Sean Godsell Works And Projects:

Sean Godsell Sean Godsell,2020-01-07 A survey of residential projects by Australia's leading minimalist architect Sean Godsell As many architects turn to Australia for inspiration Sean Godsell a pioneer of Australian minimalism has established himself as an important influencer on the global architecture scene This survey of his residential architecture features twelve house projects across Australia each illustrated with full color photography as well as a selection of the architect's hand drawn plans and exploratory sketches which illuminate how each project relates to its surrounding landscape Featuring an essay by Godsell about the influences of Australia's landscape and culture in his work this survey also includes an introduction by leading critic and commentator Philip Goad about the achievements of Godsell's career to date and the importance of his visionary designs With a complete illustrated chronology of Sean Godsell's works this overview will be an important resource for architecture lovers and design enthusiasts

Sean Godsell Sean Godsell,Leon Van Schaik,2005 One of Australia's up and coming young architects beginning to earn international recognition

Sean Godsell Sean Godsell,1998 *Introducing Architectural Tectonics* Chad Schwartz,2016-10-04 Introducing Architectural Tectonics is an exploration of the poetics of construction Tectonic theory is an integrative philosophy examining the relationships formed between design construction and space while creating or experiencing a work of architecture In this text author Chad Schwartz presents an introductory investigation into tectonic theory subdividing it into distinct concepts in order to make it accessible to beginning and advanced students alike The book centers on the tectonic analysis of twenty contemporary works of architecture located in eleven countries including Germany Italy United States Chile Japan Bangladesh Spain and Australia and designed by such notable architects as Tadao Ando Herzog de Meuron Kengo Kuma Olson Kundig and Peter Zumthor Although similarities do exist between the projects their distinctly different characteristics location and climate context size program construction methods and range of interpretations of tectonic expression provide the most significant lessons of the book helping you to understand tectonic theory Written in clear accessible language these investigations examine the poetic creation of architecture showing you lessons and concepts that you can integrate into your own work whether studying in a university classroom or practicing in a professional office

Modern Architecture: A Critical History (Fifth) (World of Art) Kenneth Frampton,2020-09-08 An extensively revised and updated edition of a bestselling classic on modern architecture and its origins by Kenneth Frampton Kenneth Frampton's highly acclaimed survey of modern architecture and its origins has been a classic since it first appeared in 1980 Starting with the cultural developments since 1750 that drove the modern movement moving through the creation of modern architecture and exploring the effects of globalization and the phenomenon of international celebrity architects this

book is the definitive history of modern architecture For this extensively revised and updated fifth edition of *Modern Architecture* Frampton added new chapters exploring the ongoing modernist tradition in architecture while also examining the varied responses to the urgent need to build more sustainably and create structures that will withstand changing climates This new edition features completely redesigned interiors and an updated and expanded bibliography making this volume more indispensable than ever Australia Harry Margalit,2019-11-15 This book tells the story of the architects and buildings that have defined Australia's architectural culture since the founding of the modern nation through Federation in 1901 That year marked the beginning of a search for better city forms and buildings to accommodate the changing realities of Australian life and to express an emerging distinctive and eventually confident Australian identity While Sydney and Melbourne were the settings for many of the major buildings all states and territories developed architectural traditions based on distinctive histories and climates Harry Margalit explores the flowering of these many architectural variants from the bid to create a model city in Canberra through the stylistic battles that opened a space for modernism to the idealism of postwar reconstruction and beyond to the new millennium Australia reveals a vibrant and influential culture of the built environment at its best when it matches civic idealism with the sensuality of a country of stunning light and landscapes

Practical Poetics in Architecture Leon van Schaik,2015-04-29 Integrate poetics into real world spaces by bringing theory down to earth *Practical Poetics in Architecture* takes poetics out of the theory class and into the design studio showing architects how the atmospheric and experiential qualities of built structures can be intentionally considered and planned With an emphasis on analysing and explaining the sensibility of poetics at work in designing and constructing architecture this book features projects from architects around the world that demonstrate the principles of poetics come to life The rich illustration of two hundred colour images including analytical diagrams plans sections and photos make this insightful guide a highly visual foray into a topic that has thus far remained more theoretical than practical The text is matter of fact and concrete yet remains richly connected to its forbears and the writings of William Lethaby Gaston Bachelard and Steen Eiler Rasmussen The perspective is contemporary in its examples and its connections to the evolving science of perception An established seminar topic in theory classes around the world poetics tends to rely heavily on classic philosophic texts until now *Practical Poetics in Architecture* brings theory down to earth to show architects how to invoke poetics when designing real projects Integrate poetics principles into real world designs Consider atmosphere in terms of form space and acoustics Study actual projects that bring poetics into real spaces Take cues from analytical diagrams of projects accounting for context Poetics the accumulated experience of place space and culture has become more critical in recent years as the atmospheric and experiential qualities of built spaces have become more elusive in the virtual age *Practical Poetics in Architecture* provides real guidance for real projects and brings poetics out of the mind and onto the plans **Architectural Topographies** Tomà Berlanda,2014-04-03 *Architectural Topographies* is a critical dictionary for architects and landscape

