprehensive survey of the key events and personalities of this period *The City of London and Social Democracy* Aled Davies, 2017-06-15 The City of London and Social Democracy examines the relationship between the financial sector and the state in post war Britain The key argument made in Aled Davies's study is that changes to the financial sector during the 1960s and 1970s undermined the state's capacity to sustain and develop a modern industrial economy Social democratic economic strategy was constrained by the institutionalization of investment in pension and insurance funds the fragmentation of the nation's oligopolistic domestic banking system the emergence of an unregulated international capital market based in London and the breakdown of the Bretton Woods international monetary system Novel attempts to reconfigure social democratic economic strategy in response to these changes ultimately proved unsuccessful Meanwhile the assumption that national prosperity could only be achieved through industrial growth was challenged by a reconceptualization of Britain as a fundamentally financial and commercial nation an idea that was successfully promoted by the City itself These findings assert the need to place the Thatcher governments subsequent neoliberal economic revolution which saw the acceleration of deindustrialization and the triumph of the City of London as a pre eminent international financial centre within a broader material institutional and cultural context previously underappreciated by historians *Themes in Modern European History since 1945* Rosemary Wakeman, 2003-06-26 Broad in geographical scope this collection explores the most important transformations and upheavals of post 1945 Europe in the light of recent scholarship A wide array of authors from the UK the USA and across Europe contribute twelve chapters consider key political cultural and economic changes of an era that needs reevaluation and reconsideration from a historical
