Myth Ethos And Actuality:

Myth, Ethos, and Actuality David Castriota, 1992 Using material remains as well as the evidence of contemporary Greek history rhetoric and poetry David Castriota interprets the Athenian monuments as vehicles of an official ideology intended to celebrate and justify the present in terms of the past Castriota focuses on the strategy of ethical antithesis that asserted Greek moral superiority over the barbaric Persians whose invasion had been repelled a generation earlier He examines how in major public programs of painting and sculpture the leading artists of the period recast the Persians in the guise of wild and impious mythic antagonists to associate them with the ethical flaws or weaknesses commonly ascribed to women animals and foreigners The Athenians in contrast were compared to mythic protagonists representing the excellence and triumph of Hellenic culture Castriota's study is innovative in emphasizing the ethical implication of mythic precedents which required substantial alterations to render them more effective as archetypes for the defense of Greek culture against a foreign morally inferior enemy The book looks in new ways at how the patrons and planners sought to manipulate viewer response through the selective presentation or repackaging of mythic traditions

Myth, Ethos, and Actuality David Castriota, 1992 Myth Ethos and Actuality examines the depiction of mythic themes on Athenian public monuments in the period following the Persian Wars during the second and third quarters of the 5th century BC Using material remains as well as the evidence of contemporary Greek history rhetoric and poetry David Castriota interprets the Athenian monuments as vehicles of an official ideology intended to celebrate and justify the present in terms of the past

Book Review of "Land and Power, the Zionist Resort to Force, 1881-1948" Sophie Duhnkrack, 2009-06-10 Literature Review from the year 2009 in the subject History Asia grade 85 Ben Gurion University Middle Eastern Studies course Milestones in the Israeli Palestinian Conflict language English abstract Who controls the past controls the future Who controls the present controls the past Myth and ethos play a fundamental role in the formation and perpetuation of collective memory They are most effective as well as most dangerous when they are held as truth without question Furthermore it is very difficult to uncover them if a population is not ready According to David Castriota's *Myth Ethos and Actuality* ethos is the essential variable in the equation or analogy between myth and actuality Formed out of different components memories and circumstances ethos are often used for a

special aim for instance to justify certain actions and methods of a ruling class Anita Shapira a well known Israeli historian and professor at the Tel Aviv University in her history Land and Power The Zionist Resort to Force 1881 1948 examines ethos myths and narratives Her voluminous study describes the ideological evolution of the Zionist movement from the First Aliyah 1881 1904 until the foundation of the State of Israel The following analysis focuses on the main arguments and theories developed in Land and Power and examines them based on book reviews by renowned scholars These scholars scrutinize the work from different perspectives and propose various criticisms mainly concerning Shapira s conception of defensive ethos and offensive ethos

Apocalypse Against Empire Anthea Portier-Young, 2014-01-09 The year 167 B C E marked the beginning of a period of intense persecution for the people of Judea as Seleucid emperor Antiochus IV Epiphanes attempted forcibly and brutally to eradicate traditional Jewish religious practices In Apocalypse against Empire Anthea Portier Young reconstructs the historical events and key players in this traumatic episode in Jewish history and provides a sophisticated treatment of resistance in early Judaism Building on a solid contextual foundation Portier Young argues that the first Jewish apocalypses emerged as a literature of resistance to Hellenistic imperial rule In particular Portier Young contends the book of Daniel the Apocalypse of Weeks and the Book of Dreams were written to supply an oppressed people with a potent antidote to the destructive propaganda of the empire renewing their faith in the God of the covenant and answering state terror with radical visions of hope

Interpreting the Images of Greek Myths Klaus Junker, 2012 A concise introduction highlighting theoretical and methodological issues and describing the strategies ancient artists used in order to instruct and persuade

Athena's Justice Rebecca Futo Kennedy, 2009 Athena is recognized as an allegory or representative of Athens in most Athenian public art except in tragedy Perhaps this is because tragedy is rarely studied as a public art form or perhaps because her character is not static in tragedy Although Athena s characterization changes to fit the needs of a particular drama her clear connection with justice remains true throughout and suggests that she is always the representative of the city and its institutions Athens the city Athena protected experienced a dramatic transformation in the fifth century its political institutions physical landscape military power and international prestige underwent dynamic change Athena its goddess and its symbol simultaneously transformed as well although not always for the better Athena s Justice follows the question of civic identity and ideology in Athenian tragedy focusing specifically on the link between tragedy and its influence upon identity creation and promotion during the period when Athens was asserting itself as an imperial power Through examination of tragedies in which Athena appears this book traces the process by which Athens came to identify itself with its legal system symbolized by Athena on stage and then suffered the corruption of that system by the exercise of imperial power Athena s Justice is essential reading not just for classicists and ancient historians but for anyone interested in the interaction between art and politics and the process by which human beings in any period seek to shape their identity as a people

