Noppen, Douglas C. Dildy, 2022-05-26 This fully illustrated study details Germany and Italy s failed development of World War II aircraft carriers and the naval aviation

ships that the two Axis powers sent into action in their place The quest for a modern aircraft carrier was the ultimate symbol of the Axis powers challenge to Allied naval might but fully fledged carriers proved either too difficult expensive or politically unpopular for either to make operational After the Anglo German Naval Agreement of 1935 Hitler publicly stated his intention to build an aircraft carrier the Graf Zeppelin which was launched in 1938 A year later the ambitious fleet expansion Z Plan was unveiled with two additional aircraft carriers earmarked for production However by the beginning of World War II Graf Zeppelin was not yet completed and work was halted Further aircraft carrier designs and conversion projects such as the ocean liner Europa and heavy cruiser Seydlitz were considered but in January 1943 all construction work on surface vessels ceased and naval resources were diverted to the U boat Campaign This book explains not only the history of Germany s famous Graf Zeppelin fleet carrier and German carrier conversion projects but also Italy s belated attempt to convert two of her ocean liners into carriers It considers the role of naval aviation in the two countries rearmament programmes and describes how ultimately it was only Italian seaplane carriers and German ocean going catapult equipped flying boat carriers that both Axis powers did eventually send into combat

The Luftwaffe Over Germany Donald Caldwell, Richard Muller, 2014-04-02 A wonderful book on the Luftwaffe s WW2 operations German Air Force and its struggle to defend Germany from the Allied bomber attacks FSAddon The Luftwaffe over Germany tells the story of one of the longest and most intense air battles in history The daylight air struggles over Germany during World War II involved thousands of aircraft dozens of units and hundreds of aerial engagements Until now there has been no single book that covers the complete story from the highest levels of air strategy to the individual tales of Fw 190s Bf 109s and Me 262s in air combat against the American bomber streams This ground breaking work explores the detrimental effect of Luftwaffe theory and doctrine on the German air arms ability to defend the homeland once the Allied Combined Bomber Offensive began in earnest By mid 1944 they had lost the battle but had exacted a terrible price from the Americans in the process The product of a ten year collaboration between two noted Luftwaffe historians this work fills a major gap in the literature of World War II The authors have examined original war diaries logbooks doctrine manuals after action reports and interviews with many combat veterans to produce a richly detailed account Illustrated with nearly two hundred photographs as well as new maps and diagrams this is the standard work on the subject Looking for a better book on the German air defense of the Third Reich in daylight during the war would probably be a useless endeavor A Wargamers Needful Things

"Big Week" 1944 Douglas C. Dildy, 2022-02-17 A rigorous new analysis of America s legendary Big Week air campaign which enabled the Allies to gain air superiority before D Day The USAAF s mighty World War II bomber forces were designed for unescorted precision daylight bombing but no one foresaw the devastation that German radar directed interceptors would inflict on them Following the failures of 1943 s Schweinfurt Regensburg raids and with D Day looming the Allies urgently needed to crush the Luftwaffe s ability to oppose the landings In February 1944 the Allies conceived and fought history s first ever successful offensive

counterair OCA campaign Operation Argument or Big Week Attacking German aircraft factories with hundreds of heavy bombers escorted by the new long range P 51 Mustang it aimed both to slash aircraft production and force the Luftwaffe into combat allowing the new Mustangs to take their toll on the German interceptors This expertly written illustration packed account explains how the Allies finally began to win air superiority over Europe and how Operation Argument marked the beginning of the Luftwaffe s fall *Aircraft Carriers* Norman Polmar,2008-01-01 In the post 1945 era the aircraft carrier has remained a valued weapon despite the development of nuclear weapons cruise and ballistic missiles and highly capable submarines At times as in the early days of the Korean and Vietnam Wars and in the Falklands conflict carriers alone could deploy high performance aircraft to the battlefield In other operations such as enforcing the no fly zones and the U S invasions of Afghanistan and Iraq only carriers could provide the bases needed for sustained combat and support operations This second volume of Norman Polmar s landmark study details the role of carriers in the unification of the U S armed forces and strategic deterrence fiscally constrained Great Britain the development of British Commonwealth and ex colonial navies and the efforts of France and the Netherlands to rebuild their fleets The role of the modern carrier nine nations currently possess them is discussed as are the issues confronting nations that might acquire them Chapters on the Soviet Union s effort to produce carriers are included for the first time The development of both carrier planes and the many oddball aircraft that have flown from carriers such as the U 2 spy plane are also examined Appendixes include comprehensive data on all carriers built and converted through 2006 This volume is a valuable companion to the critically acclaimed Volume I which covers aircraft carrier development and operations from 1909 to 1945 *8th AF News* ,1994 *Augsburg Eagle* William Green,1972 *Whitaker's Books in Print* ,1998 *Die Jagdfliegerverbände der deutschen Luftwaffe 1934 bis 1945* ,2000 *Air Combat Legends: Supermarine Spitfire, Messerschmitt Bf109* ,2004 *Air War, 1941* John Foreman,1993 En miniutis dag for dag gennemgang af britiske og tyske luftoperationer i UK og Nordvesteuropa i de første 6 måneder af 1941
