Morality And Expediency In International And Corporate Relations:

Morality and Expediency in International and Corporate Relations Richard Schifter, W. Lawson Taitte, 1992

Between Ethics and Politics: Lessons from Biafra Tobe Nnamani, 2016-06-08 Although many years have elapsed since the demise of Biafra it still remains an intractable unfinished business that seriously threatens the corporate existence of Nigeria. Most of the literature on Biafra tended to dwell more on the historical and political analysis of the war and how the factors that engendered it could be tackled. It appears however that no ethical analysis of the issues involved in the Biafran war has been carried out in any significant academic endeavour hence the reason and need for a critical analytical survey of the ethical and political implications of the role of the world community in the unprecedented events that took place in Biafra. The purpose of this book is first to understand the twist and turns of the events and issues involved in the Biafran crisis and the role the international community played in the war. Second is to articulate the complex nature of humanitarian intervention and to stress the relevance of ethics its interpenetration and tandem relationship with international relations on a broader level and in particular humanitarian intervention as a foreign policy action. The main claim of our argument is that ethics is part and parcel of international relations. Divorcing ethics from international relations leads to amorality that threatens the world order. In other words it is argued that ethical considerations should guide international affairs and the undertaking of humanitarian intervention. Behind this basic thesis the book defends the idea of a global ethic. Global ethic means an ethic which acknowledges respect for human life and the interconnectedness and interdependence of all human beings. It is an ethic which transcends the circumscribed confines of national boundaries and economic and geopolitical interests and opens them up to the larger urgent need well being peaceful coexistence and sustainability of the larger world community. Tobe Nnamani

IBSS: Economics: 1993 Vol 42, 1994 This bibliography lists the most important works published in economics in 1993. Renowned for its international coverage and rigorous selection procedures the IBSS provides researchers and librarians with the most comprehensive and scholarly bibliographic service available in the social sciences. The IBSS is compiled by the British Library of Political and Economic Science at the London School of Economics one of the world's leading social science institutions. Published annually the IBSS is available in four subject areas: anthropology, economics, political science and sociology.

Strategic US Foreign Assistance Rhonda L. Callaway, Elizabeth G. Matthews, 2016-04-01 One major dilemma regarding US foreign policy is when and how the US should address human rights around the globe and what responsibility exists for the US to promote human rights in the countries that receive US aid. Does US policy for foreign assistance really address human rights or is it merely another instrument in the US foreign policy toolbox? This insightful book addresses several key themes and questions revolving around the complex nature of US foreign policy and human rights. It examines US foreign policy and human rights as well as the evolution of US assistance and includes empirical evidence and case studies of Plan Colombia, Turkey and the war on terror in India and Pakistan. It closes with

a look at the future of foreign aid Harvard Journal of World Affairs ,1993 *The Morality of the Mass Media* W. Lawson Taitte,1993 Lectures held at the Universtiy of Texas at Dallas on Nov 9 12 1992 *Moral Values in Liberalism and Conservatism* W. Lawson Taitte,1995 An examination of government politics democracy capitalism in the context of moral values **Individualism and Social Responsibility** Andrew R. Cecil,W. Lawson Taitte,1994 In the 1993 Lectures on Moral Values in a Free Society the importance of individual freedom and the danger of self centeredness are repeatedly stressed as are the importance of social responsibility and the danger of excessive government control By exposing injustice and inequality social conscience keeps before our eyes the ideal of a society based on brotherhood that transforms economic and political relations into fellowship and binds individuals into the human family from the introduction by Andrew R Cecil

International Journal of Ethics ,1907 Includes section Book reviews **The Limits of Ethics in International Relations** David Boucher,2009-05-21 In his major new work David Boucher surveys the history of thinking about human rights and shows that far from being seen as universal and emancipatory they have almost always privileged certain groups in relation to others *Moral Values* W. Lawson Taitte,1996 The 17th annual series of lectures at the University of Texas at Dallas on Nov 6 8 1995 **The Essence of Living in a Free Society** W. Lawson Taitte,1997 This volume contains the proceedings of the eighteenth annual Lectures on Moral Values in a Free Society held at the University of Texas at Dallas on November 11 13 1996 The lecture series is designed to provide a forum for discussing vital issues that confront society today based on an understanding of the system of moral values on which our country was founded and continues to rest **The Roman Foundations of the Law of Nations** Benedict Kingsbury,Benjamin Straumann,2010-12-09 This book makes the important but surprisingly under explored argument that modern international law was built on the foundations of Roman law and Roman imperial practice A pivotal figure in this enterprise was the Italian Protestant Alberico Gentili 1552 1608 the great Oxford Roman law scholar and advocate whose books and legal opinions on law war empire embassies and maritime issues framed the emerging structure of inter state relations in terms of legal rights and remedies drawn from Roman law and built on Roman and scholastic theories of just war and imperial justice The distinguished group of contributors examine the theory and practice of justice and law in Roman imperial wars and administration Gentili s use of Roman materials the influence on Gentili of Vitoria and Bodin and his impact on Grotius and Hobbes and the ideas and influence of Gentili and other major thinkers from the 16th to the 18th centuries on issues such as preventive self defence punishment piracy Europe s political and mercantile relations with the Ottoman Empire commerce and trade European and colonial wars and peace settlements reason of state justice and the relations between natural law and observed practice in providing a normative and operational basis for international relations and what became international law This book explores ways in which both the theory and the practice of international politics was framed in ways that built on these Roman private law and public law foundations including concepts of rights This history of ideas has continuing importance as European ideas of international