Sean Godsell ,2000* **Living the Modern** Claudia Perren,Kristien Ring,2007 Since the nineteen fifties a unique form of modern architecture has been developing in Australia a progressive modernism which involves the dynamic combination of tradition and transformation This catalogue accompanies the exhibition Living the Modern_Australian Architecture and analyzes this culture and environment specific architecture using its residential constructions as a basis for examination The scope of the book extends from detached family houses to high rise buildings Examples of early design from the post war period are explored in an introductory overview but the focus of the publication is directed towards a diverse mix of twenty five Australian architects For the last fifteen years they have been applying interpreting or reworking modernist approaches but despite fame in their homeland their outstanding and refreshing productions remain largely unheard of in Europe Including texts by Richard Blythe Philip Drew Philip Goad Gevork Hartoonian Tom Heneghan Hannah Lewi Elizabeth Musgrave Stephen Neille Claudia Perren Kristien Ring and Peter Wilson

Book jacket *The New Modern House* Will Jones,2005-04-07 Every architect dreams of a perfect client and every client dreams of a perfect architect Alas these relationships don t always work out to everyones expectations But when they dowhen there are shared ideas and the communication flowsthe results can be spectacular The New Modern House features forty new buildings where the synergy between the right designer and the right client resulted in works that surpass everyone s expectations The book is divided into five thematic chaptersconditions materials environment budget and

aesthetics and each contain eight case studies. These include Rafael Violy's Piano House in New York, Sean Godsell's Peninsula House in Australia and Ahadu Abaineh's Tree House in Ethiopia among others. Beautifully produced, *The New Modern House* captures these noteworthy designs with a wealth of color photography, plans and drawings and makes an ideal book for anybody dreaming of the perfect house. **Architecture in Dialogue with an Activated Ground** Urs Bette, 2020-03-30

Architecture in Dialogue with an Activated Ground sets out to validate the role of the unreasonable in the design process. Using case study projects, architect Urs Bette gives an insight into the epistemological processes of his creative practice and unveils the strategies he deploys in order to facilitate the poetic aspects of architecture within a discourse whose evaluation parameters predominantly involve reason. Themes discussed include the emergence of space from the staged opposition between the architectural object and the site and the relationship between emotive cognition and analytic synthesis in the design act. In both cases, there is a necessary engagement with forms of unreasonable thought, action or behaviours. By arguing for the usefulness and validity of the unreasonable in architecture and by investigating the performative relationship between object and ground, Bette contributes to the discourse on extensions, growth and urban densification that tap into local histories and voices, including those of the seemingly inanimate: the architecture itself and the ground it sits upon to inform the site-related production of architectural character and space. In doing so, he raises debates about the values pursued in design approval processes and the ways in which site-relatedness is both produced and judged. **Spatial Intelligence** Leon Van Schaik, 2008-10-20

The book is organised into three distinct sections that in turn highlight the significance of spatial intelligence for architecture: the first section provides an overview of spatial intelligence as a human capability; the second section argues how the acknowledgement of this capability in architectural education and the profession should enable the demystification of the practice of design, forming the basis of a more democratic interface between society and practice; the final section explores exciting new opportunities for practice in the linking of real and virtual environments in the information age. **Inflection 06: Originals** Sir Peter Cook, Alison Brooks, Beatriz Colomina, Sean Godsell, Adam Peacock, 2019-09-16

Architects are expected to create original ideas resulting in a unique bespoke design. With the rise of Modern Architecture, originality became ingrained in perceptions of good design. As a result, originality has become a barometer against which we measure the value of design. However, technology today allows for ease of replication and copies; thus, originality in design has become an ostensibly hollow prospect. *Originals* gathers a wide range of responses, varied in their opinions and approaches to originality and authorship in design and architecture. *Inflection* is a student-run design journal based at the Melbourne School of Design, University of Melbourne. Born from a desire to stimulate debate and generate ideas, it advocates the discursive voice of students, academics and practitioners. Founded in 2013, *Inflection* is a home for provocative writing, a place to share ideas and engage with contemporary discourse. **New Directions in Australian Architecture** Philip Goad, Patrick Bingham-Hall, 2005
