Meditations from the Classics David R. Denny, 2023-12-08 There s a delightful melody in the ancient voices as they travel through time s narrow door I hear them best on my front porch rocker that faces an ocean marsh There beneath curious stars the orchestration emerges mingling with moonlight tides Sometimes Socrates sings the high notes while Thucydides pulls the bass line Aristophanes rallies his chorus and Caesar charges over a hilltop near the dark Teutoburg Forest There are times when I struggle with the faint lyrics but with patience the scenes begin to breathe again Hurry It s midnight and the curtain is opening The actors twirl their swords and fluff their flowing robes Sophocles is quieting the theater requesting our attention Oedipus now an aged actor leans upon his daughter Antigone His face glowers from twenty years of wandering beneath ghastly burdens and past failures Slowly they climb a rocky path that leads to the edge of a forest His words still resonate for us today with a vibrant relevance as do all thirty three ancient authors in Meditations from the Classics

Thucydides' Meditations on Fear Raymond Taras, 2023-09-12 Understanding contemporary global politics by connecting them to the meditations of a classical Greek philosopher may seem farfetched and counterintuitive But for political theorists policymakers the new influencers journalists and engaged students Thucydides ancient wisdom provides

insights into diagnosing and even undermining an endemic of political fear spreading across the world's borders. With his help, this book probes six case studies of aspiring great powers and the brittle identities that they may have unwittingly constructed. Raymond Taras questions the motives of the manipulators of fear, whether found in authoritarian states or increasingly in backsliding liberal democratic ones. The urgency of returning to and respecting tolerance in states establishing relations with arriving refugees and migrants takes on critical importance.

The Sea and the Jungle H. M. Tomlinson, 2019-12-03 In *The Sea and the Jungle*, H. M. Tomlinson intricately weaves a travel narrative that often blurs the lines between fact and fiction, reality and imagination. Set against the backdrop of the vast oceans and untamed jungles of South America, Tomlinson's prose combines vivid descriptions with philosophical musings, creating a rich tapestry of adventure and introspection. The book, published in 1913, reflects the literary context of early 20th-century modernism, exploring themes of existentialism and man's relationship with nature while drawing on the influence of contemporaries like Joseph Conrad. Tomlinson, a British journalist and author, was profoundly influenced by his own experiences at sea and in the jungles of South America; his voyages informed not only his understanding of the physical world but also his philosophical outlook. His background in reporting gave him a keen eye for detail and a deep appreciation for the complexity of human emotion and environmental grandeur. Through such personal reflections and observations, Tomlinson crafted a narrative that resonates with his own existential inquiries and unquenchable curiosity. *The Sea and the Jungle* is a compelling read for those fascinated by travel literature and the intricate dance between humanity and nature. It invites readers to embark on an existential journey filled with lyrical prose and profound insights, making it a must-read for anyone who craves both adventure and philosophical contemplation.

Sea-Brothers Bert Bender, 2015-11-16 *Sea Brothers* offers the most extensive analysis to date of the sea and its meaning in American literature.

On the basis of his study of Melville Crane London Hemingway Matthiessen and ten lesser known sea writers Bert Bender argues that the tradition of American sea fiction did not end with the opening of the western frontier and the replacement of sailing ships by steamers Rather he demonstrates its continuity and vitality identifying a central vision within the tradition and showing how particular authors draw from transform and contribute to it What is most distinctive about American sea fiction Bender contends is its visionary often mystical response to the biological world and to man s perceived place in the larger universe When Melville envisioned the sea as the essential element of life indeed as life itself he changed the course of American sea fiction by introducing the relevance of biological thought But his meditations on the whale and the ungraspable phantom of life project a different reality from that envisioned by his successors In American sea fiction after Melville the influence of Origin of Species is as powerful as that of Moby Dick or the theme of sailing ships being displaced by steam The ideal of brotherhood so central to American sea fiction was severely compromised by the biological reality of a competitive warring nature Twentieth century sea fiction has continued to center on the biological world and address the possibility of democratic brotherhood but the issues were fundamentally changed by Darwin s theories This book will be a valuable source for students and scholars of American literature and will interest readers of sea fiction **The Ego and the Dynamic**
