The Farther Frontier Lysle E. Meyer,1992 A surprising number of Americans were involved with the so called Dark Continent during the period when Western penetration led to conquest and colonial rule The six Americans discussed are Thomas Jefferson Bowen who established the first American mission posts in Yorubaland writer explorer Paul du Chaillu soldier explorer Charles Chaille Long diplomat Henry Shelton Sanford mining engineer John Hays Hammond and taxidermist Carl Akeley Illustrated **Black Urban History at the Crossroads** Leslie M. Harris,Clarence Lang,Rhonda Y. Williams,Joe William Trotter Jr.,2024-10-22 Drawing on significant recent scholarship on African American urban life over three centuries Black Urban History at the Crossroads bridges disparate chronological regional topical and thematic perspectives on the Black urban experience beginning with the Atlantic slave trade Across ten cutting edge chapters leading scholars explore the many ways that urban Black people across the United States built their own communities crafted their own strategies for self determination and shaped the larger economy culture and politics of the urban environment and of their cities regions and nation This volume not only highlights long running changes over time and space from preindustrial to emerging postindustrial cities but also underscores the processes by which one era influences the emergence of the next moment in Black urban history **Searching for Dr. Harris** Margaret Humphreys,2024-08-20 This is the untold story of Dr J D Harris an African American physician whose life and career straddled enormous changes for Black professionals and the practice of medicine Born in Fayetteville North Carolina Harris served as a contract surgeon to the Union army and transitioned to a similar post under the Freedmen s Bureau treating Black troops and freedpeople in Virginia Margaret Humphreys not only narrates what we know about Harris but offers context to his remarkable journey including how incredible it was that a young man born into freedom in a slave state learned to read when literacy for Black people was illegal He was one of very few African Americans to become a doctor before Howard Medical School opened in the 1870s a fact that both reveals the structural barriers to medical education for Black Americans and highlights how those structures weakened in the 1860s Drawing on census records court records Civil War and Reconstruction documents from the National Archives African American newspapers and more this book is a revealing look at the history not only of medicine in the southern United States but also of race and citizenship during one of the nation s most tumultuous eras Providence and the Invention of the United States, 1607-1876 Nicholas Guyatt,2007-07-23 Nicholas Guyatt offers a completely new understanding of a central question in American history how did Americans come to think that God favored the United States above other nations Tracing the story of American providentialism this book uncovers the British roots of American religious nationalism before the American Revolution and the extraordinary struggles of white Americans to reconcile their ideas of national mission with the racial diversity of the early republic Making sense of previously diffuse debates on manifest destiny millenarianism and

American mission Providence and the Invention of the United States explains the origins and development of the idea that God has a special plan for America This conviction supplied the United States with a powerful sense of national purpose but it also prevented Americans from clearly understanding events and people that could not easily be fitted into the providential scheme

Slavery's Ghost Richard Follett, Eric Foner, Walter Johnson, 2011-11-01 Three thoughtful contributions attempt to deepen and extend an emerging discussion about the limits to African American freedom and autonomy Slavery Abolition President Abraham Lincoln freed millions of slaves in the South in 1863 rescuing them as history tells us from a brutal and inhuman existence and making the promise of freedom and equal rights This is a moment to celebrate and honor to be sure but what of the darker more troubling side of this story Slavery's Ghost explores the dire debilitating sometimes crushing effects of slavery on race relations in American history In three conceptually wide ranging and provocative essays the authors assess the meaning of freedom for enslaved and free Americans in the decades before and after the Civil War They ask important and challenging questions How did slaves and freedpeople respond to the promise and reality of emancipation How committed were white southerners to the principle of racial subjugation And in what ways can we best interpret the actions of enslaved and free Americans during slavery and Reconstruction Collectively these essays offer fresh approaches to questions of local political power the determinants of individual choices and the discourse that shaped and defined the history of black freedom Written by three prominent historians of the period Slavery's Ghost forces readers to think critically about the way we study the past the depth of racial prejudice and how African Americans won and lost their freedom in nineteenth century America

Black Resettlement and the American Civil War Sebastian N. Page, 2021-01-28 Based on sweeping research in six languages Black Resettlement and the American Civil War offers the first comprehensive comparative account of nineteenth century America's greatest road not taken the mass resettlement of African Americans outside the United States Building on resurgent scholarly interest in the so called colonization movement the book goes beyond tired debates about colonization's place in the contest over slavery and beyond the familiar black destinations of Liberia Canada and Haiti Striding effortlessly from Pittsburgh to Panama Toronto to Trinidad and Lagos to Louisiana it synthesizes a wealth of individual state level and national considerations to reorient the field and set a new standard for Atlantic history Along the way it shows that what haunted politicians from Thomas Jefferson to Abraham Lincoln was not whether it was right to abolish slavery but whether it was safe to do so unless the races were separated

