expecting Will Mariah and Adam be willing to share the secrets they are keeping Or will they allow false perceptions to continue to hinder the plans God has for them The Archivist Barbara Brodman,2023-02-21 Barbara Brodman began writing this book nearly a half century ago and abandoned it to some far corner of her heart and mind until a confluence of life experiences and advancements in science made it viable as a work of science fiction Incorporated herein are decades of research and teaching in disciplines as diverse as literature art and almost every area of the social sciences However it was not a lifetime of teaching and research that motivated this book as much as a desire to leave behind a fictionalized memoir of a family lineage the author feared would die with her passing It also pays homage to the fine art of storytelling that has all but disappeared from modern culture and it encourages a closer evaluation of concepts of love and family born of free thinking not of fear The novel spans some thousand years of human development beginning at a time not too distant from our own It begins when a group of scientists faced with the possibility of impending extinction of the human species at human hands decides to take action After decades of discussion and research they conclude that the only solution is to eradicate all males of the species and to design a blueprint for a female comprised new world order that accords to nature the preeminent position it lost under male domination In this new world order politics and religion are abandoned as basic institutions of society and consensus rules Knowledge of a world previous to the new world order is possessed by only one woman the Archivist It is she who is the most respected of women though she wields no power outside of the world of books When she wanders too far outside the walls of the Great Library to which she is bound from birth things go awry and the impossible occurs Her quiet life of books and solitary research becomes a life of adventure and subterfuge love and loss until once again she must face choices made by the ancestors who created her world *Dinner with King Tut* Sam Kean,2025-07-08 New York Times s 21 Nonfiction Books Coming This Summer Boston Globe s Best Summer 2025 Books From one of America s smartest and most charming writers NPR an archaeological romp through the entire history of humankind and through all five senses from tropical Polynesian islands to forbidding arctic ice floes and everywhere in between Whether it s the mighty pyramids of Egypt or the majestic temples of Mexico we have a good idea of what the past looked like But what about our other senses The tang of Roman fish sauce and the springy crust of Egyptian sourdough The boom of medieval cannons and the clash of Viking swords The frenzied plays of an Aztec ballgame and the chilling reality that the losers might also lose their lives History often neglects the tastes textures sounds and smells that were an intimate part of our ancestors lives but a new generation of researchers is resurrecting those hidden details pioneering an exciting new discipline called experimental archaeology These are scientists gone rogue They make human mummies They investigate the unsolved murders of ancient bog bodies They carve primitive spears and go hunting then knap their own obsidian blades to skin the game They build perilous boats and plunge out onto the open sea all in the name of experiencing history as it was with all its dangers disappointments and unexpected delights Beloved author Sam Kean joins these experimental archaeologists on their

adventures across the globe from the Andes to the South Seas He fires medieval catapults tries his hand at ancient surgery and tattooing builds Roman style roads and in novelistic interludes spins gripping tales about the lives of our ancestors with vivid imagination and his signature meticulous research Lively offbeat and filled with stunning revelations about our past Dinner with King Tut sheds light on days long gone and the intrepid experts resurrecting them today with startling lifelike detail and more than a few laughs along the way
