Sea Of Green:

Growgirl Heather Donahue, 2012-12-31 A wry and entertaining memoir about growing up growing pot and life after your career goes up in smoke At age thirty four Heather Donahue s life went to pot Literally After starring in The Blair Witch Project the tiny indie film turned blockbuster that Roger Ebert named one of the ten Most Influential Movies of the Century she became a household name But the afterglow of the movie faded her acting career stalled Determined to start a new life she left most remnants of the old one in the desert meditated on things for a few days then followed her brand new boyfriend to her brand new life growing pot Growgirl is Heather s year living on a pot farm in Nuggettown California among The Community a collection of growers their pot wives and the reason for it all The Girls They help one another build grow rooms tend to their crops and provide a glimpse into this rarely seen world Though her relationship hits rocky territory Heather s new life brings unexpected solace and she s surprised to finally find normalcy in the least likely of places **Discourses of**

Ideology and Identity Chris Featherman, 2015-03-24 In this monograph Chris Featherman adopts a discourse analytical approach to explore the ways in which social movement ideologies and identities are discursively constructed in new and old media In the context of his argument Featherman also considers current debates surrounding the role that technologies play in democracy building and global activist networks He engages these critical issues through a case study of the 2009 Iranian presidential election protests looking at both US legacy media coverage of the protests as well as activists use of social media Through qualitative analysis of a corpus of activists Twitter tweets and Flickr uploads Featherman argues that activists social media discourses and protesters symbolic and tactical borrowing of global English contribute to micronarratives of globalization while also calling into question master narratives about Iran commonly found in mainstream Western media accounts This volume makes a timely contribution to discussions regarding the relationship between cyber rhetoric and democracy and provides new directions for researchers engaging with the influence of new media on globalized vernaculars of English **Cannabis** Ernest Small, 2016-10-14 Cannabis sativa is best known as the source of marijuana the world s most widely consumed illicit recreational drug However the plant is also extremely useful as a source of stem fiber edible seed oil and medicinal compounds all of which are undergoing extremely promising research technological applications and business investment Indeed despite its capacity for harm as a recreational drug cannabis has phenomenal potential for providing new products to benefit society and for generating extensive employment and huge profits Misguided policies until recently have prevented legitimate research on the beneficial properties of cannabis but there is now an explosion of societal scientific and political support to reappraise and remove some of the barriers to usage Unfortunately there is also a corresponding dearth of objective analysis Towards redressing the limitation of information Cannabis A Complete Guide is a comprehensive reference summarizing botanical business chemical ecological genetic historical horticultural legal and medical considerations that are critical for the wise advancement and management of cannabis in its various forms This book

documents both the risks and benefits of what is indisputably one of the world's most important species. The conflicting claims for medicinal virtues and toxicological vices are examined based mainly on the most recent authoritative scientific reviews. The attempt is made consistently to reflect majority scientific opinion although many aspects of cannabis are controversial. Aside from the relevance to specialists the general public should find the presentation attractive because of the huge interest today in marijuana. Unfortunately society has become so specialized and compartmentalized that most people have limited appreciation of the importance of science to their lives except when a topic like marijuana becomes sensationalized. This review of cannabis can serve as a vehicle for public education in the realm of science and technology. Indeed towards the goal of disseminating the important information in this book to a wide audience the presentation is user friendly, concise and well illustrated in the hope that non specialists will find the topics both informative and entertaining.

Cannabis Botany and Marijuana Horticulture Ross Miriello, 2017-07-01 Available on Amazon in paperback format

Establishing Industry Standards for Commercial and Recreational Producers. The Cannabis Botany and Marijuana Horticulture book is an essential guide for anyone interested in indoor cannabis cultivation. Packed with advanced methods and techniques from experienced botanists, this comprehensive resource explores the latest and most effective ways to grow your favorite medicinal cannabis plants year round. With over 15 years of development focused on personal use, medical applications and commercial operations, this book is designed to deliver exceptional results across all areas of cultivation. Spanning 16 detailed chapters, it serves as a complete step-by-step manual; everything you need to know is meticulously laid out in 184 pages, 7 x 10 inches, filled with valuable information. The book features over 100 charts and 120 vivid images, making it an invaluable tool for both novice and experienced cannabis growers alike. The book offers in-depth chapters covering essential aspects of a professional indoor growing operation for medical grade marijuana. Topics include grow rooms and workspace setup, air circulation and CO2 levels, timing cycles, lighting and electricity, soil and containers, perpetual rotation strategies and yield ratios, as well as detailed guidance on harvesting and equipment. Each stage of the cannabis plant's life cycle is thoroughly explained, from plant biology, seeds and strains to sexing and selecting, cloning methods and creating new clones. The process includes everything from cloning, rotation, vegetation phases 4 and 8, darkness periods, pre-flowering, flowering and fructification to flushing and darkroom techniques. The nutrient solution chapter offers a wide array of recipes, 18 in total, tailored to various strains and maturation stages designed to ensure both high yield over 1 gram per watt and most importantly, premium quality that only a master grower can achieve. The production schedule chapter outlines a seamless, optimized perpetual rotation cycle across multiple grow rooms, ensuring efficiency at every stage of the cannabis plant's life cycle. By employing advanced lab-grade technology and equipment favored by professional cannabis growers, along with a Pro Mix HP soilless hydroponic system, this approach guarantees a streamlined, hassle-free indoor growing operation. Available on Amazon in paperback format.

The Time at Darwin's Reef Ivan Brady, 2003-01-21 The Time at

Darwin's Reef is primarily a book of storytelling through mixed genres verse prose and painting Brady's work is designed to draw out key dimensions of the poetics of anthropology and history embedded in creative writing in the mix and on the margins of verse and prose painting and writing fiction and fact to revisit the sometimes academically resistant idea that there is more than one way to say and therefore to see things This is a poetic exploration of themes encountered in the academy's attempts to explicate reality including travel through various cultures times and circumstances The goal of this unique book is both analytic and aesthetic It is also humanistic a commentary on the human condition of being and not being in a cross cultural world It will be of immediate interest to poets and writers who wish to explore anthropological poetics to ethnographers and teachers of ethnographic method and to instructors and students in creative and experimental writing