law and empire have become global partly accepted and partly contested elsewhere in the world **The Politics of Moral Capital** John Kane, 2001 It is often said that politics is an amoral realm of power and interest in which moral judgment is irrelevant In this book by contrast John Kane argues that people's positive moral judgments of political actors and institutions provide leaders with an important resource which he christens moral capital Negative judgements cause a loss of moral capital which jeopardizes legitimacy and political survival Studies of several historical and contemporary leaders Lincoln de Gaulle Mandela Aung San Suu Kyi illustrate the significance of moral capital for political legitimization mobilizing support and the creation of strategic opportunities In the book's final section Kane applies his arguments to the American presidency from Kennedy to Clinton He argues that a moral crisis has afflicted the nation at its mythical heart and has been refracted through and enacted within its central institutions eroding the moral capital of government and people and undermining the nation's morale *The Publishers' Trade List Annual*, 1992 **Rawls's Law of Peoples** Rex Martin, David A. Reidy, 2008-04-15 This volume examines Rawls's theory of international justice as worked out in his controversial last book *The Law of Peoples* **The Moral Standing of the State in International Politics** Milla Emilia Vaha, 2021-07-15 Kant's moral and political philosophy has been important in developing ethical thinking in international relations This study argues that his theory of the state is crucially important for understanding the moral agency of the state as it is discussed in contemporary debates For Kant it is argued that the state has not only duties but also controversially inalienable rights that ground its relationship to its citizens and to other states Most importantly the state regardless of its governmental form or factual behaviour has a right to exist as a state The Kantian account provided therefore explores not only the moral agency but also the moral standing of the state examining the status of different kinds of states in world politics and expectations towards their ethical behaviour Every state has a moral standing that must be respected in a morally imperfect world gradually transforming towards the ideal condition of perpetual peace *The Ashgate Research Companion to Modern Theory, Modern Power, World Politics* Nevzat Soguk, Scott G Nelson, 2016-04-28 Deliberately eschewing disciplinary and temporal boundaries this volume makes a major contribution to the de-traditionalization of political thinking within the discourses of international relations Collecting the works of twenty-five theorists this Ashgate Research Companion engages some of the most pressing aspects of political thinking in world politics today The authors explore theoretical constitutions critiques and affirmations of uniquely modern forms of power past and present Among the themes and dynamics examined are textual appropriation and representation materiality and capital formation geopolitical dimensions of ecological crises connections between representations of violence and securitization subjectivity and genderization counter-globalization politics constructivism biopolitics post-colonial politics and theory as well as the political prospects of emerging civic and cosmopolitan orders in a time of national religious and secular polarization Radically different in their approaches the authors critically assess the discourses of IR as interpretive frames that are indebted to the historical formation of concepts

and to particular negotiations of power that inform the main methodological practices usually granted primacy in the field. Students as well as seasoned scholars seeking to challenge accepted theoretical frameworks will find in these chapters fresh insights into contemporary world political problems and new resources for their critical interrogation. *The Spectator*, 1870
Street Railway Bulletin, 1915

This is likewise one of the factors by obtaining the soft documents of this **Morality And Expediency In International And Corporate Relations** by online. You might not require more era to spend to go to the books inauguration as well as search for them. In some cases, you likewise realize not discover the pronouncement Morality And Expediency In International And Corporate Relations that you are looking for. It will unquestionably squander the time.

However below, later you visit this web page, it will be therefore definitely easy to get as well as download lead Morality And Expediency In International And Corporate Relations

It will not admit many time as we notify before. You can realize it though put on an act something else at home and even in your workplace. thus easy! So, are you question?
