Nosferatu Jim Shepard, 2015-12-22 A New York Times Notable Book The richly imagined fictional life of one of cinema's founding fathers from National Book Award finalist Jim Shepard In 1907 while waiting for a train that would take him from his quiet rural hometown to university in cosmopolitan Berlin Friedrich Wilhelm Plumpe met Hans Ehrenbaum Degele the great passion of his life Hans was the catalyst for Plumpe's transformation into F. W. Murnau the filmmaker best known for directing *Nosferatu* the iconic silent film adaptation of Bram Stoker's *Dracula* as well as *The Last Laugh* *Sunrise* and *Tabu* As we follow Murnau from the airfields of the Great War to the cafés and clubs of Weimar Berlin to the virtual invention of filmmaking and from there to the South Seas we chart the progress of a man desperate to open himself to others but nonetheless continually at home in no house and in no country While devoted to those he loved Murnau remained hamstrung by self loathing and like his vampiric creation afraid of his own terrible inhumanness In his fascinating fictionalized biography of Murnau Jim Shepard author of the critically acclaimed *The Book of Aron* brings both Weimar era Germany and the early days of film to life in roaring irresistible detail delving into the heart and mind of a troubled genius and uncovering the inner turmoil of a reclusive and enigmatic cinema pioneer Il Faust di F. Physical Characteristics of Early Films as Aids to Identification Camille Blot-Wellens, 2022-01-19 Any archivists who have held a piece of film in their hands wondering how to go about identifying it recognize the true value of film preservationist Harold Brown's work In 1967 Brown delivered a pioneering lecture on the identification of early films at the annual Congress of the International Federation of Film Archives (FIAF) in East Berlin Years of working with Britain's National Film Archive collections and the close examination of thousands of nitrate prints of the silent period made Brown a leading authority on early film identification and an unsurpassed model of methodological consciousness in the archival field In 1990 FIAF published Brown's *Physical Characteristics of Early Films as Aids to Identification* an updated version and a continuation of his 1967 lecture This publication has long been archivists' trusted companion constituting a concentrated encyclopedia on all the information that can be discovered or verified through aspects of the film other than the actual projected image such as perforation shapes embossed and punched marks stock manufacturers and producers' edge marks frame characteristics title styles and production serial numbers It also included essays on key individual production companies of the silent era Over the last 30 years this manual a basic typewritten 100 page volume including 20 pages of black and white illustrations with its easily recognizable red cover has been an invaluable reference for film archivists and scholars However as Brown himself acknowledged in the 1990 edition the manual was far from definitive Camille Blot-Wellens the editor of this new expanded edition of Brown's 1990 book belongs to the new generation of researchers who

have used Physical Characteristics extensively in their work and have gathered considerable new information on the subject. This new edition is the result of a project she initiated in 2014 with FIAF's support. Brown's original text is now augmented with new original research on key film manufacturers and producers by Camille Bolt Wellens and other leading archivists and researchers in the field. Richly illustrated, the book contains over 900 images, including 125 in full color. This new 336-page edition of Harold Brown's seminal manual will be welcomed by many and will no doubt become a must-have working tool for many in the film archiving and academic fields.

Nosferatu Cristina Massaccesi, 2016-02-23 Unravels the never-ending fascination exercised by the film and provides a clear guide to the film's contexts, cinematography and possible interpretations covering the political and social contexts.

La era de los pioneros Guillermo Triguero Moreno, 2025-04-22 La era muda es uno de los periodos más apasionantes de la historia del cine. Fueron años de libertad y experimentación en que los grandes pioneros exploraron las posibilidades expresivas de una forma artística por entonces nueva. Este libro propone un repaso a esa época a través de los títulos fundamentales de la era muda que nos permitirán descubrir los grandes autores y las tendencias de esos años. Se trata tanto de títulos emblemáticos como de otros más desconocidos a la espera de ser redescubiertos. Todos ellos cimentaron las bases del cine que vendrá después. Mediante citas y alusiones, estas películas rinden homenaje al legado fílmico recibido. Y nos recuerdan que pocas experiencias resultan tan estimulantes y poderosas como la del espectador que se abandona a la pantalla para participar de otros mundos y otras vidas.