The Episcopalians David Hein, Gardiner H. Shattuck, 2005-08-01 The story of Episcopalians in America is the story of an influential denomination that has furnished a large share of the American political and cultural leadership Beginning with the Episcopal Church's roots in sixteenth century England The Episcopalians offers a fresh account of its rise to prominence Chronologically arranged it traces the establishment of colonial Anglicanism in the New World through the birth of the Episcopal Church after the Revolution and its rise throughout the nineteenth century ending with the complex array of forces

that helped shape it in the 20th century and the consecration of Gene Robinson in 2003 The authors focus not only on the established leadership of the church but also to the experience of lay people the form and function of sacred space the evolution of church parties and theology relations with other Christian communities and the evolving ministries of women and minorities

Liberian Dreams Wilson Jeremiah Moses, 2010-11-01 In the early nineteenth century the American Colonization Society was formed for the purpose of encouraging emigration of free blacks to Africa While intent on ridding the United States of what the Society s members saw as a dangerous black population the association also attracted some liberals who viewed its goals as an incentive toward emancipation Attitudes among African Americans toward colonization were varied some viewing it as an opportunity to start new lives in a free country and others seeing in it a deceptive scheme of the white man But when the passage of the Fugitive Slave Act in 1850 put the freedom of every person of African descent in jeopardy many began to consider emigration their only option This collection of historic documents illuminates the debate on emigration through the narratives of four black men who in 1853 traveled to the new black nation of Liberia Their accounts offer surprisingly different views and insights on the young country and provide both endorsements and condemnations of the colonization effort *Liberian Dreams* contains four selections that have never before been published in a single volume William Nesbit s attack on Liberia and its sponsors Samuel Williams s spirited defense of the black republic in response to Nesbit Daniel Peterson s pro emigration tract commissioned by the ACS and Augustus Washington s balanced critique of both sides of the issue Each account offers a perspective not found in the others and together they cover nearly the full range of debate among black Americans of that time These narratives shed light not only on the experience of creating a new country but also on the conflict among African Americans over the colonization effort and they offer a unique opportunity to witness African Americans encountering

Africans and their cultures The selection by Augustus Washington in particular reveals the insights of an educated community activist with a sure understanding of the issues at stake Historian Wilson Moses who has published widely on African American history and black nationalism provides an introduction that expertly places the selections in context

Beyond 1619 Paul J. Polgar, Marc H. Lerner, Jesse Cromwell, 2023-10-10 *Beyond 1619* brings an Atlantic and hemispheric perspective to the year 1619 as a marker of American slavery's origins and the beginnings of the Black experience in what would become the United States by situating the roots of racial slavery in a broader comparative context In recent years an extensive public dialogue regarding the long shadow of racism in the United States has pushed Americans to confront the insidious history of race based slavery and its aftermath with 1619 the year that the first recorded enslaved persons of African descent arrived in British North America taking center stage as its starting point Yet this dialogue has inadvertently narrowed our understanding of slavery race and their repercussions to the U S context *Beyond 1619* showcases the fruitful results when scholars examine and put into conversation multiple empires regions peoples and cultures to get a more complete view of the rise of racial slavery in the Americas Painting racial slavery's emergence on a hemispheric canvas and in one compact volume provides historical context beyond the 1619 moment for discussions of slavery racism antiracism freedom and lasting inequalities In the process this volume shines new light on these critical topics and illustrates the centrality of racial slavery and contests over its rise in nearly every corner of the early modern Atlantic World Contributors John N Blanton Jesse Cromwell Erika Denise Edwards Rebecca Anne Goetz Rana Hogarth Chloe L Ireton Marc H Lerner Paul J Polgar Brett Rushforth Casey Schmitt Jenny Shaw James Sidbury

New Directions in the Study of African American Recolonization Beverly Tomek, Matthew J. Hetrick, 2022-10-18 Beginning in 1816 the American Colonization Society worked to send American blacks to resettle in Africa From inception however its foundational ethos has been debated These debates continued long after the effective end of the ACS during WWI through the Civil Rights movement to today when even historians among the Press's own authors respectfully hold opposing views In this volume Beverly Tomek and Matthew Hetrick gather essays from scholars with different opinions and divergent methodologies offering not only new research to address some of the old questions about American colonization and missionary activities but also new questions to spur further debate

Journey of Hope Kenneth C. Barnes, 2005-10-12 Liberia was founded by the American Colonization Society ACS in the 1820s as an African refuge for free blacks and liberated American slaves While interest in African migration waned after the Civil War it roared back in the late nineteenth century with the rise of Jim Crow segregation and disfranchisement throughout the South The back to Africa movement held great new appeal to the South's most marginalized citizens rural African Americans Nowhere was this interest in Liberia emigration greater than in Arkansas More emigrants to Liberia left from Arkansas than any other state in the 1880s and 1890s In *Journey of Hope* Kenneth C Barnes explains why so many black Arkansas sharecroppers dreamed of Africa and how their dreams of Liberia differed from the reality This rich

narrative also examines the role of poor black farmers in the creation of a black nationalist identity and the importance of the symbolism of an ancestral continent Based on letters to the ACS and interviews of descendants of the emigrants in war torn Liberia this study captures the life of black sharecroppers in the late 1800s and their dreams of escaping to Africa
