A Personalist Jurisprudence, the Next Step Samuel J. M. Donnelly, 2003 In 1880 Oliver Wendell Holmes Jr defined law as the predictions of what courts would do Others particularly his intellectual opponent Christopher Columbus Langdell perceived law as a system

of language and rules This book offers an interpretation of American law and a method for judicial decision making Donnelly offers a vision of American law as an activity engaged in by a variety of players including judges advocates for the plaintiff and defendants law reformers scholars and perhaps all of us A central argument is that law is concerned with persons and their relations Arguably during the 20th century there was in jurisprudential thought a step by step piecemeal recovery of a role for the person in the law The next logical step in the 21st century is an explicitly person centered jurisprudence as interpretation of American law An important aspect of this book is its critique of both legal and general intellectual method Lawyers concerned with critiques of judicial decision making judges law professors and law students will find this book invaluable as will political scientists philosophers and social scientists The foreword to A Personalist Jurisprudence The Next Step is written by Vice President Joseph Biden I think Donnelly's work may well be an invaluable guide in considering what counts most in a Supreme Court justice a method for interpretation which will be in accord with his commitment to afford all persons deep respect and concern and try to understand persons their needs and their horizons Joseph R Biden Jr Vice President This book is recommended for those interested in jurisprudence legal philosophy or constitutional theory Bimonthly Review of Law Books May June 2003 All seven chapters are readable and superbly presented with excellent subsections and summary conclusions Highly recommended CHOICE Magazine December 2003 **Legal history review** ,1999 Hastings Law Journal ,2009 **Theoretical Inquiries in Law** ,2003 **The Rule of Justice** Elizabeth Dale,2001 The Rule of Justice explores a sensational homicide case that took place in Chicago in 1888 Zephyr Davis a young African American man accused of murdering an Irish American girl who was his coworker was pursued captured tried and convicted amid public demands for swift justice and the return of social order Through a close study of the case Dale explores the tension between popular ideas about justice and the rule of law in industrial America As Dale observes mob justice despite the presence of a professional police force was quite common in late nineteenth century Chicago and it was the mob that ultimately captured Davis Once Davis was apprehended the public continued to make its will known through newspaper articles and public meetings called by various civic organizations to discuss or protest the case Dale demonstrates that public opinion mattered and did in fact exert an influence on criminal law and criminal justice She shows in this particular instance the public was able to limit the authority of the legal system and the state with the result that criminal law conformed to popular will The Rule of Justice is sure to appeal to historians of criminal justice legal historians those interested in Chicago history and those interested in the history of race relations in America Penn State Law Review ,2004
