17th century modern haiku were added and eventually Keigu Gills haiku name composed about a hundred of his own to help fill out gaps in the metaphorical museum For many if not most modern haiku taken from the web it is also their first time in print Fourth it is a book of metaphor How may we arrange hundreds of poems on a single theme Gill divides them into 21 main metaphors including the Cold Sea Slug the Mystic Sea Slug the Helpless Sea Slug the Slippery Sea Slug the Silent Sea Slug and the Melancholy Sea Slug giving each a chapter within which the metaphors may be further subdivided and adds a 100 pages of Sundry Sea Slugs scores of varieties including Monster Spam Flying Urban Myth and Exploding Fifth it is a book on haiku Editors usually select only the best haiku but Gill includes good and bad haiku by everyone from the 17th century haiku master to the anonymous haiku rejected in some internet contest This is not to say all poems found were included but that the standard was along more taxonomic or encyclopedic lines poems that filled in a metaphorical or sub metaphorical gap were always welcome Also Gill shows there is more than one type of good haiku These are new ways to approach haiku Sixth it is a book on translation There are approximately 2 translations per haiku and some boast a dozen These are arranged in mixed single double and triple column clusters which make each reading seem a different aspect of a singular almost crystalline whole The authors aim is to demonstrate that multiple reading such as found in Hofstadters Le Ton Beau de Marot is not only a fun game but a bona fide method of translating especially useful for translating poetry between exotic tongues Seventh it is a book of nature writing natural history or metaphysics in the Emersonian sense Gill tried to compile relevant or interesting not necessarily both historical this includes the sea slug in literature English or Japanese and in folklore and scientific facts to read haiku in their light or conversely bring or wring out science from haiku Unlike most nature writers Gill admits to doing no fieldwork but sluggishly staying put and relying upon reports from more mobile souls Eighth it is a book about food symbolism The sea cucumber is noticed by Japanese because they eat it the eating itself involves physical difficulties slipperiness and hardness and pleasures from overcoming them It is also identified with a state of mind where you are what you eat takes on psychological dimensions not found in the food literature of the West Ninth it is a book about Japanese culture Gill does not set out to explain Japan and the sea slug itself is silent but the collection of poems and their explanations which include analysis by poets who responded to the author's questions as well as historical sources take us all around the culture from ancient myths to contemporary dreams Tenth it is a book about sea cucumbers While most species of sea cucumbers are not mentioned and the coverage of the Japanese sea cucumber is sketchy from the scientific point of view Gill does introduce this animal graced to live with no brain thanks to the smart materials comprising it and blessed for sucking in dirty sediment and pooping it out clean Eleventh it is a book about ambiguity Gill admits there is much that cannot be translated much he cannot know and much to be improved in future editions for which purpose he advises readers to see the on line Glosses and Errata in English and Japanese His policy is to confide in rather than slip by the reader unnoticed in the manner of the invisible modern translator and allow the reader to

make choices or choose to allow multiple possibilities to exist by not choosing. Twelfth the book is the first of dozens of spin offs from a twenty book haiku saijiki poetic almanac called *In Praise of Olde Haiku*. IPOOH for short. Gill hopes to finish within the decade. Thirteenth The book is a novelty item. It has a different often witty header caption on top of each page and copious notes that are rarely academic and often humorous.

Child of the Sea Doina Cornell, 2012-09-27 A Child of the Sea is the true story of Jimmy Cornell's daughter sailing around the world on the family's small yacht from the age of 7 to 14 based on Doina's diaries, letters and memories. From 1975 to 1981 the Cornell family visited 54 countries, sailed more than 68 000 miles and travelled about the same distance overland. The story is told from Doina's point of view although the main part of the book focuses on the family's three year stay in the Pacific when she is aged between 10 and 13. Child of the Sea is unusual in that it gives a glimpse into a life that most young children couldn't imagine: swimming, diving and playing the days away in deserted anchorages, visiting some of the most beautiful islands in the world, falling in love with the sea in all its ever changing moods from balmy trade wind ocean passages to the treacherous breakers that crash onto tropical reefs and taking a full part in sailing and handling the yacht on passage. The book also tells the story of a girl's coming of age in the South Pacific, understanding different cultures and values and experiencing at first hand how people judge each other depending on the colour of their skin. From the time on Easter Island when tourists mistake Doina for a Polynesian girl to her and her brother's hostile prejudiced reception back in an English school at the end of their journey. What do children need to grow up happy and healthy? Security with their family, an element of risk, freedom to explore the world, openness to other peoples and cultures, closeness with nature and the elements and an appreciation of the environment and our finite resources. The sailing life offers all this and more and this book captures it all.
