Barry, 2023-10-03 Forced to hide her new found magic or risk imprisonment or worse Myra enrolls in an interplanetary academy exchange program to dig up more about the government s many conspiracies but instead uproots even darker secrets that could drown everything she s grown to trust The second book in the searing STEAM inspired Plotting the Stars middle grade series perfect for fans of The City of Ember and Divergent Revolution is watered with sweat and tears As Myra Hodger begins her second year at the elite Scientific Lunar Academy of Magic she should be happy Her days of faking Number Whisperer magic are over and she has friends she can trust with the secret of her Botan abilities But that doesn t mean she s through pretending to be someone she s not Mourning Bernie and the incredible Moongarden they cultivated together she feels like she s losing herself just when she found the thing that made her feel whole She s given a seed of hope when she runs into a teen Rep in the hallway who looks eerily familiar But irritable Bernard controlled by his Rep implant is nothing like her beloved Bernie With the continuing interplanetary food crisis conspiracy an anonymous tip about a community of free Reps who might be able to help save Bernard and the hunt for more information about what really happened to the banished Botans all routes seem to point to Venus and an exchange program with the Vesuvian Academy of Magical Arts might provide Myra and her friends the cover they need to unearth the answers they seek Or it might widen the cracks already forming among them releasing a flood of consequences that could wash away all they ve worked so hard to grow The second book in the Plotting the Stars series Seagarden blossoms with unexpected twists and heartbreaking revelations underpinned by climate change warnings and a determination to fight against the status quo

The Politics of Time Guy Standing, 2023-10-26 Guy Standing s books have over the years pieced together a necessary political and intellectual agenda His Politics of Time is a splendid and timely addition to this body of important work Yanis Varoufakis Time has always been political Throughout history how we use our time has been defined and controlled by the powerful and today is no exception But we can reclaim control and in this book

the pioneering economist Guy Standing shows us how The ancient Greeks organised time into five categories work labour recreation leisure and contemplation Labour was onerous whereas leisure was *scholē* and included participation in public life and lifelong education Since the industrial revolution our time has been shaped by capitalism our jobs are supposed to provide all meaning in life our time outside labour is considered simply time off and politicians prioritise jobs above all other aspects of a good life Today we are experiencing the age of chronic uncertainty Mental illness is on the rise some people are experiencing more time freedom while many others are having more and more of their time stolen from them particularly the vulnerable and those in the precariat But there is a way forward We can create a new politics of time one that liberates us and helps save the planet through strengthening real leisure and working together through commoning We can retake control of our time but we must do it together