Jesus, Paul, Luke-Acts, and 1 Clement David L. Balch, 2023-06-19 In this book the author draws on two

original sources on a Greek biographer historian and rhetorician Dionysius of Halicarnassus as well as on Pompeian domestic art and architecture Generally NT scholars read texts but Greeks and ancient Romans loved beauty The walls and floors of their houses were decorated with thousands of colorful frescoes and mosaics art that two millennia later is still on display in Pompeii Christians lived and worshipped in those typical houses relating the art to NT texts generates many intriguing new questions What stories myths did Greeks and Romans see every day What were their sports and how violent were they Many NT scholars know as much or more Latin than they do Greek and they therefore cite the Latin historian Livy rather than the Greek Dionysius who wrote a century before the first Christian historian Luke Dionysius rhetoric expressed values shared across cultures by Greeks Romans and Jews e g by the historian and rhetorician Josephus some values that Luke also shares Dionysius makes clear that cities and ethnic groups had to praise how they treated emigrant foreigners questions handled differently by Josephus and by Luke This enables new interpretations of Jesus inaugural speech in Luke 4 and of Peter s second Pentecost speech in Acts 10

States of Memory David C. Yates, 2019-05-29 The Persian War was one of the most significant events in ancient history It halted Persia s westward expansion inspired the Golden Age of Greece and propelled Athens to the heights of power From the end of the war almost to the end of antiquity the Greeks and later the Romans recalled the battles and heroes of this war with unabated zeal The resulting monuments and narratives have long been used to reconstruct the history of the war itself but they have only recently begun to be used to explore how the conflict was remembered over time States of Memory focuses on the initial recollection of the war in the classical period down to the Lamian War 480 322 BCE Drawing together recent work on memory theory and a wide range of ancient evidence Yates argues that the Greek memory of the war was deeply divided from the outset Despite the panhellenic scope of the conflict the Greeks very rarely recalled the war as Greeks Instead they presented themselves as members of their respective city states What emerged was a tangled web of idiosyncratic stories about the Persian War that competed with each other fiercely throughout the classical period It was not until Philip of Macedonia and Alexander the Great dealt a devastating blow to the very notion of the independent city state at the battle of Chaeronea that anything like a unified memory of the Persian War came to dominate the tradition

[The Discourse of Kingship in Classical Greece](#) Carol Atack, 2019-10-11 This book examines how ancient authors explored ideas of kingship as a political role fundamental to the construction of civic unity the use of kingship stories to explain the past and present unity of the polis and the distinctive function or status attributed to kings in such accounts It explores the notion of kingship offered by historians such as Herodotus as well as dramatists writing for the Athenian stage paying particular attention to dramatic depictions of the unique capabilities of Theseus in uniting the city in the figure of the democratic king It also discusses kingship in Greek philosophy the Socratics identification of an art of kingship and Xenophon and Isocrates model of virtue monarchy In turn these allow a rereading of explorations of kingship and excellence in Plato's later political thought seen as a critique of these models and also in Aristotle's account of total kingship or pambasileia treated here as a counterfactual device developed to explore the epistemic benefits of democracy This book offers a fascinating insight into the institution of monarchy in classical Greek thought and society both for those working on Greek philosophy and politics and also for students of the history of political thought

Dionysos in Classical Athens Cornelia Isler-Kerényi, 2014-11-14 Dionysos with his following of satyrs and women was a major theme in a big part of the figure painted pottery in 500-300 B.C. Athens. As an original testimonial of their time, the imagery on these vases conveys what this god meant to his worshippers. It becomes clear that he was not only appropriate for wine, wine indulgence, ecstasy, and theatre. Rather, he was present on many both happy and sad occasions. The vase painters have emphasized different aspects of Dionysos for their customers inside and outside of Athens, depending on the political and cultural situation.

The Dynamics of Intertextuality in Plutarch, 2020-05-11 *The Dynamics of Intertextuality in Plutarch* explores the numerous aspects and functions of intertextual links both within the Plutarchan corpus itself (intratextuality) and in relation with other authors' works, genres, or discourses of Ancient Greek literature (interdiscursivity, intergenericity) as well as non-textual sources (intermateriality). Thirty-six chapters by leading specialists set Plutarch within the framework of modern theories on intertextuality and its various practical applications in Plutarch's *Moralia* and *Parallel Lives*. Specific intertextual devices such as quotations, references, allusions, pastiches, and other types of intertextual play are highlighted and examined in view of their significance for Plutarch's literary strategies, argumentative goals, educational program, and self-presentation.
